

National Credit Union Administration

Quarterly Credit Union Data Summary 2024 Q3

Credit Union System Performance Data: 2024Q3

The Quarterly Credit Union Data Summary provides an overview of the financial performance of federally insured credit unions based on information reported by those credit unions to the National Credit Union Administration in the 2024Q3 Call Report. As of September 30, 2024, there were 4,499 federally insured credit unions with 142.0 million members.

Please direct inquiries about the quarterly credit union performance report to oeacmail@ncua.gov.

Selected Performance Indicators

- **Total assets** in federally insured credit unions rose by \$82 billion, or 3.7 percent, over the year ending in the third quarter of 2024, to \$2.31 trillion.
- **Total loans outstanding** increased \$41 billion, or 2.6 percent, over the year, to \$1.63 trillion. The average outstanding loan balance in the third quarter of 2024 was \$18,299, up \$471, or 2.6 percent, from one year earlier.
- The **delinquency rate** at federally insured credit unions was 91 basis points in the third quarter of 2024, up 19 basis points from one year earlier. The **net charge-off ratio** was 78 basis points, up 22 basis points compared with the third quarter of 2023.
- **Insured shares and deposits** rose \$44 billion, or 2.6 percent, over the year ending in the third quarter of 2024, to \$1.76 trillion.
- The **loan to share ratio** stood at 84.3 percent in the third quarter of 2024, down from 84.8 percent in the third quarter of 2023.
- The credit union system's **net worth ratio** was 10.94 percent in the third quarter of 2024, compared with 10.72 percent one year earlier. Note that beginning in 2023Q1, this ratio excludes the Current Expected Credit Loss (CECL) transition provision.
- **Net income** totaled \$15.8 billion at an annual rate in the year to date through the third quarter, down \$0.8 billion, or 4.7 percent, compared with the same period in 2023.
- The **net interest margin** for federally insured credit unions was \$70.5 billion at an annual rate in the year to date through the third quarter of 2024, or 3.09 percent of average assets. That compares with \$66.5 billion, or 3.02 percent of average assets, in the year to date through the third quarter of 2023.
- The **return on average assets** for federally insured credit unions was 69 basis points at an annual rate in the first three quarters of 2024, down from 76 basis points in the first three quarters of 2023. The **median annualized return on average assets** across all federally insured credit unions was 63 basis points, down 3 basis points from a year earlier.
- The **number of federally insured credit unions** declined to 4,499 in the third quarter of 2024, from 4,644 in the third quarter of 2023. In the third quarter of 2024, there were 2,820 federal credit unions and 1,679 federally insured, state-chartered credit unions. The year-over-year decline is consistent with long-running industry consolidation trends.
- The **number of credit unions with a low-income designation** declined to 2,446 in the third quarter of 2024 from 2,574 one year earlier. Their share edged down from 55 percent of all federally insured credit unions in the third quarter of 2023 to 54 percent in the third quarter of 2024.
- The **number of complex federally insured credit unions** (those with total assets greater than \$500 million) rose to 719 from 710 one year earlier.
 - 426 opted into the Complex Credit Union Leverage Ratio (CCULR) framework with an average CCULR of 11.99 percent.
 - 293 reported under the Risk-Based Capital (RBC) framework with an average RBC ratio of 15.32 percent.
- Federally insured credit unions added 3.2 million members over the year, and **credit union membership** in these institutions reached 142.0 million in the third quarter of 2024.

Balance Sheet Details

Assets

- **Total assets** in federally insured credit unions rose by \$82.2 billion, or 3.7 percent, over the year to \$2.31 trillion in the third quarter of 2024.
- **Cash** increased by \$40.0 billion, or 27.5 percent, to \$185.7 billion.
- **Total investments** fell \$10.2 billion, or 2.5 percent, over the year to \$392.2 billion in the third quarter of 2024.
 - Investments with maturities **less than or equal to one year** rose \$6.2 billion, or 6.3 percent, to \$104.7 billion.
 - Investments with maturities of **one to three years** were essentially unchanged at \$109.3 billion.
 - Investments with maturities of **three to five years** edged up \$0.8 billion, or 1.1 percent, to \$76.8 billion.
 - Investments with maturities of **five to 10 years** fell by \$12.3 billion, or 12.8 percent, to \$83.1 billion.
 - Investments with maturities **greater than 10 years** declined \$5.0 billion, or 21.6 percent, to \$18.2 billion.
- **Total loans outstanding** increased \$40.6 billion, or 2.6 percent, over the year to \$1.63 trillion. Growth across major categories was mixed.
 - **Loans secured by 1- to 4-family residential properties** increased \$36.4 billion, or 5.2 percent, to \$736.3 billion in the third quarter of 2024.
 - **Auto loans** fell \$15.2 billion, or 3.0 percent, to \$485.7 billion. Used auto loans contracted by \$4.7 billion, or 1.5 percent, to \$319.5 billion, while new auto loans declined by \$10.5 billion, or 6.0 percent, to \$166.2 billion.
 - **Credit card balances** grew by \$4.3 billion, or 5.5 percent, to \$83.0 billion.
 - **Non-federally guaranteed student loans** edged down \$0.3 billion, or 4.1 percent, to \$7.1 billion.
 - **Commercial loans excluding unfunded commitments** increased \$15.5 billion, or 10.1 percent, over the year to \$168.4 billion in the third quarter of 2024.
- The **delinquency rate** at federally insured credit unions was 91 basis points in the third quarter of 2024, up 19 basis points compared with the third quarter of 2023.
 - The delinquency rate on **non-commercial real estate** loans was 69 basis points in the third quarter of 2024, 20 basis points higher than in the third quarter of 2023.
 - The **credit card** delinquency rate rose to 216 basis points, up from 190 basis points one year earlier.
 - The **auto loan** delinquency rate increased 11 basis points over the year to 90 basis points in the third quarter of 2024.
 - The delinquency rate for **commercial loans excluding unfunded commitments** was 90 basis points in the third quarter of 2024, up 45 basis points from a year earlier.
- The **net charge-off ratio** for all federally insured credit unions was 78 basis points in the third quarter of 2024, up 22 basis points compared with the third quarter of 2023.

Liabilities and Net Worth

- Total **shares and deposits** grew by \$58.9 billion, or 3.1 percent, over the year to \$1.93 trillion in the third quarter of 2024. Regular shares declined by \$35.0 billion, or 6.0 percent, to \$553.0 billion. Other deposits increased by \$98.0 billion, or 10.8 percent, to \$1.01 trillion, led by share certificate accounts, which grew \$106.8 billion, or 24.0 percent, over the year to \$551.0 billion.
- The credit union system's **net worth** increased by \$14.0 billion, or 5.8 percent, over the year to \$252.9 billion. The aggregate net worth ratio — net worth as a percentage of assets — stood at 10.94 percent in the third quarter of 2024, up from 10.72 percent one year earlier. Note that beginning in 2023Q1, this ratio excludes the CECL transition provision.
 - The **net worth ratio for prompt corrective action** was 11.17 percent in the third quarter of 2024. This ratio considers the CECL Transition Provision, as applicable. The calculation can be found on Schedule G of the 5300 Call Report; see Account 998.

Income Statement Details

- **Net income** for federally insured credit unions in the first three quarters of 2024 totaled \$15.8 billion at an annual rate, down \$0.8 billion, or 4.7 percent, from the first three quarters of 2023. **Interest income** rose \$18.7 billion, or 19.6 percent, over the year to \$114.0 billion annualized. **Non-interest income** rose \$2.5 billion, or 10.4 percent, to \$27.0 billion annualized, largely reflecting an increase in other non-interest income.
- **Interest expense** totaled \$43.5 billion at an annual rate in the first three quarters of 2024, up \$14.7 billion, or 50.9 percent, from one year earlier. **Non-interest expense** grew \$4.0 billion, or 6.2 percent, over the year to \$68.4 billion annualized in the first three quarters of 2024. Rising **employee compensation and benefits**, which were up \$2.3 billion, or 7.0 percent, over the year, accounted for more than half of the increase in non-interest expenses.
- The aggregate **net interest margin** widened by \$4.0 billion, or 6.0 percent, over the year to \$70.5 billion annualized in the first three quarters of 2024.
- The credit union system's **provision for loan and lease losses or credit loss expense** increased \$3.3 billion, or 33.5 percent, over the year to \$13.2 billion at an annual rate in the first three quarters of 2024.

Performance by Asset Category

Consistent with long-running trends, credit unions with assets of at least \$1 billion reported the strongest growth in loans, membership, and net worth over the year ending in the third quarter of 2024.

- The number of **federally insured credit unions with assets of at least \$10 billion** declined to 21 in the third quarter of 2024 from 22 in the third quarter of 2023. These 21 credit unions held \$578.6 billion in assets, or 25 percent of total system assets. Credit unions in this category reported loan growth of 1.6 percent over the year. Membership rose 3.5 percent. Net worth increased 5.1 percent.
- The number of **federally insured credit unions with assets of at least \$1 billion but less than \$10 billion** increased to 423 in the third quarter of 2024 from 402 in the third quarter of 2023. These 423 credit unions held \$1.2 trillion in assets, or 52 percent of total system assets. Credit unions in this category reported loan growth of 5.8 percent over the year. Membership rose 5.9 percent. Net worth increased 8.9 percent.
- The number of **federally insured credit unions with assets of at least \$500 million but less than \$1 billion** declined to 275 in the third quarter of 2024 from 286 in the third quarter of 2023. These 275 credit unions held \$198.7 billion in total assets, or 9 percent of total system assets. Credit unions in this category reported a 6.1 percent decline in total loans outstanding over the year. Membership declined 6.8 percent, and net worth fell by 2.8 percent.
- The number of **federally insured credit unions with at least \$100 million but less than \$500 million in assets** fell to 1,048 in the third quarter of 2024 from 1,058 in the third quarter of 2023. These 1,048 credit unions held \$241.4 billion in total assets, or 10 percent of total system assets. Credit unions in this category reported a 1.6 percent decrease in total loans outstanding over the year. Membership declined 2.6 percent, while net worth rose 3.1 percent.
- The number of **federally insured credit unions with at least \$50 million but less than \$100 million in assets** declined to 619 in the third quarter of 2024 from 643 one year earlier. These 619 credit unions held \$44.7 billion in total assets, or 2 percent of total system assets. Credit unions in this category reported a 4.5 percent decline in total loans over the year. Membership declined 6.5 percent. Net worth rose 0.9 percent.
- The number of **federally insured credit unions with assets of at least \$10 million but less than \$50 million** declined to 1,228 in the third quarter of 2024 from 1,295 in the third quarter of 2023. These credit unions held \$32.1 billion in assets, or 1 percent of total system assets. Credit unions in this category reported a 5.2 percent decrease in loans over the year. Membership declined 5.8 percent, while net worth rose 0.9 percent.
- The number of **federally insured credit unions with less than \$10 million in assets** declined to 885 in the third quarter of 2024 from 938 in the third quarter of 2023. These credit unions held \$3.7 billion in assets, or 0.2 percent of total system assets. Credit unions in this category reported a 7.2 percent decrease in loans over the year. Membership declined 6.4 percent. Net worth edged down 1.3 percent.

Notes to Users

Changes to Quarterly Credit Union Data Summary

With the release of the 2024Q1 Call Report data, the official counts of federally insured credit unions and federal credit unions in 2023Q3 were revised. Previous and revised figures are shown in the table below.

	Original: 2023q4 Data Summary	Revised: 2024q1 Data Summary
2023q3 Federally insured credit unions	4,645	4,644
2023q3 Federal credit unions	2,908	2,907

Three new subgroups were added to the final table of the 2024Q1 Quarterly Credit Union Data Summary: Assets - \$1 billion to \$10 billion; Assets – Greater than \$10 billion; and Complex Credit Unions (Assets greater than \$500 million). One subgroup was deleted from the final table: Assets – Greater than \$1 billion.

Previous Changes:

The balance sheet section of the 2023Q3 Quarterly Credit Union Data Summary was modified to reflect a new definition of the balance sheet variable acct_as0041. The 2023Q3 Call Report revised this variable's definition and label to: Allowance for credit losses on held-to-maturity debt securities. Previously, from 2022Q1 through 2023Q2, the Call Report labeled acct_as0041: Allowance for credit losses on investment securities.

With the release of the 2023Q2 Call Report, a new column providing data for credit unions with a minority depository institution designation was added to the Summary of Credit Union Indicators by Type of Credit Union table in the Quarterly Credit Union Data Summary.

With credit unions implementing the Current Expect Credit Losses (CECL) accounting standard (ASC 326) in 2023, NCUA's CECL Transition Rule, *Transition to the Current Expected Credit Loss Methodology*, effective August 2, 2021, provides an add back for the decrease in retained earnings for determining the Net Worth Ratio for Prompt Corrective Action through 2026. Total Net Worth and the Net Worth Ratio formula are adjusted to exclude this add back. See <https://www.regulations.gov/document/NCUA-2020-0074-0020> for additional information.

A number of changes were made to the Credit Union Data Summary in 2022Q1. All of the changes, which are described in the table below, reflect a redesign of the Call Report in 2022Q1.

Summary of changes to the 2022Q1 Data Summary		
Type of change	Location	Item
Change in definition	Balance sheet: Assets	<i>Cash</i>
		The 2022q1 Call Report redefined cash to exclude cash equivalents (investments with original maturities of three months or less). To show a consistent time series, the Cash category in the Data Summary now represents cash on hand + cash on deposit for all quarters.
		<i>Total loans</i>
		The 2022q1 Call Report redefined loans to include loans to natural person credit unions, which were previously reported as investments ("Loans to and investments in natural person credit unions").

Summary of changes to the 2022Q1 Data Summary

Type of change	Location	Item
		<p><i>Total investments</i></p> <p>The 2022q1 Call Report introduced a new definition for Total Investments on the investment maturity schedule. The change:</p> <ol style="list-style-type: none"> 1) Removes the minimum maturity. Investments are no longer restricted to original maturities of greater than three months. 2) Excludes loans to natural person credit unions. 3) Does not subtract the allowance for credit losses on investment securities (Account AS0041). <p>The 2022q1 Quarterly Credit Union Data Summary revised the "Investments less than or equal to 1 year" time series to approximate the new definition. (That is, for quarters before 2022q1, the category was adjusted to include cash equivalents). For the other maturity series listed below--which were also affected by the various changes--adjustments cannot be made.</p>
Change in definition	Balance sheet: Assets	<p>Investments 1-3 years</p> <p>Investments 3-10 years</p> <p>Investments 3-5 years</p> <p>Investments 5-10 years</p> <p>Investments more than 10 years</p>
Change in Definition	Balance sheet: Assets (continued)	<p><i>Other Assets</i></p> <p>The 2022q1 Quarterly Credit Union Data Summary revised the Other Assets time series to reflect changes to the 2022q1 Call Report:</p> <p>Other assets = Cash - All other deposits (2022q1 only) - Total investments (investment maturity schedule) + Allowance for credit losses on investments (2022q1 only) - Total loans</p>
Time series ended in 2021q4 (Source accounts were deleted in 2022q1 Call Report)	Lending (YTD)	Real estate loans (includes commercial)
		Real estate, fixed rate, first mortgage (includes commercial)
	Delinquency	Fixed-rate real estate delinquency rate (includes commercial)
	Balance sheet: Addenda	Real estate fixed rate, first mortgage (includes commercial)
Time series deleted	Key Ratios	Long-term assets, percent of assets
Time series added: Non-commercial loans	Lending (YTD)	Real estate loans (excludes commercial)
		Real estate, fixed rate, first mortgage (excludes commercial)
	Delinquency	Non-commercial real estate delinquency rate
		Non-commercial real estate first mortgage delinquency rate
		Non-commercial loan delinquency rate
Balance sheet: Addenda	Real estate fixed rate, first mortgage (excludes commercial)	
Time series added: Income statement and Balance sheet	Income Statement: Total interest income	Other interest income (2)
	Balance sheet: Assets	Deposits: All other deposits (1)
		Allowance for credit losses on investments

Summary of changes to the 2022Q1 Data Summary

Type of change	Location	Item
Label change (No change to definitions)	Lending (YTD)	Commercial loans (granted or purchased) [<i>“Commercial loans” in 2021q4</i>]
	Income Statement: Non-interest expenses	Employee compensation and benefits [<i>“Labor expense” in 2021q4</i>]
	Income Statement: Total non-interest income	Other income (3) [<i>“Other operating income” in 2021q4</i>]
		Gains, losses, and other non-interest income (4) [<i>“Other (including gains and losses)” in 2021q4</i>]

The 2021Q1 Call Report was modified to report changes in fair value in accordance with *Accounting Standards Update 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities (ASU 2016-01)*, as codified in *Accounting Standards Codification Topic 321, Investments – Equity Securities (ASC 321)*. This standard went into effect for credit unions in January 2020 and requires presenting equity securities at fair market value. Starting in 2019Q1, the Call Report was modified to accommodate credit unions electing early adoption of this standard.

The 2021Q1 Call Report’s income statement was revised to more accurately reflect ASC 321. This led to several changes to the Credit Union Data Summary’s income statement section:

- The variable unrealized gain (loss) due to change in fair value of equity and trading debt securities was deleted from the Call Report’s interest income section. The last quarter of reporting is 2020Q4.
- Other changes to the Call Report related to ASC 321 resulted in content changes for three variables:
 - Total interest income section: Investment income
 - Total non-interest income section: Other operating income
 - Total non-interest income section: Other (including gains/losses)

Beginning in 2020Q2, the net worth ratio formula was modified to reflect changes in the Call Report. The new formula is as follows:

Net Worth (acct_997) divided by Total Assets excluding Small Business Administration Paycheck Protection Program (PPP) loans pledged as collateral to the Federal Reserve Board’s PPP Lending Facility (acct_nw0010) multiplied by 100

Prior to 2020Q2, the net worth ratio was calculated as follows:

Net Worth (acct_997) divided by Total Assets (acct_010) multiplied by 100

One change was made to the income statement tables in the Credit Union Data Summary with the release of the 2020Q1 Call Report:

Due to the implementation of the new accounting standard outlined below (*Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*), the variable interest income on securities held in a trading account was redefined and is now unrealized gain (loss) due to change in fair value of equity and trading debt securities.

Two changes were made to the income statement tables in the Credit Union Data Summary with the release of the 2019Q1 Call Report:

- (1) A new variable, interest income on securities held in a trading account, was added to the total interest income section.

The Financial Accounting Standards Board (FASB) on Jan. 5, 2016, issued a new Accounting Standards Update (ASU), *Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. The new standard addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The main objective in developing this new ASU is to enhance the reporting model for financial instruments to provide users of financial statements with more useful information.

This ASU affects all reporting organizations, whether public or private, that hold financial assets or owe financial liabilities. For all nonpublic organizations, including not-for-profit organizations and employee benefit plans, the ASU is effective for fiscal years beginning after Dec. 15, 2018, and interim periods within fiscal years beginning after Dec. 15, 2019.

For additional information on this new accounting standard see:

FASB Accounting Standards Update No. 2016-1: Financial Instruments – Overall (Subtopic 825-10), Recognition and Measurement of Financial Assets and Financial Liabilities, January 2016
[https://www.fasb.org/page/document?pdf=ASU+2016-01.pdf&title=Update%202016-01%E2%80%94Financial%20Instruments%E2%80%94Overall%20\(Subtopic%20825-10\):%20Recognition%20and%20Measurement%20of%20Financial%20Assets%20and%20Financial%20Liabilities](https://www.fasb.org/page/document?pdf=ASU+2016-01.pdf&title=Update%202016-01%E2%80%94Financial%20Instruments%E2%80%94Overall%20(Subtopic%20825-10):%20Recognition%20and%20Measurement%20of%20Financial%20Assets%20and%20Financial%20Liabilities)

- (2) The provision for loan and lease losses variable was expanded to include credit loss expense and is now called provision for loan and lease losses or credit loss expense.

This change stems from a new accounting standard issued by the Financial Accounting Standards Board (FASB), Accounting Standards Update (ASU) No. 2016-13, Topic 326, *Financial Instruments – Credit Losses*, on June 16, 2016. The new accounting standard introduces the current expected credit losses methodology (CECL) for estimating allowances for credit losses. The new standard applies to all banks, savings associations, credit unions, and financial institution holding companies (hereafter, institutions), regardless of size, that file regulatory reports for which the reporting requirements conform to U.S. generally accepted accounting principles (GAAP).

By issuing CECL, the FASB:

- Removed the “probable” threshold and the “incurred” notion as triggers for credit loss recognition and instead adopted a standard that states that financial instruments carried at amortized cost should reflect the net amount expected to be collected.
- Broadened the range of data that is incorporated into the measurement of credit losses to include forward-looking information, such as reasonable and supportable forecasts, in assessing the collectability of financial assets.
- Introduced a single measurement objective for all financial assets carried at amortized cost.

Effective date for credit unions: For an entity that is not a Public Business Entity (non-PBE), the credit losses standard is effective for fiscal years beginning after Dec. 15, 2022, including interim periods within those fiscal years. Thus, for a non-PBE with a calendar year fiscal year, the standard is effective Jan. 1, 2023, and the entity must first apply the new accounting standard in its financial statements and regulatory reports (e.g., the Call Report) for the quarter ended March 31, 2023.

For additional information on this new accounting standard see:

Interagency Policy Statement on Allowances for Credit Losses, June 2020 <https://www.federalregister.gov/documents/2020/06/01/2020-10291/interagency-policy-statement-on-allowances-for-credit-losses>

Starting with the quarter ending Sept. 30, 2017, data available from the Call Report began to reflect changes made necessary by the member business loan rule that took effect in January 2017. The change was part of NCUA's Regulatory Modernization Initiative.

The NCUA Board amended the MBL rule to give federally insured credit unions greater flexibility and individual autonomy to safely and soundly provide commercial and business loans to serve their members. The revised rule replaced prescriptive requirements and limitations—such as collateral and security requirements, equity requirements, and loan limits—with a broad principles-based regulatory approach. One immediate result was the elimination of the MBL waiver process, which is no longer needed under a principles-based rule.

The new rule required changes to the member business accounts in the Call Report. Starting with the 2017Q3 Call Report, almost all MBL accounts were deleted and replaced with new commercial loan accounts. A commercial loan is defined as:

Any loan, line of credit, or letter of credit (including any unfunded commitments), and any interest a credit union obtains in such loans made by another lender, to individuals, sole proprietorships, partnerships, corporations, or other business enterprises for commercial, industrial, agricultural, or professional purposes, but not for personal expenditure purposes.¹

Some loans that might otherwise be classified as commercial—not for personal expenditure purposes—are not included in the commercial loans definition. These are:

- Loans made by a corporate credit union;
- Loans made by a federally insured credit union to another federally insured credit union;
- Loans made by a federally insured credit union to a credit union service organization;
- Loans secured by a 1- to 4-family residential property whether or not it is the borrower's primary residence (securing greater than 50 percent of the principal amount of the loan at origination);
- Loans fully secured by shares in the credit union making the extension of credit or deposits in other financial institutions;
- Loans secured by a vehicle manufactured for household use; and
- Loans that would otherwise meet the definition of commercial loan and which, when the aggregate outstanding balances plus unfunded commitments less any portion secured by shares in the credit union to a borrower or an associated borrower, are equal to less than \$50,000.

In Call Reports prior to the Sept. 30, 2017 version, member business loans (acct_400T) included member (acct_400A) and non-member (acct_400B) business loans plus unfunded commitments. The Call Report continues to collect selected MBL-related accounts, which are necessary to comply with the Federal Credit Union Act. Account 400A was specifically carried over to capture total MBLs for measuring against the statutory cap. Beginning with the Sept. 30, 2017 Call Report, account 400A is labeled "Total member business loans—Net member business loan balance (NMBLB)."² (Refer to NCUA 5300 Call Report instructions for information on other MBL-related accounts.)

Section 105 of the Economic Growth, Regulatory Relief, and Consumer Protection Act (S.2155) amended the statutory member business loan limit to exempt all loans secured by a 1- to 4-family dwelling (residential property) from the definition of a member business loan. Previously, only loans secured by a 1- to 4-family dwelling that is the member's primary residence were excluded. This change was reflected in the NCUA's Rules and Regulations through a NCUA Board notation vote on May 30, 2018 and took effect with the 2018Q2 Call Report. Beginning in 2018Q2, the revised definition of a member business loan in account 400A should not include any loans secured by a 1- to 4-family residential property. For additional information on this change and other changes in S.2155 applicable to credit unions see: <https://www.ncua.gov/newsroom/Pages/ncua-report/2018/third-quarter/frequently-asked-questions-impact-s2155-credit-unions.aspx>

While there are conceptual similarities between MBLs and commercial loans, because they are defined differently, it is inappropriate to directly compare previous MBL accounts with new commercial loan accounts. In 2017Q3 and 2017Q4, the Quarterly Credit Union Data Summary reflected this by showing MBL and commercial loan data separately. Beginning in 2018Q1, the Quarterly Credit Union Data Summary displays only commercial loans.

¹ See NCUA Rules and Regulations 723.2 for a complete definition.

² See NCUA Rules and Regulations, 723.8 for a more complete discussion of what constitutes a member business loan for account 400A.

The changes described above primarily affect the loan section of the balance sheet tables in the Quarterly Credit Union Data Summary, beginning with the release of the 2017Q3 data:

- Commercial loans, year-to-date, at an annual rate and the commercial loan delinquency rate appear in the Summary Credit Union Data table on page one. Commercial loans, excluding unfunded commitments, are included in the loan section of the Balance Sheet on pages four and five. Each of these data series begins in 2017Q3; data before 2017Q3 are not available.
- Historical data on member business loans and the member business loan delinquency rate are also included in these tables. For all MBL variables, the final quarter of data is 2017Q2. Starting in 2018Q1, MBLs are no longer included in the loan section of the balance sheet, though the MBL account required for statutory purposes does appear in a separate Addenda item on the balance sheet tables to allow for historical comparisons.
- Due to changes to the Call Report resulting from the new MBL rule, a new variable, long-term assets, percent of assets, has replaced net long-term assets, percent of assets. Long-term assets represents the sum of real estate fixed-rate first mortgages and investments greater than three years.

With the release of the 2018Q1 Call Report, three new real estate loan variables were added to the loan section of the balance sheet tables in the Quarterly Credit Union Data Summary.

- These new variables are loans secured by 1- to 4-family residential properties, loans secured by 1- to 4-family residential properties secured by first lien, and loans secured by 1- to 4-family residential properties secured by junior lien.
- Two new commercial loan variables were added to the loan section of the balance sheet: commercial loans secured by real estate and commercial loans not secured by real estate.
- Real estate loans and real estate fixed-rate, first-mortgage loans were replaced by the three new real estate loan variables described above. These two accounts are still shown as separate Addenda items at the bottom of the balance sheet tables to allow for historical comparisons.
- Net member business loan balance for regulatory reporting, Part 723 (account 400A), is also reported as a separate Addenda item. This series extends back to 2004Q1.

For additional information on these new loan categories, see NCUA 5300 Call Report Instructions, effective Sept. 30, 2017, at <https://ncua.gov/files/publications/call-report-data/call-report-instructions-9302017.pdf>.

For more information on the new MBL rule, see National Credit Union Administration, 12 CFR Parts 701, 723, and 741 Member Business Loans; Commercial Lending; Final Rule in *Federal Register*, Vol. 81, No. 49, Monday, March 14, 2016, Rules and Regulations, page 13530. <https://www.ncua.gov/newsroom/Pages/ncua-report/2018/third-quarter/frequently-asked-questions-impact-s2155-credit-unions.aspx>

Data Source and Additional Resources

The financial information that appears in this publication is obtained from the NCUA 5300 Call Report submitted by all federally insured credit unions.

Additional resources are available at www.ncua.gov:

- Detailed credit union system performance data available on NCUA's [Credit Union and Call Report Data](#) webpage, including [Call Report data files](#), [Call Report quarterly summaries](#) and [financial performance reports](#).
- NCUA's Credit Union and Call Report Data page also includes a report on [Financial Trends in Federally Insured Credit Unions](#) illustrating industry trends.

Total Assets of Complex Credit Unions for RBC	\$863 billion
Average % RBC Ratio	15.32%
High / Low / Median of RBC Ratio % ⁴	59% / 8% / 34%
Average % NWR of RBC reporters	9.84%
High / Low / Median of NWR % ⁴	21% / 6% / 14%
Capital Classification (Well Capitalized, Adequately Capitalized, Below Adequately Capitalized)	708 / 11 / 0

¹ Based on 5300 Call Report data for federally insured credit unions deemed to be complex (those with total assets greater than \$500 million).

² The net worth ratio is calculated according to NCUA regulations part 702. This ratio considers optional assets elections, SBA PPP loans pledged as collateral to the FRB PPP Lending Facility, and the CECL Transition Provision, as applicable. The calculation may be found on Schedule G of the Call Report, see Account 998.

³ Highest, lowest, and median reported value as a percent of total assets for each line item for all CCULR credit unions.

⁴ Highest, lowest, and median reported value of each line item for all RBC credit unions.

Appendix 2: Summary Statistics for Non-Sufficient Funds (NSF) and Overdraft Fees: 2024Q3 Call Report¹

(Only credit unions with assets greater than \$1 billion were required to report)

Number of Credit Unions (Meeting reporting threshold)	444
Total Assets (\$ millions)	1,790,712.0
Total NSF and Overdraft Fees, Year-to-Date (\$ millions, non-annualized)	2,848.5

Number of Credit Unions Reporting	
\$0 in NSF Fees	43
\$0 in Overdraft Fees	23
\$0 in NSF and Overdraft Fees	10

	Asset Categories				Credit Unions with Minority Depository Institution Designation	Credit Unions with Low-Income Designation
	Total	\$1 to \$5 Billion ²	\$5 to \$10 Billion	Greater than \$10 billion		
Number of Credit Unions (Meeting reporting threshold)	444	366	57	21	20	281
Total NSF and Overdraft Fees, Year-to-Date (\$ millions, non-annualized)	2,848.5	1,375.6	530.5	942.4	103.9	1,571.4
NSF and Overdraft Fees:						
as % of Total Fee Income	55%	51%	54%	64%	49%	52%
as % of Non-Interest Income	18%	19%	15%	20%	20%	19%
as % of Total Revenue	3%	4%	3%	3%	4%	4%

Note that the final two columns are highlighted simply because they are distinct from the asset-based categories. Whereas a credit union can only fall into one of the asset categories, it can appear in one or both of these latter categories.

¹ Only credit unions with assets greater than \$1 billion were required to submit data. The account fields for overdraft and NSF Fees were, respectively, IS0048 and IS0049. As with other call report data fields, credit unions may ultimately revise their estimates. Because 2024Q1 was the first quarter in which credit unions were required to report this information, the likelihood that revisions may occur could be somewhat higher than for other data fields.

² This category includes credit unions with assets in excess of \$1 billion and up to \$5 million.
