LIVE SUPPORT

The small green box on the right side of the screen will expand when your mouse is hovered over it and it will say Contact Live Support. After clicking on this, you will be sent to a CLC chat classroom support page (powered by eSkillz). Simply select the 'Click Here to Chat' button from that page and you will be connected with CLC support specialists who are standing by 24 hours a day, 7 days a week who can assist with general CLC navigation and utilization inquiries including how to use the CLC, how to find training, course launch assistance and more.

HOW TO SEARCH FOR TRAINING

The CLC has a robust search feature. You are able to search for OLT classes, ILT sessions, and VILT sessions. Simply enter a word or keyword of the training name into the Search box area and all available options will be made visible. If the OLT class, ILT session, or VILT does not appear, that means the items may not be available to your division or do not exist in the CLC. If you want to view all items, place the cursor in the Search area and click on the Enter button.

HOW TO LAUNCH AN OLT (ONLINE TRAINING) CLASS

An OLT class is a self-paced online course that you launch, review the entire course and complete.

There are multiple ways to launch an OLT class in the CLC.

TO LAUNCH A CLASS FROM A HOMEPAGE FEATURE

In this example, there is an OLT class available to launch from the DOC Required Training homepage feature:

DOC Required Training		Type	Option
	How to Protect Personally Identifiable Information (PII) and Business Identifiable Information (BII)	Online Class	Add

First click on **Add** under the **Option** column which will take you to the transcript page.

After you have completed the OLT class you will then find your OLT class completion in your transcript. Click on the Active button and then click on Completed. When the completion screen appears, you will see the rest of the OLT classes you have completed.

HOW TO ENROLL FOR AN ILT (INSTRUCTOR-LED TRAINING) CLASS

An ILT class is an instructor-led onsite class that you attend either onsite or virtually (VILT or virtual instructor-led training). Once attended, you will be marked completed for the class subsequent to the offering.

First search for the ILT event name in which you want to enroll for. For this example, a search is done for a retirement class. Type "Retirement" into the field. Notice that there are options that appear which contain the word "retirement" in either the title or keyword.

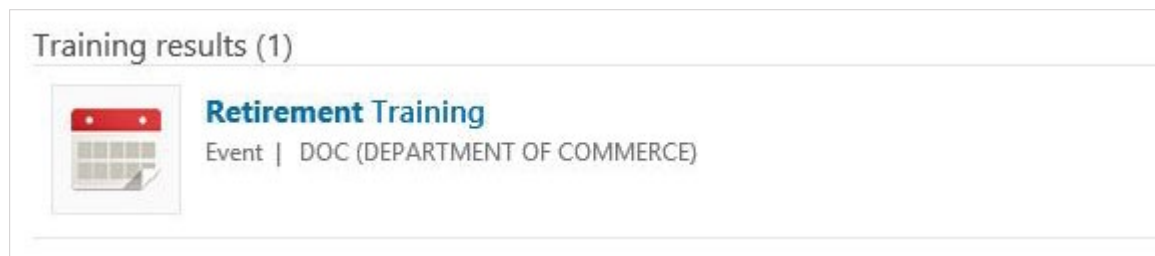

Here, you can do one of two things: you can either select the event directly in the dropdown that appears (in which case you can skip to the big arrow below), or you can just do a generic search on all things containing "Retirement". If you conduct generic search, simply type in the word and then select "Enter" on your keyboard or click the magnifying glass on the far right of that field.

You will then be taken to the global search page where you can filter the results by object type, using the area of the page shown below that is on the left side.

Click the **Training** link to drill deeper into the different types of learning objects. As you will see, there are multiple icons of learning objects to choose from depending upon available CLC training offerings.

As you can see, the Retirement Training class is on the results page.

Click on the class title, which in this case is **Retirement Training**.
