- Lab Activity

Pg 4:

- Lab Activity cont.

Pg 5:

- 2022 DTCB Annual Retreat
- 2022 Retreat Poster Awards

Pg 6:

- 2022 Fellowships and Awards

Pg 7:

- New Students
- 2nd Year Lab Placements
- Passed Qualifying Exam

Pg 8:

- Student Forum
- Congratulations!

SUPPORT THE DEPARTMENT

Gifts to the department will be directed toward emerging needs and opportunities for our students, faculty research support, and unrestricted support for the department.

[Click here](#) to learn more and donate.

Thank you for your support!

THANK YOU!

MedChemExpress gave \$1,000 to specifically sponsor a separate joint lab retreat for Drs. Xiaoqi Liu, Li, and Fong.

New Grants (New grants are shared once the department receives PADR 1 stating the account has been created):

Dr. Zhiguo Li: NIH R01 CA266579, "Targeting Polo-Like Kinase 1 in Prostate Cancer to Enhance Therapeutic Efficacy". Total funding: \$2,226,128 for 5 years. The studies of this proposal will dissect the role of Plk1/p62/Nrf2 signaling pathway in CRPC, and to exploit the potentially therapeutic strategies that could benefit the CRPC patients. Specifically, the proposed study aims to test the central hypothesis that polo-like kinase 1 (Plk1) in the regulation of MDSC by activating p62/Nrf2 signaling pathway, eventually contributing to disease progression into castration-resistant stage. Co-Investigators include Drs. Derek Allison, Lutz, Charles, and Jinpeng Liu.

Dr. Xiaoqi Liu: 1. NIH R01 CA157429, "Overcoming Drug Resistance of Castration-Resistant Prostate Cancer". Total funding: \$1,447,357 for 5 years. The studies of this proposal will dissect how Plk1-associated kinase activity regulates epigenetic change. Specifically, the proposed study aims to test the central hypothesis that Plk1 phosphorylation of EZH2 leads to a functional switch from PRC2-dependent gene repression to PRC2-independent but AR-dependent transcription activation, eventually contributing to disease progression into castration-resistant stage. Most of the preliminary data of this grant was generated by Dr. Ricky Wang, a former graduate student of the lab. Co-Investigators include Drs. Derek Allison, Li Chen, and Christine Brainson. This is the second competitive renewal of an existing grant, originally started in 2011.
2. COBRE COM pilot: Plk1 in serine metabolism of prostate cancer

Dr. Teresa Fan:

1. R21EB032515 C. Zhu PI, T. Fan co-I. Non-destructive optical spectroscopic assay for high-throughput metabolic characterization of in vitro cell models and patient-derived organoids.
2. COBRE CCM pilot QB She PI, T. Fan co-I. Metabolomics support for lipid metabolism reprogramming analysis.
3. COBRE CCM pilot BM Evers PI, T. Fan co-I

Dr. Richard Higashi: COBRE CCM pilot T. Barrett PI, R. Higashi co-I. Validation of peripheral blood exosome lipid biomarkers in lung cancer and IBD.

Faculty Activity:

Dr. Xiaoqi Liu, Presentations:

1. July 27-31, 2022, The 18th Society of Chinese Bioscientists in America Scientific Symposium, Boston, MA. "Plk1 in prostate cancer progression and therapy resistance".
2. August 18, 2022, University of Louisville, Department of Pharmacology and Toxicology, Louisville, KY 40202 "Plk1 in lung cancer".
3. August 26, 2022, University of Georgia, Department of Environmental Health Science, Athens, GA 30602 "Plk1 in Cr(VI)-induced lung cancer progression".

Dr. Teresa Fan, Presentations: Innate immune activation by checkpoint inhibition in human patient-derived lung cancer tissues. 7th CESB Metabolism on Metabolism, UKy

DEPT. OF TOXICOLOGY AND CANCER BIOLOGY NEWSLETTER

Volume 3, Issue 3

Faculty Activity:

Dr. Jin-Ming Yang: Oncological Sciences F09C fellowship study section. July 14-July 15, 2022

Dr. Nathan Vanderford, Awards - Congratulations on all of your amazing accomplishments!:

1. Academy of Medical Educator Excellence in Medical Education Award, Teaching. Award recognizes members of the faculty who have made significant contributions in the educational programs in the College of Medicine at the University of Kentucky.
2. Society of Research Administrators International Excellence Award - Advanced. The award results from your ability to be a self-starter in both your workplace and in your own professional development, as well as your contributions as a speaker at SRAI Meetings.
3. Elected to fill one of two basic science seats on Faculty Council for the next three-year term.

Dr. Nathan Vanderford: Member/Co-chair, National Institutes of Health, Risk, Prevention and Health Behavior F16 Fellowship Special Emphasis Study Section (2022/10 ZRG1 F16-L (20) L)

Lab Activity:

The Wei Lab at 2022 ASBMB Meeting:

Left:
Yanning
Hao

Right:
Pratik
Thapa

Left: Aziza Alshahrani

Right: Na Ding

DEPT. OF TOXICOLOGY AND CANCER BIOLOGY NEWSLETTER

Volume 3, Issue 3

Lab Activity:

The Zaytseva Lab at a Meeting:

Courtney Kelson

Mariah Geisen

The Xiaoqi Liu Lab at 2022 AACR Meeting:

Everyone!

The Goellner Lab at 2022 AACR Meeting:

Breanna Knicely

Hannah Daniels

Kristin Miller

Everyone!

Volume 3, Issue 3

2022 DTCB Annual Retreat

This year's Retreat was held August 11, 2022 at UKY's Gatton Student Center. This year's Retreat was sponsored by Dr. David Li from MedChemExpress, LLC. Thank you everyone who helped organize it!

2022 Retreat Poster Awards (\$50)

Senior Students (L to R):
Qionsgi Zhang (Xiaoqi Liu)
Xiaojing Cui (Ying Liang)
Kristin Miller (Eva Goellner)

Junior Student:
Chrispus Ngule (J. Yang)

Post Doctoral Scholar:
Dong Li (Xia Liu)

DEPT. OF TOXICOLOGY AND CANCER BIOLOGY NEWSLETTER

Volume 3, Issue 3

2022 DTCB Fellowships and Awards

Thesis Fellowship (\$30,000): Xiaojing Cui (Liang)

Excellent Research Fellowship (\$30,000): Na Ding (Wei)

Research Fellowship (\$5,000): (L to R) Kristin Miller (Goellner), Yanning Hao (Wei), Mariah Geisen (Zaytseva), Hannah Daniels (Goellner)

Yulan Sun's Early Publication Award (\$500): (L to R) Kristin Miller (Goellner), Na Ding (Wei)

Yulan Sun's Outstanding Graduate Student Award (\$1,000): (L to R) Chaohao Li (Liu), Jenni Ho (St. Clair)

Dr. Matt Devalaraja Grad Student Travel Award (\$500): (L to R) Chrispus Ngule (J. Yang), Kassandra Naughton (Brainson), Caitlin Miller (Chaiswing)

Volume 3, Issue 3

Welcome to our new students!

Some of the new PhD Students

New Forensics Students

New TOX MS Student

New PhD Students:

Tristin Miller, Hamed Maasoumyhaghghi, Han Cong, Rakibul Alam, Mohammad Esfani Farahani, Min Zhang, Avery Childress, Maria Edwin, Christian Gosser, Kahleel Guerrier, Cheng Zhang, Dave-Preston Esoe.

New Forensics Students:

Amber Fregalette, Latasha Thompson, Alexis Corriette, Hailey Fite, Ila Iniyavan, Malone Lee, Alexis Obman, Hannah Harrell, Sky Lafary, Jennifer Grasso, Fernando Cardenas, McCall Price, Dylan Welch, Carlee Potter, Kayla Wolf.

New TOX MS Student:

Abigail Freeman

Lab Placement of Second Year PhD Students

Dr. Zhiguo Li Lab - Amos Akinyemi

Dr. Kate Zaytseva Lab - Jerika Durham

Dr. Ying Liang Lab - Kevin Fulp, Niyi Obaleye

Dr. Eva Goellner - Breanna Knicely

Dr. Xiaoqi Liu - Tempany Arbogast, Fatemeh Seilani, Maria Nur, Sai Wu

Congratulations to our PhD Students who passed their qualifying exam!

L to R: Tempany Arbogast, Charles Bailey, Mariah Geisen, Sarah Alqithami, Chrispus Ngule

DEPT. OF TOXICOLOGY AND CANCER BIOLOGY NEWSLETTER

Volume 3, Issue 3

The Student Forum has been coordinating some fun activities! Check it out -

July: Mammoth Cave Kayaking

Other Activities:

July: Tours of Mammoth Cave

August: General Meeting

September: Welcome Back Party!

Keep an eye on your email for future activities and meetings!

Cancer Biology T32 Fellows:

Congratulations to Courtney Kelson and Kate Jones on being awarded Predoctoral Fellowship positions on the Cancer Biology T32 (Markey Cancer Center)!

Recent PhD Graduation:

Dr. Chaohao Li (Xiaoqi Liu)
Dr. Li is now a Postdoctoral Scholar in Dr. Xiaoqi's Lab

Congratulations!

Alumni Awarded K01:

Dr. Christina Wicker (Dr. Tadahide Izumi's former student), now a postdoc at University of Cincinnati awarded K01.

Grant title: Mentored Career Development Award: Isothiocyanates to Improve response to Proton Radiotherapy

Funding agency: National Institute of Dental & Craniofacial Research

Total Award: \$300K

Budget period: 2022 -2025
