

## Domestic Violence Numbers for the Past Five State Fiscal Years

*State Fiscal Year (SFY) = July 1 of first year listed through June 30 of second year listed*

***You will notice a significant change in the numbers for SFYs 2019-2020 and 2020-2021. More than half of the DV programs had to relocate to hotels/motels due to the Coronavirus pandemic. Only a few have relocated back to their shelters. The service contacts were conducted face to face; however, with the pandemic services started being delivered virtually. Those shelters that did not relocate along with the ones relocating back to the shelters are/will operate at 50% capacity per federal regulations during this crisis.***

**NOTES:**

- \* 13 Programs with a total of 18 Emergency Shelters
- \*\* Domestic violence programs provide services to victims of domestic violence that can, but doesn't have to, include emergency shelter. Currently, all domestic violence programs funded through SCDSS include emergency shelter. Some programs have more than one shelter site. Other services include, but are not limited to, counseling, legal aid, transportation, and employment assistance.
- \*\*\* Reflects the number of unduplicated adults and children served by providers. (Unduplicated=unique individuals)
- \*\*\*\* Residential and Non-Residential Counseling services, including individual and group counseling sessions. The significant decrease in the number between SFY 19-20 and SFY 20-21 is due to the COVID-19 Pandemic and CDC guidelines and policies regarding limited spacing for shelters.
