

Districts Required to Submit the Title I Report of Comparability

All districts are required to submit a Title I Report of Comparability by **Friday, February 16, 2024** for the 2023-24 school year unless one of the following conditions exists:

- All schools in the district, or all schools except one, have less than 100 students enrolled on the October 1, 2023 count date.
- The district is a single site district with only one school, or only one school per grade span at a single site.
- The only schools in the district with an enrollment greater than or equal to 100 are in different grade spans.

Districts that do not meet the above conditions are required to submit a report of comparability even if all schools in the district are served as **Title I schools**. In that situation, the Title I schools are compared with each other rather than with the non-Title I schools.

Based on the October 1, 2023 data for the 2023-2024 school year, the following districts must file a Title I Report of Comparability for the 2023-2024 school year:

- Bering Strait School District
