

Using the What Works Clearinghouse Standards for Postsecondary Research Methods Courses

Tuesday, April 23, 2019 | 12:00–1:00 p.m. Eastern Time (ET)

Webinar Agenda

12:00–12:05 p.m. ET: Welcome and Introductions

Moderator: Sarah Caverly, Ph.D., Principal Researcher, American Institutes for Research (AIR)

Dr. Caverly will provide a brief overview of the webinar goals and introduce the presenters.

12:05–12:15 p.m. ET: The Development and Vetting of the WWC Standards

Presenter: Herbert Turner, Ph.D., Principal Scientist, ANALYTICA

Dr. Turner will discuss the development of the What Works Clearinghouse (WWC) standards and explain how the standards are vetted and updated to reflect the most current best practices in research methodology.

12:15–12:55 p.m. ET: WWC Standards in the Classroom

Presenters: Emily Tanner-Smith, Ph.D., Associate Dean for Research, College of Education, University of Oregon, and Herbert Turner, Ph.D., Principal Scientist, ANALYTICA

Drs. Tanner-Smith and Turner will identify resources on the WWC website that can serve as instructional tools for teaching research methods concepts in postsecondary classrooms. In addition, they will provide examples and syllabus topics for integrating WWC standards and resources into postsecondary research design, analysis, and systematic review or meta-analysis courses.

12:55–1:00 p.m. ET: Q & A and Wrap-Up

Moderator: Sarah Caverly, Ph.D., Principal Researcher, AIR

Dr. Caverly will moderate a Q & A session between participants and presenters.
