

USDA APHIS Tribal Nations Wild Cervid Chronic Wasting Disease Opportunities 2022 Cooperative Agreements

2022 Spending Plan

October 2022

2022 Spending Plans for the Tribal Nations Wild Cervid Chronic Wasting Disease Opportunities 2022 Cooperative Agreements

USDA APHIS WS is awarding \$274,973 through Cooperative Agreements to five Federally recognized Native American Tribal governments to combat CWD on Tribal lands across five different states. During the 2022 competitive wild cervid CWD funding process not enough proposals were received to utilize all available funds. Two additional cooperative agreements were set up, awarding \$250,700 for wild cervid CWD surveillance on Tribal lands. These projects will allow recipients to further develop and implement CWD management, response, and research activities in wild cervids, including surveillance and testing. Funded projects are listed below.

Tribal Wild Cervid Management Projects

Project Title	Entity	Funding Amount
Seneca Nation of Indians CWD Education Awareness and Monitoring Program	Seneca Nation of Indians	\$75,000.00
Development of CWD Management Plan and Monitoring on the Coeur d'Alene Reservation	Coeur d'Alene Tribe	\$26,672.00
