

Supporting Students in Literacy: Evidence-Based Resources and Recommendations from the What Works Clearinghouse

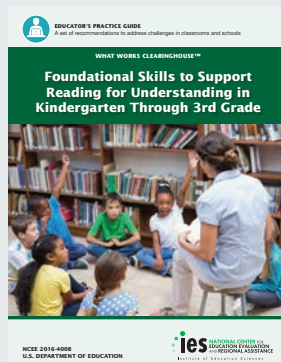

WHAT WORKS
CLEARINGHOUSE™
OCTOBER 2022

U.S. DEPARTMENT OF EDUCATION

A Publication of the National Center for Education Evaluation at IES

The COVID-19 pandemic has negatively impacted academic achievement and exacerbated educational inequities. Many students are performing below grade level, and students in communities most impacted by the pandemic have experienced some of the greatest declines in academic performance.

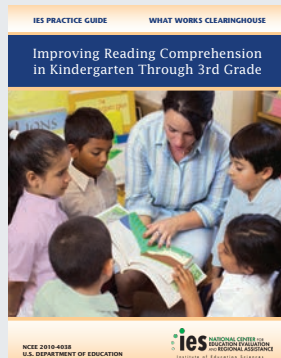

This handout accompanies a What Works Clearinghouse (WWC) and Regional Educational Laboratory (REL) Southeast webinar that provides examples of evidence-based instructional strategies that educators can use to help students improve their literacy skills. All resources are available for free.

Foundational Skills to Support Reading for Understanding in Kindergarten Through 3rd Grade

Four recommendations with implementation steps for teaching foundational reading skills to students in grades K-3.

The [What Works Clearinghouse \(WWC\)](#) is an initiative of the Institute of Education Sciences (IES) within the U.S. Department of Education. The WWC reviews high-quality education research and provides resources to help educators use evidence-based practices during instruction. WWC practice guides provide how-to steps and tips for educators on implementing evidence-based practices in particular areas.

[REL Southeast](#), an IES program, partners with educators, policymakers, and community organizations to develop evidence that improves policies and practices. REL Southeast has worked with these partners to develop resources to support educators to improve literacy for students who may be struggling.
