SPECIALIZED FOSTER CARE

Managed Treatment Services (MTS), established in 1996, is a division of the South Carolina Department of Social Services (DSS). MTS provides intensive case management services to emotionally disturbed children in the custody of DSS who are being considered for and who reside in out-of-home therapeutic placements.

In expanding its efforts to better serve children, MTS is offering supportive foster care placements through the Specialized Foster Home Services (SFHS) initiative. SFHS is treatment-oriented substitute care in a family setting for children who require extra support services to live in a more normal environment.

SFHS is similar to regular foster care in that a child is placed in your home to live and is treated as a part of your family. However, the services offered through SFHS are more structured, intensive and based upon goal-directed treatment plans.

FOSTER PARENTS

with SFHS are licensed through DSS according to state standards and are provided with additional training and enhanced support through MTS.

QUALITIES OF A SFHS FOSTER PARENT

- ♥ Understanding
- ♥ Consistent
- ♥ Supportive
