Appendix

I. Introduction

This regulation establishes the policies and procedures whereby the President delegates authority to administrative officers to enter into certain agreements and authorize payments on behalf of the University.

II. Policy

The President is authorized by the Board of Trustees to enter into certain agreements and authorize payments on behalf of the University.

This authority is delegated by the President to certain administrative officers of the University as outlined in this regulation and its Appendix. The University may be committed in these respects only in a manner consistent with this delegation.

In making these delegations the President has established minimum levels of responsibility for approval of transaction documents and contracts as indicated in this regulation. All general and specific delegations of authority under this regulation shall be consistent with these minimum levels of responsibility.

Although signatory or approval authority may be delegated below the minimum levels of responsibility indicated in this regulation, the assigned official remains fully responsible for all transactions executed under the delegated authority.

III. Definitions

A. Agreements and Contracts

An agreement or contract means an agreement between two or more parties creating obligations that are enforceable or otherwise recognizable at law. A contract may be many forms, including, but not limited to, a letter, memoranda of understanding, memoranda of agreement, lease, email, on-line agreement, or other.

B. Procurement

Procurement means the purchasing, buying, renting, leasing, or otherwise obtaining of any supplies, services, or equipment.

C. Transaction Documents

Transaction documents include all methods used to record the business activities of the University in its accounting records. Examples include purchase requisitions, payment request documents (PRDs), procurement card edits, travel vouchers, and payroll authorization records (PARs).

IV. General Delegation for Agreements and Contracts

- A. All agreements and contracts involving the University shall be approved by the President or the Executive Vice President for Finance and Administration (EVPFA), except as otherwise provided in this regulation.
- B. All agreements and contracts involving procurement shall be requisitioned through the Purchasing Division and comply with KRS 45A (Model Procurement Code), unless otherwise delegated. For example, the procurement card process is delegated to University departments pursuant to Business Procedures Manual B-3-2.
- C. All agreements and contracts shall be reviewed by the Office of Legal Counsel prior to execution. Blanket approval may be given for certain form contracts (e.g. student housing rental agreements, student loan agreements, and routine procurement contracts) at the discretion of the Office of Legal Counsel. Blanket approval, when given, shall be in writing.
- D. Human Resources and the Office of Legal Counsel shall be consulted on all agreements and contracts related to employment and employees. Human resources shall be consulted on all other transactions related to employment and employees.

V. Other Specific Delegations

- A. The President has delegated specific authority for approving contracts for certain services and activities to the administrative officers of the University as indicated the Appendix.
- B. The agent of the University for the service of all legal processes shall be the Office of Legal Counsel.
- C. The Office of the Treasurer is responsible for final review and approval of all payments as to propriety, source of funds, appropriateness of documentation, and adherence to University policies and regulations.

D. All delegations of signatory or authority approval shall be in writing.

VI. Procedures for Transaction Documents

- A. The Provost, executive vice presidents, and others reporting directly to the President are responsible for establishing plans for processing and approving transaction documents for their respective areas of responsibility in accordance with applicable Business Procedures Manual provisions, including *BPM E-1-3* and *E-17-6*.
- B. The responsible person for each expenditure cost object shall approve transaction documents. The following are applicable to financial transactions:
1. Signatory and approval authority may be delegated to persons under the direct supervision of the responsible person. All delegations shall be in writing. (See *BPM E-1-3*)
 2. Individuals cannot approve transaction documents payable to themselves (i.e. travel reimbursement). The immediate supervisor or higher level shall approve payments to employees. (See *BPM E-1-3* and *BPM E-5-1*)
 3. Transaction documents require a segregation of the receiving and approval functions evidenced by a separate creator and approver for online transactions and two (2) signatures for paper documents. (See *Administrative Regulation 10:5* and *BPM E-1-3*)
 4. The delegated person is directly responsible for the appropriateness of each transaction charged and posted to the expenditure cost object consistent with University policies and regulations. (See *BPM E-1-3*)
 5. Transaction documents that do not require approval at a level higher than responsible person may be submitted directly to the appropriate offices for final processing (unless otherwise directed by department, college or supervisor).
 6. Transaction documents that require approval at a level higher than the responsible person shall be submitted to the appropriate office (i.e. Provost, dean, director).
