Foreword

Dear Readers,

This short Newsletter contains the invitation from the LOC and the call for papers for next year's 27th General Assembly of the IUGG in Montréal, Canada.

All IASPEI relevant symposia are planned for the last six conference days (12 – 17 July 2019). The Scientific Program Committee has compiled an attractive program, which covers a wide spectrum of different interests. The IUGG program will consist of 10 Union and 59 Joint Symposia. IASPEI will participate with conveners in all Union and 27 Joint Symposia, 9 of which will be led by IASPEI. In addition, IASPEI plans for 26 own symposia based on input from the IASPEI Commissions. I hope that this is also of interest for you and that I will see many of you in Montréal. So, please do not miss the deadline for submitting your abstract (18 February 2019).

Then, there follows a correction to the last newsletter.

IUGG in Montréal, Canada

"Beyond 100: The next century in Earth and Space Science"

The 27th IUGG General Assembly will be held July 8 – 18, 2019 at the Palais des Congrès in Montréal, Québec, Canada. This is a special opportunity for participants from Canada and from around the world to come together and share their science and culture. 2019 marks the 100th anniversary of IUGG; we will look back on the accomplishments of the previous century of Earth and space science research, and forward to the next century of scientific advancement. Join us for a host of scientific activities, including special public lectures, keynote Union lectures and a wide variety of themed sessions.

Abstract submission, online registration and accommodation reservation are all now open on our website: <http://iugg2019montreal.com/>,

and a call for workshop proposals will also be available soon.

We look forward to welcoming you to Montréal in 2019. Please sign up on the main web page if you would like to receive newsletters and updates for the conference.

Correction

I was informed that the last distributed Newsletter (September 2018) contained an error in the contribution about Fusakichi Omori. The first picture does not show young Fusakichi Omori but his colleague Sekiya Seikei (Kiyokage) (1855 – 1896), who in 1886, had been actually appointed as the first professor for seismology at the Imperial

University and was also worldwide the first professor for seismology (e.g., https://en.wikipedia.org/wiki/Sekiya_Seikei). The Newsletter on the IASPEI web-page has been accordingly corrected and the authors apologize for this error.

Meetings Calendar

We report below titles, dates, places and websites of the forthcoming meetings relevant to the interests of IASPEI scientists. If you are aware of events not listed below, please inform the Secretary General.

General Information about IASPEI

The International Association of **Seismology and Physics of the Earth's Interior** [[IASPEI](#)] is one of the eight Associations of the International Union of **Geodesy and Geophysics** [[IUGG](#)].

The other IUGG Associations are:

Int'l Association of Cryospheric Sciences [[IACS](#)]

Int'l Association of Geodesy [[IAG](#)]

Int'l Association of Hydrological Sciences [[IAHS](#)]

Int'l Association of Meteorology and Atmospheric Sciences [[IAMAS](#)]

Int'l Association for the Physical Sciences of the Oceans [[IAPSO](#)]

Int'l Association of Geomagnetism and Aeronomy [[IAGA](#)]

Int'l Association of Volcanology and Chemistry of the Earth's Interior [[IAVCEI](#)]

Scientific Assemblies

IASPEI holds an Ordinary General Assembly every four years in conjunction with each Ordinary General Assembly of IUGG. Between the General Assemblies, IASPEI holds a Scientific Assembly, sometimes meeting with one of the other Associations of IUGG.

Participation in IASPEI Activities

Since July 2015, all scientists participating in IASPEI activities are counted as members of IASPEI (see <http://www.iaspei.org/statutes.html>). IASPEI welcomes all scientists throughout the world to join in seismological research.

IASPEI is subdivided into several Commissions, many of which have working groups for the study of particular subjects in their general areas of interest. On occasion, these internal IASPEI groups issue their own newsletters or circulars and many maintain their own web sites. At the IASPEI Assemblies, the groups organize specialist symposia, invite scholarly reviews and receive contributed papers that present up-to-the-minute results of current research. The IASPEI web site gives, or provides links to, information on the range of IASPEI activities.

The IASPEI Web site

IASPEI can be found on the web at: <http://www.iaspei.org/>

Contacting IASPEI

The Secretary-General is the main point of contact for all matters concerning IASPEI.
