November 2, 2009

Dear Water Resource and Emergency Managers:

As representatives of agencies or organizations that deal with emergency preparedness and response, I would like to invite you to attend this year's northwest California Preseason Flood Coordination Meeting scheduled to take place on November 17, 2009 in Eureka, CA. See the enclosed tentative agenda for time and location of this meeting.

Preseason flood meetings are conducted annually at various locations throughout California to inform and assist emergency managers and support groups in preparing for the upcoming winter season. The Department of Water Resources along with some of our state and federal partners will provide a brief overview of current and forecasted weather and hydrologic conditions, flood operations, emergency coordination, roles and responsibilities of support agencies, and other related topics. Open discussion and questions by participants are encouraged at the end of the briefing.

We look forward to working with you on the flood preparedness and response issues of northwest California.

If you have any questions or comments, please contact Sherry Constancio of the Eureka Flood Center at sconstan@water.ca.gov or (707) 445-6576 or Wendy Stewart of the Joint State-Federal Flood Operations Center at wstewart@water.ca.gov or (916) 574-2619.

Sincerely,

A handwritten signature in black ink that reads "For Bill Croyle". The signature is written in a cursive style.

William Croyle, P.E., Chief
Flood Operations Branch
Hydrology and Flood Operations Office
