**INSTRUCTIONS FOR ENCROACHMENT PERMIT FOR
ADVERTISING ON BUS BENCHES, BUS SHELTERS, AND TRASH RECEPTACLES**

Thank you for your interest in an Encroachment Permit to allow advertising on bus benches, bus shelters, and trash receptacles. These permits are allowed under 17 AAC 20.005(c)—(e) as follows:

“(c) The department may issue a permit to allow advertising within highway rights-of-way on bus benches, bus shelters, and adjacent trash receptacles. The trash receptacles may not be located more than 15 feet from the bus bench or shelter. Except as provided in (d) and (e) of this section, the department will select the permittee through a request for proposals process that is consistent with state law and that considers

- (1) any annual payment from the permittee to display advertising allowed by this subsection;
- (2) the value of trash removal services, if any, to be provided by the permittee;
- (3) the proposed frequency of any trash removal services;
- (4) qualifications of the contractor for any trash removal services to be provided; and
- (5) other requirements that the department considers necessary to ensure compliance with AS 19.25 and this section and to protect public safety.

(d) The department may negotiate an agreement, subject to the requirements in (c) and (e) of this section, with a municipality that operates year-round transit service, to administer a permit system for advertising within highway rights-of-way on bus benches, bus shelters, and trash receptacles. The trash receptacles may not be located more than 15 feet from the bus bench or shelter.

(e) For bus benches, bus shelters, and adjacent trash receptacles described in AS 19.25.105(d)(1), the department may grant a permit at no cost to a nonprofit corporation that is exempt from taxation under 26 U.S.C. 501(c)(3). A permittee under this subsection may place its name or logo upon those bus benches, bus shelters, and trash receptacles, if the permittee has provided the bus benches, bus shelters, and trash receptacles. The trash receptacles may not be located more than 15 feet from the bus bench or shelter.”
