**New Grants** (New grants are shared once the department receives PADR 1 stating the account has been created):**Xiaoqi Liu (PI in 3 grants below):**

**NIH R01 CA264652**, "Plk1 as a prognostic biomarker for prostate cancer" Total funding: \$2,735,592 for 5 years. The studies of this proposal will dissect how Plk1-associated kinase activity regulates DNA damage response. Specifically, the proposed study aims to test the central hypothesis that Plk1 phosphorylation of Mre11 and MDC1, two critical DNA damage response factors, results in premature termination of DNA damage checkpoint, and reduced DNA repair. Co-Investigators include Drs. Zhiguo Li, Derek Allison, Chi Wang and Peng Wang.

**NIH R01 CA256893**, "Enhancing the efficacy of androgen signaling inhibitors in prostate cancer" Total funding: \$2,467,501 for 5 years. The studies of this proposal will examine how the activation of WNT signaling contributes to enzalutamide resistance in prostate cancer. Specifically, the proposed study aims to test whether b-catenin-dependent canonical WNT pathway contributes to growth of enzalutamide-resistant prostate cancer and whether activation of b-catenin-independent non-canonical WNT signaling results in metastasis of enzalutamide-resistant prostate cancer. Co-Investigators include Drs. Derek Allison, Chi Wang and Peng Wang.

**NIH R01 CA264652-6**, "Improving chemotherapy of castration-resistant prostate cancer" Total funding: \$1,741,725 for 5 years. The studies of this proposal will test how the epigenetic reader Brd4 regulates chemotherapy in prostate cancer. Specifically, the study aims to test the central hypothesis that Plk1-associated phosphorylation of Brd4 results in its protein degradation, thus docetaxel-associated Plk1 elevation is one approach to overcome resistance to Brd4 inhibitors. Investigators include Drs. Derek Allison, Chi Wang and Peng Wang.

**Teresa Fan and Richard Higashi:**

Co-Is, Exelixis Clinical Trial, PI: J. Kim, "MCC-21-GI-117: Phase II Clinical Trial Evaluating Cabozantinib and Pembrolizumab in Second-Line Therapy for Metastatic Pancreatic Adenocarcinoma" CESB Budget: \$33,423 for CESB Service Charges over 2 years. This clinical trial is for translational studies involving organoids and exosomal lipids for pancreatic cancer patients.

We hope everyone enjoyed their summer and has a strong semester ahead!

## DEPT. OF TOXICOLOGY AND CANCER BIOLOGY NEWSLETTER

VOLUME 2, ISSUE 3

### Faculty Activity:

#### Jin-Ming Yang:

Oncological Sciences Fellowship (F09B) Study Section. July 28 and 29.

#### Nathan Vanderford:

1. NIH Fellowships: Risks, Prevention and Health Behavior Special Emphasis Panel/Scientific Review Group. July.
2. CSR Advisory Council for input on NRSA Fellowship review criteria and process. Ad hoc basis September-February.
3. University of Kentucky Senate. Term is through August 2022.

#### Luksana Chaiswing:

Honored guest and featured speaker at University of Iowa's Larry W. and Terry D. Oberley Symposium, planned by the faculty, staff and students of the Free Radical and Radiation Biology Program and the Department of Radiation Oncology. June 15 and 16.

#### Richard Higashi:

NIH U24 Common Funds Study Section. July 2021.

#### Teresa Fan:

1. Mapping human tumor/immune metabolism using multiplex Stable Isotope-Resolved Metabolomics (mSIRM). CASMS. August 2021.
2. Innate immune activation by checkpoint inhibition in human patient-derived lung cancer tissues. Immunotherapy Translational Working Group, UKY. September 10.

### Congratulations to our PhD students who recently graduated!

**Dr. Huan Jin.** Mentored by Dr. Hunter Moseley. Defended July 2021.

Next steps: Postdoc at University of Kentucky in Dr. Moseley's lab

**Dr. Martina Lin.** Mentored by Dr. Chengfeng Yang. Defended July 2021.

Next steps: Postdoc at Columbia University Medical Center

**Dr. Jacob Machin.** Mentored by Dr. Thomas Tobin. Defended August 2021.

*Congratulations!*

### Annual DTCB Retreat

The 2021 Department of Toxicology and Cancer Biology Annual Retreat took place August 18, 2021 at The Club at UK's Spindletop Hall in Lexington, KY. It was a day filled with socializing, research, awards and gaining information. Thank you to the Retreat Committee Members for organizing it! We look forward to next year's!

### Award Winners:

**Post-Doc/Staff Research Fellowship (\$30,000):** Zhuangzhuang Zhang

**Thesis Fellowship (\$30,000):** Chaohao Li

**Excellent Research Fellowship (\$30,000):** Xiaojing Cui, Yanning Hao, Kristin Miller, Alston Zhang

**Research Fellowship (\$5,000):** Aziza Alshahrani, Hannah Daniels, Na Ding, Caitlin Miller, Kassie Naughton

**Retreat Poster Award (\$50):** Kate Jones, Tanner DuCote, Jinghui Liu

**Oral Presenters:** Jenni Ho, Cuiping Zhang, Kristin Miller, Yanning Hao, Courtney Kelson, Caitlin Miller
