
Alison Gustafson PhD, MPH, RD
Department of Dietetics and Human Nutrition
College of Nursing
College of Agriculture, Food and Environment
University of Kentucky
Regular Title Series
Professor
Director of Food as Health Alliance

EDUCATION

BS Dietetics – 1998 Bradley University, Peoria IL
RD – 1999 Loyola University, Chicago IL
MPH – 2000 Boston University (International Health)
PhD – 2010 University of North Carolina Chapel Hill (Nutrition with Epidemiology Minor)

PROFESSIONAL AND ACADEMIC APPOINTMENTS

2023 – present Director Food as Health Alliance
2011 - present University of Kentucky Department of Dietetics and College of Nursing
Associate Professor - promoted July 2016
Assistant Professor – June 2011 – June 2016
Director of Graduate Program – July 2018 – July 2020
2021 – present University of Kentucky College of Nursing Joint Appointment
2013– present University of Kentucky Center for Poverty Research Affiliate
2019 – present University of Kentucky Center for Health Equity Transformation Faculty Affiliate
2019 – present University of Kentucky Center for Equality and Social Justice Affiliate
2006 – 2010 University of North Carolina Chapel Hill - Graduate Research Assistant
2008 – 2010 University of North Carolina Chapel Hill - Teaching Assistant
2005 – 2006 Hennepin County Health Department, Minneapolis - Director Community and Worksite Nutrition Programming
2004 – 2005 University of Wisconsin at Madison - Population Health Fellow
2003 – 2005 Illinois Stephenson County Health Department - Director Women’s Health
2001 – 2003 Lands’ End, Dodgeville, WI - Director Worksite Wellness
2000 – 2001 USAID Norton, Zimbabwe - Research Assistant
1999 – 2000 House Commerce Committee, Washington D.C. - Staff Assistant

HONORS AND AWARDS

2019 - present **University of Kentucky Senate Research and Education Committee Chair**, 10-person committee reviewing university policies and graduate education policies and their implementation before moving to Senate for final vote of approval.

2019 - present **University of Kentucky Senator**.
Elected representative for the College of Agriculture, Food and Environment.

2019 – 2021 **John I. and Patricia J. Buster Endowed Professorship.**

An Endowed Professorship at the University of Kentucky is the highest level of recognition established to support my research and scholarly agenda.

2016 - 2021 **Wethington Award.** University of Kentucky Provost Office

The Wethington Awards program is designed to recognize the success of individual faculty members who have obtained investigator-initiated competitive or prestigious extramural funding.

2017 - 2019 **Faculty Council.**

Elected representative of the College of Agriculture, Food and Environment.

2019 **George E. Mitchell Outstanding Service to Graduate Students.**

This award is to recognize outstanding career contributions to graduate training in the College of Agriculture, Food and Environment at the University of Kentucky.

2012 - 2013 **LEAD 21.**

One-year leadership program intended to develop leaders in the land grant institutions for future effective leadership, Associations of Public and Land-grant Universities (APLU).

2019 **Research Activity Award \$2,500**

The research award from the College Agriculture, Food and Environment at the University of Kentucky is designed to enhance excellence and innovation in research.

2018 **Women's Executive Leadership Council (WELD).**

Eight-month curriculum consists of 2 two-day retreats and monthly meetings covering leadership topics.

2015-2016 **Secretary Epidemiology Study Section Obesity Society.**

Tracked section activities when reviewing epidemiology study applications for the Obesity Society. Responsible for leading the section meetings, taking minutes, and recruiting students for student research awards.

2014 - 2015 **Office of Research Integrity Non-medical Internal Review Board (IRB).** Formally designated to review and monitor nonmedical research involving human subjects.

LEADERSHIP FOCUS

I have participated in our Research Leadership Academy through the Office of Vice President for Research. I have also served as the Director of Graduate Studies for two years. Through these leadership opportunities I have now created a Food as Health Alliance as a core institute within the University of Kentucky and serve as the Director. Efforts that involve a health care and agricultural response for better nutrition fall under the umbrella term "Food as Health." An emerging body of research and policy recommendations demonstrates the enormous promise of Food as Health interventions and administrative support across a range of health conditions in improving health, food insecurity, and reducing health care costs. **The Mission of the Food as Health Alliance is to** Increase and sustain the University of Kentucky impact in the interdisciplinary arena of food, agriculture, and health for the Commonwealth. This institute now guides researchers, educators, clinicians, and outreach staff to conduct research to inform policy recommendations for Medicaid and Medicare adults to receive cost-effective benefits related to Social Determinants of Health (SDoH). We have already raised \$500,000 in external funding to help support these efforts and have been recognized by the White House with our partnerships. Through this new Alliance we have established ourselves as the key technical and evaluation provider to understand how the Centers for Medicare and Medicaid policy regarding Social Determinant of Health (SDoH) practices can be cost-effective and efficient to reduce health disparities. My leadership focus brings together my research expertise in food insecurity policy but also mentoring of the next generation of leaders. In addition,

LEADERSHIP STYLE

My leadership style is a soft hand touch and creating a culture of respect and opportunity to embrace failure. I have honed this approach over several years in varying degrees and have found with a new

generation of students, scholars, and staff there are cultural norms that have shifted, and we need to allow for a greater emphasis on learning and growth rather than a particular outcome. I believe a leader highlights the strengths of team members while also creating a culture of utilizing our mistakes as key opportunities for growth. Over the past 12-years at the University of Kentucky I have been able to build bridges with departments across campus to facilitate an innovative approach to research while also growing the next generation of leaders in our state.

RESEARCH FOCUS

My research goals have focused on one central theme – examine and inform policy approaches to reduce food insecurity and interrelated social factors to improve health outcomes and subsequent healthcare costs. My research enterprise is built around examining the distal and proximal determinants to food insecurity among health disparate populations. Through primary data collection and secondary data analyses I have established an expertise with measurement of the food environment and food insecurity along with development of programs to address these ever-pressing issues. My accomplishments to date, include the ability to secure funding through extramural competitive grants but also through key collaborations with experts across universities. As Director of Graduate Studies, I was able to elevate the quality and quantity of admissions, while transitioning our forms, website, and reporting. I have been enthused by the high level of graduate student mentoring that continues to take place and anticipate additional student-led publications resulting from this mentorship. Mentoring several DHN assistant professors in grant writing and have led to meaningful collaborations on several USDA and NIH grant submissions. I have had graduate students publish first author papers and contribute to journal article submission and publication. I have mentored high school students, with one being awarded a first author publication and an award for best student paper from *Preventing Chronic Disease* journal. My publications have included assistant professors within the DHN and professors from various other universities across the nation.

GRANT FUNDING SUMMARY

Nationally Competitive Awards	\$7.6 million
State and Internal Competitive Awards	\$5 million
Industry Awards/Nonprofit	\$600,000
Total Funding - To date	~\$13 million
Total Funding Awarded to Gustafson Program	~\$6 million

Leadership	\$ Amount	% Effort	Dates	Funding Agency
PI	\$200,000	15%	10/1/23 – 9/30/24	Anthem/Elevance
PI	\$200,000	10%	4/1/23 – 3/30/24	Kentucky Association of Health Plans
PI	200,000 of 5 million	20%	7/18-7/22	CDC Subcontract
	\$100,000per year	10%	3/17-present	USDA Multistate
	190,000	40%	1/21-12/21	Share Our Strength
	746,827	25%	3/16-2/21	USDA AFRI
	138,150	14%	10/16-9/20	USDA Higher Ed Challenge
	20,000	20%	3/18-10/18	USDA ERS
	40,000	20%	5/14-5/16	USDA ERS
	\$150,000	20%	1/13-12/14	USDA AFRI Seed
Co-I	115,000 of 750,000	15%	9/20-8/24	NIH NIDDK
	2.5 million	10%	9/18-8/23	CDC – HOP 1809
	20,000 of 400,00	5%	1/18-2/20	USDA NIFA Feeding America Subcontract

	2.5 million	15%	10/14-9/18	CDC – HOP 1807
	25,000 of 750,000	10%	5/13-5-15	NIH R24

COMPETITIVE GRANT FUNDED PROJECT SUMMARIES

- Over 12-years have consistently secured 50-60% salary savings from grant sources.

Submitted Grants

Gustafson, A. 1/1/2024 – 6/30/2025. Development of User centered design screening and referral network for Food as Medicine – American Heart Association \$400,000 (PI 25% effort). This proposal allows for development of screening and referral refinement and testing based on new Centers for Medicaid and Medicare screening policy for Social Determinant of Health (SDoH). Participants will be recruited across Kentucky from UKHealthcare and Appalachian Regional Healthcare for participation.

Gustafson, A. 9/1/2023 – 8/31/2025. Me At My Best Always (MAMBA). National Institute of Health – NIMDH. PAR-20-150 \$275,000 R21 (PI 10% effort). The following factorial study design will allow the study team to understand which program and delivery components are ready for testing in a future, fully-powered, Optimization Phase trial based on pre-defined metrics. Participants (n=200) will be recruited through non-profit organizations in urban areas of Kentucky.

Awarded Grants in Progress

1. A24-0043 Department of Defense - DA Fort Bragg Army Base “Development and testing of a place-based behavioral "nudge" technology intervention to promote healthier food purchases among military service members at Fort Bragg”. PI:McGuirt, J 09/01/2023 – 8/30/2025
My role: Co-PI 15%
2. NCT Kentucky Association of Health Plans “Fresh Fund’s for Mom’s – food as your medicine as an approach to manage gestational diabetes and type 2 diabetes among women experiencing food insecurity”
PI: Gustafson, Alison 04/01/2023 – 06/30/2025
My role: PI 10%
3. NCT Anthem/Elevance “Development of food as medicine packages for residents in rural and urban communities” PI: Gustafson, Alison 10/1/2023 – 09/30/2025
My role: PI 15%
4. Williams L, Kiska A, Moser D, **Gustafson A**, Waters T. 9/1/2020 – 8/30/2024. Enhancing the Diabetes Prevention Program to promote weight loss among non-responders in a community-based lifestyle intervention – National Institute of Health (NIDDK). \$750,000 per year. Gustafson portion \$115,000 (Co-I, 15% effort, Nationally Competitive)

Awarded Grants Completed

1. Hunter J, **Gustafson A**, Mullins J, Cardarelli K. 9/30/2018 – 8/31/2023. Centers for Disease Control and Prevention – Programs to Reduce Obesity in High Obesity Areas – 1809 \$3.5 million (Co-PI, 25% effort, Nationally Competitive)

*As Co-PI, I lead the day-to-day oversight of the grant, manage monthly meetings, maintain grant operations in Martin County, and oversee fidelity to process and evaluation measures.

2. **Gustafson A.** 7/1/2018-6/30/2022. Kentucky Department of Public Health – Subcontract of Centers for Disease Control and Prevention State Physical Activity and Nutrition. \$5 million. Gustafson program \$200,000 (PI, 20% effort, Nationally Competitive)

*As PI, I am the expert evaluator for the state level food service guidelines and provide technical assistance to local health departments.

3. **Gustafson A.** 1/25/2021 – 12/31/2021. Online grocery shopping intervention as a way to improve food insecurity and dietary intake among low-income households. Share Our Strength. \$190,000 Gustafson program \$190,000 (PI 40% effort, Industry Competitive)

*As PI, I lead day-to-day management of all grant activities, including supervision of data collection and publication results.

4. **Gustafson A,** Jilcott-Pitts S, Mullins J, Bush H, Wall-Basset E, Babatunde T, Vail A. 3/1/2016-2/28/2021. United States Department of Agriculture – AFRI Childhood Obesity Prevention grant (Integrated Standard Grant submission). *Smart Shopping - Food shopping intervention among adolescents.* 2015-07954. \$746,827 (PI, 25% effort, Nationally Competitive)

*As PI, I lead the day-to-day operations and oversight of the grant, manuscript development, IRB, data presentations, and results.

5. Sandberg T (PI), Mullins J, **Gustafson A.** 1/30/2018 – 2/1/2020. United States Department of Agriculture – NIFA. *Farms to Food Banks Capacity-Building Project, Kentucky Association of Food Banks.* Subcontract through Feeding Kentucky. \$400,000. Gustafson portion \$20,000 (Co-I, 5% effort, Industry Competitive)

*As a Co-I, I assisted with data collection, data measures, and analyses.

6. **Gustafson A,** Hege A. (3/21/2017 – 9/30/2021) Hatch Funds/Multi-state project NC-1196. Examining the impact of in-store marketing and product placement to reduce unhealthy purchases among low-income. \$80,000 (PI, 10% effort, Internal Competitive)

*As PI, I lead the day-to-day operations, manage IRB, study measures, recruitment, and supervise graduate students participating in project.

7. **Gustafson A,** Stephenson T, Houlihan J, Hege A. 10/1/2016 – 9/30/2020. United States Department of Agriculture - Higher Education Challenge Grant NIFA-CGP-005716. *The Obesity Food Insecurity Paradox: Educating and empowering a diverse undergraduate student population through innovative curriculum and experiential learning opportunities.* \$138,150 (PI, 14% effort, Nationally Competitive).

*As PI, I led the day-to-day operations of the grant, created two new courses for DHN and a student mentoring program.

8. Vail A, Kurzynske J, **Gustafson A,** McGladrey M, Cardarelli K, Mullins J, Stephenson T. 10/1/2014 – 9/30/2018. Centers for Disease Control and Prevention - Programs to Reduce Obesity in High Obesity Areas. DP-14-1416. *Preventing Obesity in rural communities.* \$2.5 million (Co-PI, 15% effort, Nationally Competitive).

*The goal was to improve dietary intake and physical activity in six high obese counties. As Co-I, I lead all efforts related to improving food access and dietary intake across six counties in KY.

9. **Gustafson A,** 3/1/2018 – 8/31/2018. United States Department of Agriculture – Economic Research Service ERS. *SNAP Adequacy in Households with Adolescents.* \$20,000 (PI, 20% effort, Nationally Competitive).

*The goal of this project was to examine how SNAP benefits may be insufficient to meet nutritional demands among adolescents. I led all day-to-day efforts and data analyses.

10. **Gustafson A,** Schoenberg N. 5/7/14-5/6/16. United States Department of Agriculture -Economic Research Service [FoodAps Data] University of Kentucky Center for Poverty Research. *Neighborhood Disadvantage, Food store choice and purchasing habits association with dietary intake among SNAP and SNAP-eligible households.* \$40,000. (PI, 20% effort, Nationally Competitive).

*The goal of this grant was to examine the multi-level influences of food environment, neighborhood disadvantage on store choice, purchasing habits, and the interaction on key dietary outcomes. I led all day-to-day efforts related to data analyses and presentations of results.

11. Swanson M, Mullins J, Schoenberg N, **Gustafson A**. 5/15/2013-5/14/2015. National Institute of Health R24 Community Based Participatory Research Planning Grant – National Institute Minority Health and Disparities. *Appalachians Together Restoring the Eating Environment (Appal-TREE)*. \$750,000. Gustafson program \$25,000. (Co-I, 10% effort, Nationally Competitive).

*The goal of this grant was to develop community resources aimed at improving access and availability to healthy food within the Appalachian region. I assisted with dietary intake efforts.

12. Gustafson A, Taylor C, Adams I, Spees C. 1/1/2013-12/31/2014. United States Department of Agriculture Seed Grant AFRI. *Adolescent and parent food activity patterns as drivers in dietary intake*. \$150,000. (PI, 20% effort, Nationally Competitive). *The goal of this grant was to understand how adolescents, peers, and parents interact with each other, in-regards to food purchasing and travel patterns which influence dietary intake.

Submitted Unfunded Grants - Nationally Competitive

Gustafson A, Jones-Smith J, Courtemanche C, Darolia R, Gundersen C, Ziliak J. 9/30/2022 – 9/29/2026. National Institute of Health- National Institute Nursing Research R01. RFA – NR-22-001 Evaluating the Impact of Pandemic-related Food and Housing Policies and Programs on Health Outcomes in Health Disparity Populations. \$1.6 million (PI 30% effort, Nationally Competitive)

Gustafson A, McGuirt J, Anderson Steeves B, Williams L, Moser D. 09/30/2022 – 09/29/2026. National Institute of Health – National Cancer Institute R01. RFA-CA-20-051 *Social and Behavioral Intervention Research to Address Modifiable Risk Factors for Cancer in Rural Populations*. \$4.5 million (PI 40% effort, Nationally Competitive)

Gustafson A, Jones-Smith J, Walkinshaw L, Courtemanche C. 07/01/2022 – 06/30/2023. Robert Wood Johnson Foundation. COVID-19 impacts on food insecurity. (PI 25% effort, Nationally Competitive)

Gustafson A, Aull M, Walters J. Farm to School. 10/1/2020 – 9/30/2022. United States Department of Agriculture – NIFA. *Food and Agriculture Service Implementation Project (FASIP). Farm to School in Rural Kentucky: The Three C's*. \$223,000 (PI, 15% effort, Nationally Competitive).
Scored – Outstanding Priority ranked 7. Not enough funding due to COVID, top 5 were awarded funds.

Gustafson A, Evenson K, Jilcott Pitts S, Beck A. 10/1/2020 – 9/30/2022. National Institute of Health – National Cancer Institute. Time Sensitive Obesity Policy R01. *Community led infrastructure and place based behavioral nudges as an approach to reduce obesity and cancer risk in rural high poverty county*. \$976,612 (PI, 40% effort, Nationally Competitive).
Scored – 43%

Gustafson A, Norman H, Jilcott Pitts S, Maslow L. 10/1/2020 – 9/30/2025. United States Department of Agriculture – NIFA. *Geo-targeted text message intervention as a way to improve fruit and vegetable intake among rural residents*. \$ 840,000 (PI, 25% effort, Nationally Competitive).
Scored – Highest Priority

Gustafson, A. Stephenson T, Placencia J. United States Department of Agriculture – NIFA **Submitted 6/1/2019**. Higher Education Challenge Grant. *Global foods and culinary medicine with links to health disparity and equity*. \$300,000 (PI, 15% effort, Nationally Competitive). Scored High Priority

Gustafson, A Jacobson K, Niewolny K, Stephenson L. Coordinated agriculture project – United States Department of Agriculture – SAS **Submitted 7/15/2019**. *A Nutrition-Sensitive Agriculture Approach to Enhance rural economic growth and health*. \$7.5 million (PI, 30% effort, Nationally Competitive) Not Scored

Gustafson A, Valle C, Evenson K, Jilcott Pitts S. **Submitted 3/6/2020**. National Institute of Health – National Cancer Institute R01. *Community led infrastructure and place based behavioral nudges as an*

approach to reduce obesity and cancer risk in a rural high poverty county. \$3 million (PI 30% effort, Nationally Competitive).
Impact Score: 52 percentile 46%

Gustafson A, Mudd G, Moser D, Valle C, Jilcott Pitts S. **Submitted 6/5/2019** National Institute of Health - National Institute Nursing Research R01. *Geotargeted text message intervention among rural adolescents aimed to improve fruit, vegetable, and low-calorie beverage intake*. \$3 million (PI, 30% effort, Nationally Competitive).
Impact Score: 59 percentile 53%

Gustafson A. First submission 7/01/2015; Second submission 11/01/2015 National Institute of Health - National Institute Nursing Research. *Connecting together for a healthy weight: an evidence-based weight loss intervention among rural residents*. \$300,000 (PI)
First submission Impact Score 56; Second submission **Impact Score 53**.

Gustafson A Submitted 10/6/2014. National Institute Health – National Cancer Institute R01. *Association between home and community food environments and implementation of school “smart snack” policies*. \$1 million (PI, 30% Effort, Nationally Competitive). Scored: Not Discussed

Gustafson A, 2/12/2012 National Institute of Health- National Institute of Child Health and Human Development R03. *Appalachian children move more together*. \$150,000 (PI). Scored: Not Discussed
