

Creating a New Section

How to Create a Full-Term or Part-of-Term Section
How to Create a Synchronous or Asynchronous
Section

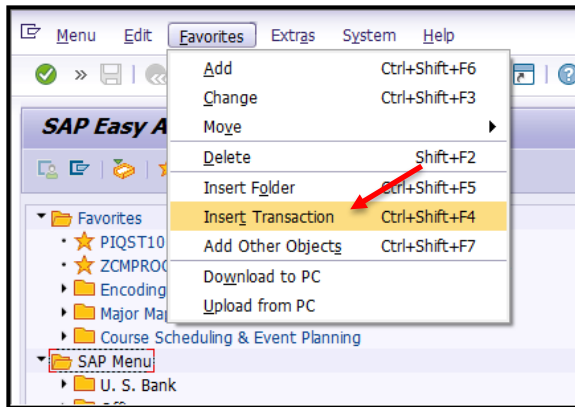

How to: Create a Full-Term Section

Step 1: Open the ZEVPLAN transaction in SAP.

If you do not have the ZEVPLAN transaction on your SAP home screen, you can add it by clicking the **Favorites** button in the top menu bar, then selecting "Insert Transaction". Type **ZEVPLAN** in the Transaction Code pop-up box and then click the checkmark to add it to your home screen.

Once you've opened ZEVPLAN, you will be taken to what is known as "Screen 1".

For courses where either existing sections or a section shell exist, you can proceed to **Step 3**.

If you encounter a course with no existing sections and no section shell, contact Nathan Congleton at nathan.congleton@uky.edu so that we can check the Senate approval status of the course and move forward with getting a section shell set up.

The screenshot shows a web application interface for creating an event offering. At the top, there are two radio buttons: "Module" (selected) and "Organizational unit". Below this, there are several input fields and dropdown menus:

- Object abbr.:** A text input field containing "JAT 201" and a dropdown menu showing "TELECOM TECH & SOCIETY".
- Acad. Year:** A dropdown menu showing "2022 Acad Year 2021-2...".
- Acad. Session:** A dropdown menu showing "10 Fall Semester".
- Override Resc:** A checkbox that is checked.

Below the input fields, there is a yellow button labeled "Offering" with a house icon. Underneath this is a toolbar with several icons and buttons: a search icon, a save icon, a pencil icon labeled "Event Package / Events", a document icon labeled "Package/Event", a trash icon labeled "Section Offering", and several other utility icons.

The main content area is titled "Event Offering" and contains a table with the following columns:

SECa...	Mod.(Abbr)	EventPkg	EP ID	Event Package (Description)	ObjectID	Name	Start Date	End Date	Mon Tu
---------	------------	----------	-------	-----------------------------	----------	------	------------	----------	--------

Step 3: To create a new section, click the “Create Package/Event” button.

This will take you to “Screen 2” of ZEVPLAN.

[Get shared Event](#) [Create Event](#)

MeetPatt	Event	Start Date	End Date	Name	Location	Room: Name	MaxCap	Instructor	Schedule
----------	-------	------------	----------	------	----------	------------	--------	------------	----------

Step 4: First, enter the Section Number of the new section.

The screenshot shows a web form titled "Event Package Info" with a sub-section "Main Info". It contains three input fields: "Event Pkg. ID" with the value "97433576", "Section" with the value "212", and a text field containing the course title "CULTURAL DIVERSITY IN THE MODERN WORLD".

Be sure to follow the appropriate numbering scheme according to the section's modality and location.

Regular, **In-person** sections should start at Section 001 and follow sequentially (ex. 001, 002, 003, etc.)

Distance Learning sections (whether **Fully Online**, **Hybrid**, or **Compressed Video/Simulcast**) should utilize 200-level section numbers, beginning with Section 201 and continuing sequentially.

Evening/Weekend, **Rural Health**, and **Education Abroad** courses should use 400-, 500-, and 700-level section numbers, respectively, and should follow the same sequential pattern. A section that falls under one of these categories and is also Distance Learning should use a section number that corresponds with the Evening/Weekend, Rural Health, or Education Abroad designation.

Course Type	Fall/Spring	Summer	Winter
Main Campus	001-099	010-099	301-399
Distance Learning	201-299	210-299	230-299
Evening Weekend	401-499	410-499	430-499
Rural Health	501-599	510-599	530-599
Education Abroad	701-799	710-799	730-799

Step 5: If the section requires a subtitle, enter the subtitle in the textbox.

Sections that require a subtitle will have some text indicating a subtitle is necessary. For instance, you might see "SR" (subtitle required) or "SUBT" or even "SUBTITLE REQUIRED".

All courses titles should be entered in **all caps**, and a course that does not display "subtitle required" should **not** be edited.

The image shows two screenshots of a course management interface, connected by a red arrow pointing downwards. The top screenshot shows a 'Main Info' section with the following fields: 'Event Pkg. ID' (97427242), 'Section' (011), and a subtitle field containing 'GREAT MOVIES: (SR)'. The bottom screenshot shows the same 'Main Info' section, but the subtitle field now contains 'GREAT MOVIES: GOOD VS. EVIL'.

Main Info			
Event Pkg. ID	97427242	Section	011
GREAT MOVIES: (SR)			

↓

Main Info			
Event Pkg. ID	97427242	Section	011
GREAT MOVIES: GOOD VS. EVIL			

Step 6: If the course is a Distance Learning course (ex. Fully Online, Hybrid, or Compressed Video), you will need to change the Location code to **10548782 – DLMULTISITE**. This Location box will also be used for sections that take place at a specific off-campus location, such as a Study Abroad or Independent Study locations.

You can use the search pop-up box to find the correct Location code. Click the search symbol, then search for the appropriate location in the pop-up box. Highlight the appropriate line and double-click it to add the selected Location.

Main Info

Event Pkg. ID	97433576	Section	212
Location	10000152		ain

Location (1)

S: Search Term T: Structure Search C: Abbreviation and Name

Search Term DL*

Main Info

Location	10548782		DLMULTISITE

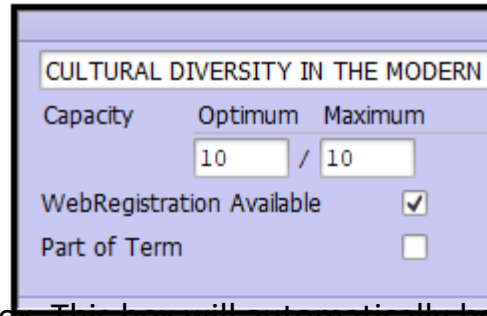

Location (1) 1 Entry found

S: Search Term T: Structure Search C: Abbrev

Object abbr.	Object name	Start Date	End Date
DLMULTISITE	Distance Learning Multi Site	07/01/2012	12/31/9999

Step 7: Enter the Capacity in the Optimum and Maximum boxes. **The number must be the same in both boxes.**

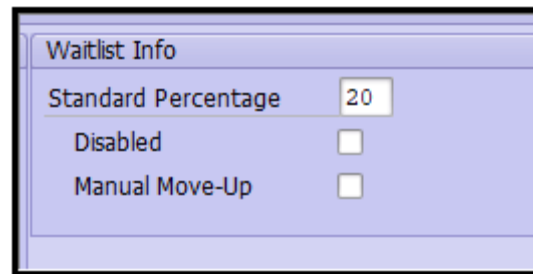

If students should be able to register for the course themselves through myUK GPS, make sure the “WebRegistration Available” checkbox is checked.

A screenshot of a web form for a course titled "CULTURAL DIVERSITY IN THE MODERN". The form has a light blue background and a dark blue header. Below the header, there are two columns of input fields. The first column is labeled "Capacity" and contains a text box with the number "10". The second column is labeled "Optimum" and contains a text box with the number "10". To the right of the "Optimum" box is a slash "/" and another text box labeled "Maximum" containing the number "10". Below these fields are two checkboxes: "WebRegistration Available" which is checked with a small square containing a checkmark, and "Part of Term" which is unchecked with an empty square.

DO NOT check the Part of Term checkbox. This box will automatically be checked if the section is built with Part-of-Term dates.

Step 8: If the course will have a waitlist, uncheck the “Disabled” checkbox and enter the percentage in the “Standard Percentage” box. The default waitlist percentage is 20% of the section’s capacity.

A screenshot of a "Waitlist Info" form. The form has a light blue background and a dark blue header. Below the header, there are three rows of input fields. The first row is labeled "Standard Percentage" and contains a text box with the number "20". The second row is labeled "Disabled" and contains an unchecked checkbox. The third row is labeled "Manual Move-Up" and contains an unchecked checkbox.

Check the “Manual Move-Up” checkbox if the department would like to control the waitlist manually.

Step 9: Click “Create Event” to define the meeting pattern for the new section.

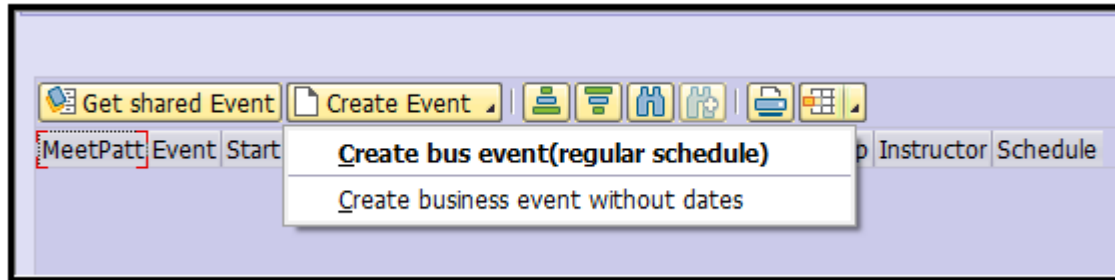

Module Offer Maintenance - Very important to also hit SAVE on this Screen 2 if you changed/deleted Event data on Screen 3!

REC	Recitation ANT 160 DL - Internet, web-ba	05/11/2010	12/31/9999

Important Update Notice:

Off-Campus event types are being phased out starting Spring 2022 and should not be used. Off-campus events should be setup based on how the course meets (In-person, Online, Hybrid, or Compressed video/simulcast). The "LOCATION" field on Screen 2 must be used to designate the Off-campus location of the course. If the location needed is not listed, please contact us to have it added.

Also, effective Spring 2022, course modality is maintained on Screen 2 via a new field designated "Instructional Method"; this is used to delineate how a course is being taught. Distance Learning instructional methods will not be available unless the course is approved by the Senate for distance learning. However, a course may still use a distance learning event type, provided that it does not account for the majority of instruction. For example, a course meeting MWF may setup in-person meetings for MW, and use an online (internet, web-based) meeting for Friday. Because the majority of the course is still being taught in-person, this is permitted.

Please refer any questions or support needs to course.scheduling@uky.edu.

“Screen 3” of ZEVPLAN will allow you to input any necessary information about the section’s meeting pattern, instructor, and room assignment.

Date	Weekday	Start Ti...	End Time	Off	Resource Type	Resource Ab...	Resource Desc.
		00:00:00	00:00:00				
		00:00:00	00:00:00				
		00:00:00	00:00:00				

Step 12: Define the Screen 3 capacity for the section. You must **enter the same number** in both the “Optimum Capacity” and “Maximum Capacity” boxes. **Do not** enter anything in the “Minimum Capacity” box.

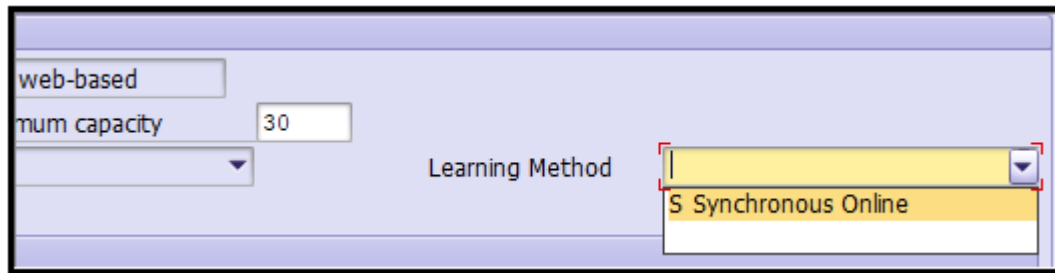

Section Info			
Event Package	Section 212	CULTURAL DIVERSITY IN THE MODERN WORLD	
Minimum capacity	0	Optimum capacity	10
		Maximum capacity	10
Campus	DLMULTISITE Distance Learning Multi Site		
Business Event Data			
Business event abbr.	LEC	Lecture ANT 160 DL - Internet, web-based	
Minimum capacity		Optimum capacity	30
		Maximum capacity	30
Location	10000152 Main -Main Campus - Lexington		
Schedule Category	Regular Schedule		

Note: The Screen 3 capacity must be at least the same or higher than the Screen 2 capacity. Entering a higher capacity on Screen 3 will allow you to increase the section capacity later, if needed, through the Course Capacities application in myUK.

However, you will need to make sure the Screen 3 capacity is low enough for to fit the room you'll assign to the section later (if applicable). For example, any room with a capacity of 30 or more would work for this section, but we would not be able to assign a room that only has 25 seats.

Step 13: If the Event is fully online, you may now select Synchronous Online or Asynchronous Online option as appropriate using the “Learning Method” dropdown menu.

In this case, the section will be **Synchronous Online** as it will be taught fully online and will have defined meeting days and times.

The image shows a screenshot of a web-based form. On the left, there are three input fields: a text box containing "web-based", a text box containing "num capacity" with the value "30" next to it, and a dropdown menu. To the right of these fields is the label "Learning Method". A red box highlights the "Learning Method" dropdown menu, which is open and shows a list of options. The first option, "S Synchronous Online", is highlighted in yellow. The dropdown menu has a small downward arrow on its right side.

Note: For sections that are not fully online, you will not need to select a Learning Method on Screen 3.

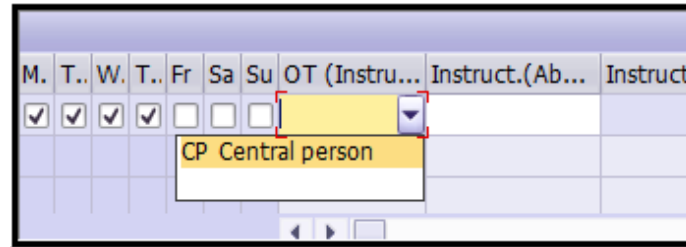

Step 14: If the section is being taught Fully Online or does not require a classroom to be assigned, check the “**No Roomplanning**” checkbox.

On the “**Schedule Elements**” line, enter the start and end times and check the appropriate boxes for which days the section will be meeting.

The screenshot shows a software interface for scheduling. The top section is titled "Schedule Description" and contains several input fields: "Relative Start" and "Relative End" (each with a text box and a "Unit" dropdown), and "Start Day" (a dropdown menu). Below these is a checkbox labeled "No Roomplanning" which is checked. A red box highlights this checkbox, and a red arrow points to it from the right. Below the checkbox are two buttons: "Generate Dates" and "Reset". The bottom section is titled "Sched.Elements" and contains a table with the following columns: "Start Time", "End Time", "M.", "T.", "W.", "T.", "Fr", "Sa", "Su", "OT (Instru...", "Instruct.(Ab...", and "Instruct.(Name)". The first row of the table has the following values: "09:00", "10:30", and checked boxes for "M.", "T.", "W.", and "T.". The other columns in the first row are empty or contain dropdown menus. There are also navigation arrows at the bottom right of the table.

Note: The start and end times use military time. For example, 1pm would be 13:00 and 3pm would be 15:00.

Step 15: To assign the instructor, first click the dropdown box and select “CP – Central Person”.

You can search by either “first name * last name” or simply by last name. Searching by last name only may yield a large number of results if the instructor has a common last name (ex. Johnson or Smith).

Object abbreviation: CONGLETON

Note: Do not attempt to add a room assignment before completing the Save steps. Adding a room assignment at this point will cause an error that will prevent the room from being assigned correctly to the section and will cause the room to not display in myUK.

Step 17: On Screen 2, click “Change Primary Instructor”.

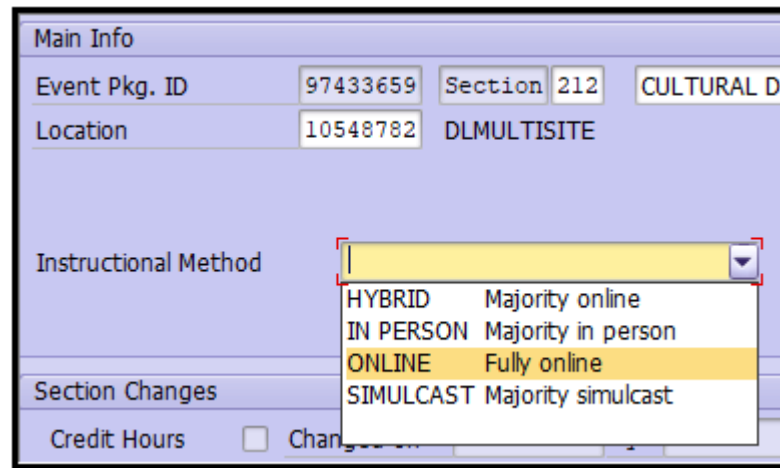

Make sure the correct instructor is appearing in the dropdown box, then click the checkmark to add this instructor as the primary instructor.

Note: If you do not know the instructor or primary instructor, you can skip this step for now.

Step 18: Select the appropriate overall section modality in the "Instructional Method" dropdown box.

The screenshot shows a software interface with a 'Main Info' section. It contains several input fields: 'Event Pkg. ID' with the value '97433659', 'Section' with '212', and 'CULTURAL DI' (partially visible). Below these is 'Location' with '10548782' and 'DLMULTISITE'. The 'Instructional Method' dropdown menu is open, showing four options: 'HYBRID Majority online', 'IN PERSON Majority in person', 'ONLINE Fully online' (which is highlighted), and 'SIMULCAST Majority simulcast'. Below the dropdown is a 'Section Changes' section with a 'Credit Hours' field and a 'Change' checkbox.

HYBRID should be used when the majority of instructional content is delivered through distance learning, but there is still a required in-person component. For example, this could include sections with an Online Lecture and In-person Recitations.

IN PERSON should be used when 50% or more of the instructional content is being delivered in person.

ONLINE should be used when all instructional content is delivered online (either asynchronously or synchronously).

SIMULCAST should be used when the majority of instructional content will be broadcast via compressed video to designated remote location (such as extended campuses).

Step 19: Once finished on Screen 2, click “Save” again to return to Screen 1.

How to: Create an Asynchronous Section

Step 1: Create the section and fill out the Screen 2 information as explained previously. On Screen 1, highlight the new section and click “Edit Package/Event”. Then, on Screen 2, click “Create Event” and select the second option “Create business event without dates”.

If the course has multiple Event Types to choose from, double-click the appropriate line to select the correct Type/Modality.

A screenshot of a table titled 'Business event type (1) 6 Entries found'. The table has four columns: 'Object abbr.', 'Object name', 'Start Date', and 'End Date'. The third row is highlighted in yellow.

Object abbr.	Object name	Start Date	End Date
LEC	Lecture ANT 160	01/13/1988	12/31/9999

How to: Create a Part-of-Term Section

Step 1: Follow steps 1-9 above to create the Section and input all necessary Screen 2 information. Then, highlight the newly created section on Screen 1 and click “Edit Event Package/Events”.

Edit Event Offering

Module Organizational unit

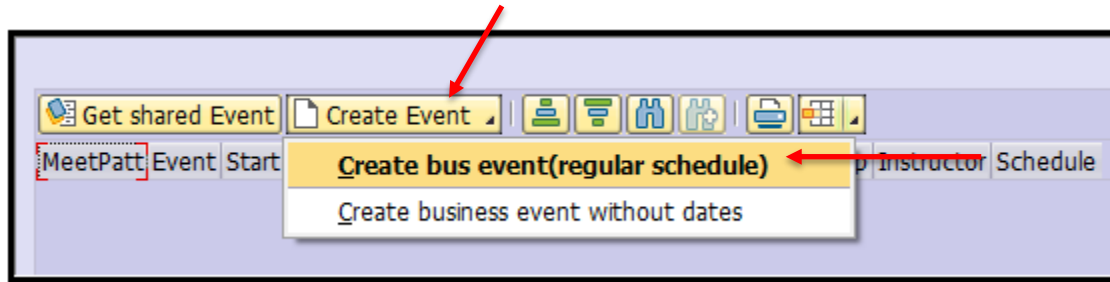

Object abbr. CULTURAL DIVERSITY IN THE MODERN WORLD

Acad. Year Acad. Session Override Resource Conflicts!

Event Offering

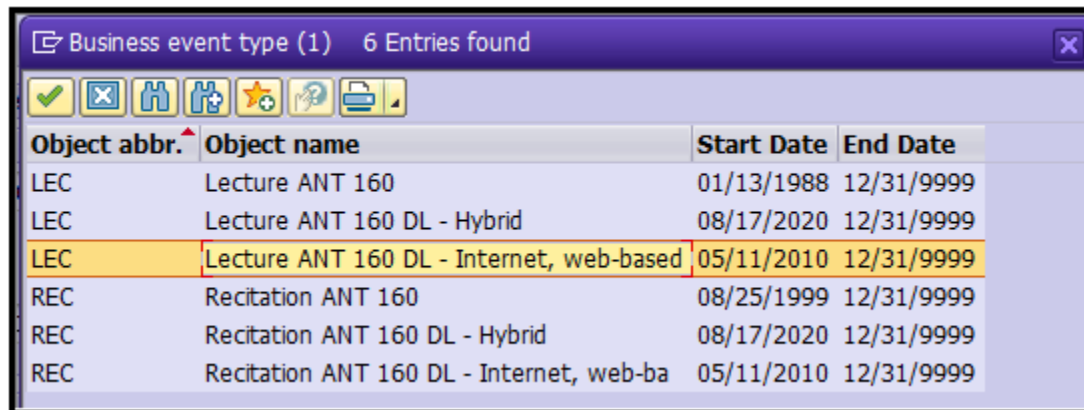

SECa...	Mod.(Abbr)	EventPkg	EP ID	Event Package (Description)	Object ID	Name of the business event
	ANT 160	Section 210	97403018	CULTURAL DIVERSITY IN ...	99728749	Lecture ANT 160 DL - Internet, web-based C
	ANT 160	Section 211	97433409	CULTURAL DIVERSITY IN ...	99728771	Lecture ANT 160 DL - Internet, web-based C
	ANT 160	Section 212	97433601	CULTURAL DIVERSITY IN ...		

Step 2: On Screen 2, click the “Create Event” button and then select “Create business event (Regular schedule)”.

Note: You must select “Create business event (regular schedule)” regardless of whether the Section will be **synchronous** or **asynchronous**. This is the only Event Type that allows you to define specific start and end dates.

Step 3: If the course has multiple Event Types to choose from, double-click the appropriate line to select the correct Type/Modality.

Business event type (1) 6 Entries found

Object abbr.	Object name	Start Date	End Date
LEC	Lecture ANT 160	01/13/1988	12/31/9999
LEC	Lecture ANT 160 DL - Hybrid	08/17/2020	12/31/9999

REC	Recitation ANT 160 DL - Internet, web-ba	05/11/2010	12/31/9999

Step 4: On Screen 3, use the “Relative Start” and “Relative End” lines to define specific start and end dates for the section.

The Red/Green Calendar will help you determine how many **Days After the Start of the Term** or **Days Before the End of the Term** a specific date is.

For this example, we want to set the start date as 5/20 and the end date as 8/1, so we will set the Relative Start to **3** and select “**Day(s) After Start of Class Period**” and then set the Relative End to **10** and select “**Day(s) Before End of Class Period**”.

You can click “Generate Dates” to check that the correct Start and End Dates will result from your inputs.

Schedule Description

Relative Start 3.00 Unit 8 Day(s) After Start of Class Period

Relative End 10.00 Unit 11 Day(s) Before End of Class Period

Start Day

No Roomplanning

Sched.Elements

How to: Create an Asynchronous Part-of-Term Section

Step 1: Create the section and fill out the Screen 2 information as explained previously. On Screen 1, highlight the new section and click “Edit Package/Event”. Then, on Screen 2, click “Create Event” and select the first option “Create business event (regular schedule)”.

Note: The “Create business event (regular schedule)” option is the only option that will allow you to input specific start and end dates for a Section. After inputting the specific dates, we will convert the Synchronous Event into an Asynchronous Event.

Step 2: On Screen 3, use the “Relative Start” and “Relative End” lines to define specific start and end dates for the section.

The Red/Green Calendar will help you determine how many **Days After the Start of the Term** or **Days Before the End of the Term** a specific date is.

For this example, we want to set the start date as 5/20 and the end date as 8/1, so we will set the Relative Start to **3** and select “**Day(s) After Start of Class Period**” and then set the Relative End to **10** and select “**Day(s) Before End of Class Period**”.

You can click “Generate Dates” to check that the correct Start and End Dates will result from your inputs.
