Strategic Plan 2023-2028

#StrongerTogether

From Our **Executive Director**

Thank you for giving us a few moments of your time to share with you the strategic direction of the Centre for Immigrant and Community Services (CICS) over the next five years.

Our communities are facing increasingly complex challenges. In this environment of conflicting voices, competing agendas, and polarizing viewpoints, we set out in our strategic planning process to seek clarity in who we are, what we do and how we can maximize our impact as a force for good for the city. We felt we needed a fresh and clear articulation of our original mission. One that is consistent and faithful to our history, while speaking to the current times we live in and the challenges we face in the immediate future.

Over the COVID-19 pandemic years, CICS was at the front lines providing much-needed services to the most vulnerable among us. We saw up close the devastation COVID brought to our communities. But beyond the obvious threat to our physical health, the pandemic unleashed another danger that was deadlier and farther reaching than the virus itself: social isolation. It wreaked havoc on the mental health of our children, our seniors, our newcomers and everyone else in our cities as it threatened to destroy the very social fabric from which we build our communities.

This front-line, “ground zero” experience clarified our vision and galvanized our belief of who we are, what we believe, and what we are here to do, which became the foundation of our new strategic plan for 2023-2028:

We believe CICS is in the business of building communities by creating human connections.

We believe good things happen when humans connect.

Over the next few pages, we will introduce how this conviction becomes the foundation on which we build the four pillars of our new strategic plan. As we share with you this fresh and exciting vision of our work, we invite you to join us, support us, and become part of this unstoppable force for good to make lives better for all in our communities.
