INSTRUCTIONS FOR DSS FORM 16150

INSTRUCTIONS

This form is to be used for recording meals offered to one infant on a weekly basis. For this form to be properly documented it must include the following:

- The Center's Name,
- The kind of formula infant is using (name of formula),
- The current month and year,
- Infant's name and date of birth,
- Indicate that a Medical statement is on file. A medical statement is required if the infant is receiving a formula that does not meet CACFP requirements.
- Indicate that an infant statement is on file,
- Write the appropriate date for the day of the week,
- For each meal service, list the CACFP meal offered or will be offered to the infant. If menus are planned in advance, any substitutions to the planned item must be recorded on the menu,
- Place a check in the box when the meal is provided to the infant,
- At the end of the each week total the checks for each meal service and indicate the total in the Meal Count box.
- At the end of each month staple all records for each infant. Summarized meals and snacks served and include this total on the claim for reimbursement.

Resource: Refer to the Feeding Infant Guide for Creditable food items.

NOTE

1. Infant formula and dry infant cereal must be iron-fortified.
2. Breast milk or formula, or portions of both may be served; however, it is recommended that breast milk be served in place of formula from birth through 11 months.
3. For some breastfed infants who regularly consume less than the minimum amount of breast milk per feeding, a serving of less than the minimum amount of breast milk may be offered, with additional breast milk offered if the infant is still hungry.
4. For infants 4-7 months a serving of iron fortified infant cereal, fruit or vegetable, bread and crackers is required when the infant is developmentally ready to accept it.
5. Fruit juice must be full-strength.
6. A serving of bread and crackers must be made from whole-grain or enriched meal or flour.
