

2024 ASAHP REGIONAL SUMMIT

Collaboration in Action - Engaging to Build Readiness for Interprofessional Clinical Practice
May 23, 2024 | 12:00 pm - 4:30 pm (ET)

The Association of Schools Advancing Health Professions (ASAHP) is dedicated to promoting dialogue between academic institutions and their health care industry partners to improve collaboration and enhance health outcomes.

Yearly ASAHP Summits bring together leaders, faculty and providers in-person concurrently at member institution "hubs" which culminate in a virtual "harvest" session between hub participants who engage in a national-level conversation.

As a member of the Interprofessional Education Collaborative (IPEC), ASAHP was actively engaged in the development of Version 3 of the **IPEC Core Competencies** in 2023. The 2024 ASAHP Summit will focus on engaging academic institutions with healthcare industry partners to operationalize these competencies in clinical practice for improved healthcare professional readiness to improve health outcomes.
