Received	This is a request for further information on the following case cited in the NOAA Office of General Counsel summary dated October 2017. http://www.gc.noaa.gov/documents/2017/Enforcement-Actions-10032017.pdf 8. AK1605973; Trident Seafoods Corporation – Company and individual were charged under the Magnuson-Stevens Act for putting forth delivery practices for observed vessels with the purpose of lowering salmon by-catch numbers, impeding the observers from collecting samples and resulting in a biasing of the observers sampling procedures and a biasing of the observed data provided to the National Marine Fisheries Service (NMFS). A Written Warning was issued. Specifically, I'd like a copy of the written warning issued in this case. I'd also like a copy of any initial charging documents.
Received	The National Marine Sanctuaries review, required by section 4 of this order. As it states: a. Within 180 days of the date of this order, the Secretary of Commerce, in consultation with the Secretary of Defense and the Secretary of the Interior, shall report the results of the review under this subsection to the Director of the Office of Management and Budget, the Chairman of the Council on Environmental Quality, and the Assistant to the President for Economic Policy.
