Describe the Proposed Change* (Provide a concise description):

A-110 Aviation Transportation of Hazmat - Remove the (*if applicable) from this course -

Description of the Issue/Reason for Change* (Concise overview and background):

Remove the (*if applicable) from this course and make this a required course for all aviation user. Exception - supervisors, flight followers, line managers

All individuals involved in aviation operation should take the hazmat course. Hazmat is normally flown on every flight taken in DOI/USDA-FS operation.
This is an on-line course and it should be available and accessible to be taken when needed.
Save time for IATA checking qualification - will only need to look at one plan and not have to check two or three training plans

Systems Affected by Change* (i.e., IAT Website, IAT Guide, Policy):

OPM-4, IAT Guide, A-309 Instructor guide, IAT website, NWCG 310-1 and any other federal training documents that require A-110.

For IATS Use Only
