

# US Amateur Radio Technician Privileges

This chart shows privileges and band plan recommendations for each of the frequencies, as granted by the FCC to the Technician licensee. It is good amateur practice to follow the band plan established by the Amateur Radio community. The band plan is developed so that spectrum allocated for our use is used most effectively. You'll find a complete description of the band plan online at [www.arrl.org/band-plan](http://www.arrl.org/band-plan).

**ARRL** The national association for **AMATEUR RADIO**

Effective Date March 5, 2012

**Notes:**

Technician Licenses may use up to 1500 Watts PEP on the VHF and higher bands, but are limited to 200 Watts on the HF bands. You also have privileges to explore these microwave bands with CW, Digital, SSB, AM, FM and TV:

2300-2310 MHz	2390-2450 MHz	3300-3500 MHz	5650-5925 MHz	10.0-10.5 GHz	24.0-24.25 GHz	rev. 3-25-2019 Techbands
47.0-47.2 GHz	76.0-81.0 GHz	122.25-123.0 GHz	134-141 GHz	241-250 GHz	All above 275 GHz
