INTRODUCTION

The federal government has allocated funds to state social services programs since the mid – 1950’s. In 1956, the Social Security Act authorized the federal government to fund 50 percent of state social services expenditures based upon the belief that, through the provision of social services, the unemployed could achieve economic independence. In 1962, the federal match rate increased to 75 percent and broadened eligibility. This amendment allowed state social service departments to purchase services from other state agencies. In the years that followed, spending increased from \$194 million to \$1.6 billion.

In 1967, amendments were enacted requiring states to provide to train and motivate the unemployed, strengthen the family unit, and give states the authority to purchase services from private providers. Additionally, states were required to provide child day care services and homemaker services.

Congress limited federal spending for social services to \$2.5 billion annually in 1972. Then, in 1975, Congress amended the Social Security Act by adding a new provision, Title XX, which replaced the prior federal social services programs and set forth five broad national statutory goals:

- Achieve or maintain economic self-support to prevent, reduce, or eliminate dependency.
- Achieve or maintain self-sufficiency, including reduction or prevention of dependency.
- Prevent or remedy neglect, abuse, or exploitation of children and adults unable to protect their own interests or preserve, rehabilitate, or reunite families.
- Prevent or reduce inappropriate institutional care by providing for community-based care, home-based care or other forms of less intensive care.
- Secure referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions.

During President Ronald Reagan’s administration, Section 2352 of the Omnibus Budget Reconciliation Act of 1981 amended Title XX to establish the Social Services Block Grant (SSBG). The implementation of SSBG included federal funding reductions. In 1982, the block grant funds distributed to states were 19 percent below the 1981 funding level of \$35 million for South Carolina. From 1983 through 1991, South Carolina’s SSBG funding fluctuated from \$33.5 million to \$39.3 million and remained at the higher level through 1995.

In 1996, Congress reduced funding by 15 percent and as a result, South Carolina’s funding level was reduced to \$33.4 million. At the time of this reduction, Congress agreed to restore SSBG to its 1995 level; however, in 2001, the legislation to enact that promise did not pass. Over the last few years, South Carolina’s allotment has remained between \$23.6 million and \$25.3 million. During FFY 2013, the Budget Control Act of 2011, P.L. 112-25, commonly referred to as Sequestration, reduced South Carolina’s SSBG allotment from \$25.3 million to a little over \$24 million. Although the Sequestration applies only to mandatory spending after FFY 2013, the

Office of Community Services (OCS) advised South Carolina to base the SSBG Plan for 2014 on the reduced level of \$24,091,843. However, the state's actual allotment for FFY 2014 was \$23,606,812, about \$500,000 less. The final allotment for FFY 2015 was \$23,669,547; the allotment for FFY 2016 was \$23,878,248; and the allotment for 2017 was \$23,974,433. In the absence of a federal budget by the date of the plan, South Carolina used the FFY 2017 allotment of \$23,974,433 for the pre-plan amount for 2018.

The Social Services Block Grant Program provides flexible funding to assist States in providing a wide range of services to children and families, at-risk adolescents and young adults, vulnerable adults, and persons with disabilities. SSBG funds are to enable each State to furnish social services best suited to meet the needs of the individuals residing within the State. The Office of Community Services (OCS), Administration for Children and Families (ACF) of the United States Department of Health and Human Services (HHS), administers the SSBG Program and provides technical assistance to the States. The federal oversight agency calculates state allocations for SSBG in proportion to each State's population. States have substantial discretion in the use of SSBG funds. Each State determines what services to provide, who is eligible to receive them, and how to expend funds within the requirements of Federal laws.

Although States have this flexibility, Federal Public Law 97-35 prohibits the use of SSBG funds for the following:

- To purchase or improve land, or the purchase, construction, or permanent improvement, other than minor remodeling, of any building or other facility.
- To provide cash payments for costs of subsistence or for the provision of room and board, unless: (1) the costs of subsistence occur during rehabilitation, (2) room and board are provided for the short term as an integral part of a social service, or (3) temporary emergency shelter is provided as a protective service.
- To pay wages to any individual as a social service, other than payment of wages of welfare recipients employed in the provision of childcare services.
- To provide medical care other than family planning services, rehabilitation services, or initial detoxification of an alcoholic, or drug-dependent individual, unless it is an integral but subordinate part of a social service.
- To provide social services, except services provided in and by employees of any hospital, skilled nursing facility, intermediate care facility, or prison, to any individual living in such as institution.
- To provide for any educational service which the state makes generally available to its residents without cost and without regard to their income.
- To pay for any child day care services, unless such services meet applicable standards of state and local law.
- To provide cash payment as a service.
- To pay for any item or service other than an emergency item or service furnished.

Additional provisions, conditions, Codes of the Federal Registry (CFR), and Office of Management and Budget (OMB) Circulars are also required in order for State to receive their SSBG Allotments. These requirements may be found at <https://www.acf.hhs.gov/ocs/programs/ssbg>.

STATE OFFICE and DEPARTMENTS

As the only state agency designated to administer SSBG funds, SCDSS procures SSBG services from state agencies, public and private providers, universities, and other entities. SCDSS administers these funds based upon a priority plan for services. Without additional funding, SCDSS has made mandated services, such as Child and Adult Protective Services, and continuity of priority services, such as Home Based services (Homemaker), its primary focus in the distribution of SSBG funds.

Staff in SCDSS state office divisions of Adult Advocacy, Human Services, Cost Allocation, Budgets, and Executive Management work together in administering SSBG funds for SCDSS direct operations and allocating funding for services purchased through contracts and grants. Funds are also directly allocated to County offices for purchase of prevention/intervention services, such as counseling, payment of utilities, and other services to prevent a child's placement in foster care, to prevent the foster care placement from disrupting, and to facilitate permanency for children through ameliorating the problems that brought them to the agency's involvement or to facilitate adoption.

FISCAL OPERATIONS

South Carolina DSS program staff, in collaboration with SCDSS Budget staff, annually develops a program plan for allocating SSBG funds. Through the planning process, the state seeks to allocate social service resources in a fiscally accountable manner to address and ensure that SSBG meets the priority service needs of the state. SCDSS Executive staff reviews and approves the Plan. Consistent with state and federal requirements, citizens receive assistance to achieve, restore, and maintain a level of health, social, and economic well-being. As SSBG funding is a capped resource, the ability to develop new programs and address more needs of the state is limited. Continuity of priority services and the provision of mandated services is the State's primary focus in development of the Pre-Expenditure Plan.

South Carolina does not hold a public hearing for comment on the SSBG Plan; however, the citizens of the state and service providers can review and comment on the Pre-Expenditure Plan via the SCDSS website. A hard copy of the Pre-Expenditure Plan is also available for review at SCDSS, 1535 Confederate Avenue Extension, Columbia, SC, Room 507. The public can e-mail questions and comments to program staff charged with preparing the plan.

Program areas within SCDSS are required to develop budget projections to ensure allocation of financial resources meets strategic objectives; that budgeted operations are within available funding; and that the agency derives maximum benefit from all available funding sources. The budget process requires an analysis of resource allocation and funding needed for budgeted operations. This process includes a

review of necessary expenditures from the cost allocation manager through the senior management levels of the Agency.

SCDSS allocates costs to the SSBG program based upon a federally approved Public Assistance Cost Allocation Plan revised effective July 1, 2012. Payroll expenditures are charged directly to the program or are allocated using approved cost allocation bases. Service delivery site interviewers and/or staff completes a Random Moment Time Study (RMTS) or self-directed time studies. The Random Moment Time Study is an email based web application conducted by an independent contractor. Staff are randomly sampled throughout the applicable period and responses are electronically recorded. Quality control measures are built into the system to ensure reliability of the sample.

SCDSS follows the State Procurement Code in contracting with entities to provide SSBG services. SCDSS issues Requests for Proposals (RFPs) or Requests for Bids for most of its purchased services. In the procurement process, potential providers must submit line item budgets for service delivery. Through this competitive process, the agency awards contracts for one year, with the option to renew for an additional four years.

PORGRAM OPERATIONS

SOCIAL SERVICES DELIVERY SYSTEM

South Carolina uses a goal-directed target group approach in the social services delivery system. This approach provides a conceptual framework within which SCDSS can identify a recipient's service needs and can develop, implement, and evaluate service plans with optimum participation of the recipients. The South Carolina Department of Social Services determines eligibility for services that support Adult and Child Protective Services and Foster Care for Children.

Eligibility Process

South Carolina utilizes a three-step process for determining eligibility for the SSBG program based on client need for the service, income eligibility for SSBG services, and target group. Applicants must meet the three criteria to be eligible. Even though a family or individual may be eligible, the provision of service depends upon availability of the service at the time.

Target Group Criteria

The first step of determining eligibility is identification of an applicant as a member of at least one of the target groups. Each target group is defined in terms of a problem or barrier experienced by SSBG service applicants.

The problem provides the parameters for developing a specific goal and measurable objectives. The target groups are prioritized, with Target Group 1 having the highest priority (see chart on next page).

<p>Target Group 1:</p> <p>Goals:</p> <p>Objective:</p>	<p>Individuals unable to protect their own interest from abuse, neglect, or exploitation.</p> <p>To protect children and impaired adults from abuse, neglect, or exploitation.</p> <p>To investigate and assess all reports of abuse, neglect, or exploitation.</p>
<p>Target Group 2:</p> <p>Goals:</p> <p>Objective:</p>	<p>Family units experiencing or in immediate risk of disruption.</p> <p>To eliminate or alleviate causes of family disruption.</p> <p>To maintain the family unit or arrange for a permanent, alternate family placement.</p>
<p>Target Group 3:</p> <p>Goals:</p> <p>Objective:</p>	<p>Individuals with functional impairments or handicaps that restrict their ability to independently perform age-appropriate activities.</p> <p>To enable functionally impaired individuals to achieve and maintain their maximum potential for independent living.</p> <p>The enable clients to remain in their own homes or other residential facility or to enable clients released from institutions to resettle in the community.</p>
<p>Target Group 4:</p> <p>Goals:</p> <p>Objective:</p>	<p>Individuals unable to achieve or maintain some degree of economic self-support because of their lack of job-related skills and/or their responsibility for caring for dependent family members.</p> <p>To enable individuals to achieve or maintain employment.</p> <p>To enable clients to achieve or maintain employment due to the provision of services to dependent family members.</p>
<p>Target Group 5:</p> <p>Goals:</p> <p>Objective:</p>	<p>Individuals and families unable, due to lack of age-appropriate skills, the function effectively in home management or personal care and hygiene.</p> <p>To enable individuals or families to achieve and/or maintain self-sufficiency.</p> <p>To prevent client regression to a more sever condition as evidenced by reclassification to Target Group 1 or 2, or to achieve or maintain some degree of self-sufficiency.</p>

Income Criteria

The second step of the eligibility process involves determining the income level of the applicant. Applicants must have a total family gross income at or below 200 percent of the poverty guidelines, or must need services provided by the state that are without regard to income. The SSBG Income Standards for FFY 2017 are included below.

SSBG INCOME STANDARDS Effective OCTOBER 1, 2016 – SEPTEMBER 30, 2017

FAMILY SIZE	GROSS FAMILY INCOME MONTHLY	GROSS FAMILY INCOME ANNUALLY
1	\$1,980	\$23,760
2	\$2,670	\$32,040
3	\$3,360	\$40,320
4	\$4,050	\$48,600
5	\$4,740	\$56,880
6	\$5,430	\$65,160
7	\$6,122	\$73,460
8	\$6,815	\$81,780

Note: For each additional family member above 8, add \$693 monthly or \$8,320 annually. Information and referral services, as well as any other SSBG services offered in conjunction with protective services, are available without regard to income.

Need Criteria

The third step of the eligibility process requires determining an applicant's need for the service. In addition to being a member of one of the target groups and meeting the income criteria, applicants must also demonstrate a need for the specific service.

Fees

All services in the SSBG Plan are provided without cost to eligible individuals. SCDSS allows providers of the Older American Act services to accept Voluntary Contributions from clients as long as there is no coercion on the part of the provider to collect the contributions and no negative impact on clients who do not contribute.

Group Eligibility Criteria

Group eligibility assumes that the majority of the recipients of a particular service, a specific community, or a service site would be eligible for service if the eligibility criteria were applied. This assumption allows authorized contractors to provide services to any recipient who meets the specific characteristics established by the administering agency. Therefore, recipient eligibility is determined by the group eligibility requirements instead of the three eligibility criteria outlined earlier.

Definition of SSBG Family

An SSBG Family includes the following members:

- One or more adults and children related by blood or law and residing in the same household
- Stepparents
- Military spouses not residing in the same household
- Adult children 18-21 years of age living away from home to further their education if their parents claim them as dependents on their income tax return

Definition of Adult and Child

In the SSBG program, an adult is defined as an individual eighteen years of age or older who receives services based on need. This includes emancipated minors and married minors. An individual 17 years of age or younger is defined as a child.

SSBG SERVICES

This section describes the SSBG services that SCDSS funded during FFY 2016. Demographics and other data provided in the charts for these services come from reports generated by the SCDSS Child and Adult Protective Services (CAPSS) case management system, cost allocation data, provider reports, and historical information. ADULT PROTECTIVE SERVICES

Reported on Post-Expenditure Report as Protective Services – Adult

Adult Protective Services are provided to individuals who are 18 years of age or older and are victims of actual or potential abuse, neglect, or exploitation. This mistreatment may be caused by others or may be self-inflicted. The Omnibus Adult Protection Act of the South Carolina Code of Laws authorizes the Department of Social Services to investigate all reports and provide services. Services are provided to meet the adults' basic needs and to ensure their safety. In some cases, emergency caretakers are utilized to sit with the individual temporarily. In FFY 2016, SCDSS staff completed assessments for abuse, neglect, or exploitation for 6,091 persons. Of the 2,746 persons that received treatment services as a result of substantiated reports, 122 received emergency personal care assistance services. Also, of the 2,746 recipients of treatment services, 73% were 60 years of age and older, and 13% were 85 years and older. SCDSS provides this service at the county level in all 46 counties of the state.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL
CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

March 22, 2017

The Honorable Henry D. McMaster, Governor
and
Members of the General Assembly
Columbia, South Carolina

Report on Compliance for Each Major Federal Program

We have jointly audited the State of South Carolina's (the State) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the State's major federal programs for the year ended June 30, 2016. The State's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The State's basic financial statements included the operations of certain agencies and component units that have been excluded from the schedule of expenditures of federal awards because each of the entities engaged other auditors to perform an audit in accordance with the Single Audit Act Amendments of 1996. As described in Note 1, these agencies and component units expended \$2,595,723,102 in federal awards during the year ended June 30, 2016.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the State's compliance.

The Honorable Henry D. McMaster, Governor
and
Members of the General Assembly
March 22, 2017

Basis for Qualified Opinion on the 5 Major Federal Programs Identified in the Following Table

As identified in the following table and as described in the accompanying schedule of findings and questioned costs, the State did not comply with requirements regarding the following:

State Administering Agency	Finding Number	CFDA Number	Federal Program/Cluster	Compliance Requirement
South Carolina Department of Education	2016-004	84.027 84.173	Special Education Cluster (IDEA)	Subrecipient Monitoring
South Carolina Department of Education	2016-005	84.367	Supporting Effective Instruction State Grant (formerly Improving Teacher Quality State Grants)	Subrecipient Monitoring
South Carolina Department of Education	2016-006	84.287	Twenty-First Century Community Learning Centers	Subrecipient Monitoring
South Carolina Department of Education	2016-007	84.048	Career and Technical Education (Perkins IV)	Subrecipient Monitoring
South Carolina Department of Natural Resources	2016-024	Various	Research and Development Cluster	Subrecipient Monitoring
South Carolina Sea Grants Consortium	2016-024	Various	Research and Development Cluster	Subrecipient Monitoring

Compliance with such requirements is necessary, in our opinion, for the State to comply with the requirements applicable to those programs.

Qualified Opinion on the 5 Major Federal Programs Identified Above

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the State complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the identified major federal programs for the year ended June 30, 2016.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2016.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2016-011, 2016-013 through 2016-017, 2016-019, 2016-21 through 2016-023, 2016-026, 2016-027, 2016-029, and 2016-031. Our opinion on each major federal program is not modified with respect to these matters.

The Honorable Henry D. McMaster, Governor
and
Members of the General Assembly
March 22, 2017

The State's responses to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and Appendix B – Agency Corrective Action Plans to Findings and Recommendations. The State's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control over Compliance

Management of the State is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2016-004 through 2016-008, 2016-018, 2016-020, 2016-024, 2016-025, and 2016-030 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questions costs as items 2016-009 through 2016-017, 2016-019, 2016-021 through 2016-023, 2016-026 through 2016-029, and 2016-031 to be significant deficiencies.

The State's responses to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and Appendix B – Agency Corrective Action Plans to Findings and Recommendations. The State's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The Honorable Henry D. McMaster, Governor
and
Members of the General Assembly
March 22, 2017

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have jointly audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of South Carolina as of and for the year ended June 30, 2016, and have issued our report thereon dated December 12, 2016 which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

2016-018 Child Support Enforcement – CFDA No. 93.563

Recommendation: We recommend that the Department continue its progress in implementing a data processing and retrieval system that complies with Section 454 (24) (B) of the Act.

Explanation of disagreement with audit finding: There is no disagreement with the audit finding.

Action taken in response to finding: The contract to design, develop, and implement a statewide child support system has been assigned to Xerox Corporation (now Conduent). The federal Office of Child Support Enforcement (OCSE) approved this contract in August of 2015. SCDSS will work with Xerox to transfer the child support system that is currently operational in Delaware. Additionally, fully operational versions of this system currently exist in Michigan and New Jersey.

Moreover, another system, Family Court Case Management System (FCCMS), will also be delivered through the project with Conduent (Xerox). SCDSS will work with Conduent to make the necessary modifications to this product for use in South Carolina and will deploy this system in parallel with the Child Support Enforcement System.
