

Domestic Violence Numbers for the Past Five State Fiscal Years

State Fiscal Year (SFY) = July 1 of first year listed through June 30 of second year listed

You will notice an increase in the numbers for SFYs 2022-2023 from SFYs 2021-2022. All DV programs are operating at 100% capacity. DV Programs are sheltering both on-site and in hotels/motels. Whether on-site are in hotels/motels clients are receiving the same services such as individual counseling, group counseling, and employment assistance. The service contacts were conducted by face to face on-site visits.

Reporting Classifications	SFY 2018-2019	SFY 2019-2020	SFY 2020-2021	SFY 2021-2022	SFY 2022-2023
Emergency shelters *	17	18	18	18	18
Domestic Violence Programs **	13	13	13	13	13
Individuals receiving emergency shelter assistance ***	4,067	3,652	2,017	3,004	3,446
Service contact with women/men/children receiving individual and/or group counseling services ****	43,190	14,253	12,332	7,408	9,308

NOTES:

- * 13 Programs with a total of 18 Emergency Shelters
- ** Domestic violence programs provide services to victims of domestic violence that can, but doesn't have to, include emergency shelter. Currently, all domestic violence programs funded through SCDSS include emergency shelter. Some programs have more than one shelter site. Other services include, but are not limited to, counseling, legal aid, transportation, and employment assistance.
- *** Reflects the number of unduplicated adults and children served by providers. (Unduplicated=unique individuals)
- **** Residential and Non-Residential Counseling services, including individual and group counseling sessions. The significant decrease in the number between SFY 17-18 and SFY 18-19 is due to a change in the federal requirements: federal reporting is no longer asking for service contacts but want to know the number of individuals instead. This number is calculated from data submitted by providers per Federal Grant requirements.
