

TRAINING SCHEDULE

**OSHA Training Institute Education Center (OTIEC)
CALIFORNIA STATE UNIVERSITY, DOMINGUEZ HILLS**

Building a Safer World Together

California State University, Dominguez Hills houses the only Los Angeles-based OSHA Training Institute Education Center (OTIEC). The CSUDH OTIEC is authorized by the U.S. Department of Labor to deliver OSHA approved courses to safety professionals, workers, supervisors and employers, as well as to engage in community outreach events, thus helping to ensure safe and healthful working conditions for workers and employers.

Table of Contents

Become a Trainer 2

The CSUDH OTIEC offers four OSHA Outreach Trainer Authorizations in Construction, General Industry, Maritime Safety, and Disaster Site Worker, and a Cal/OSHA Endorsement to teach Outreach Training.

On-Site Training 4

The CSUDH OTIEC works closely with the business community to develop training programs that help companies remain in compliance with regulatory enforcement agencies.

Certificates 6

CSUDH OTIEC Certificate programs prepare individuals to comply with current OSHA and Cal/OSHA regulations based on the selection of courses. Upon successful completion of a certificate, students receive a paper certificate and a digital badge, which is shareable through social media.

Apply Courses to Multiple Certificates! 13

Courses 14

To view the complete list of courses visit csudh.edu/oshacourses/. Please visit individual course web pages for information on any required course materials, and courses requiring approval to enroll.

FREE Quarterly Update

CSUDH OTIEC periodically offers a free public seminar designed to keep safety professionals and local employers informed regarding safety and health compliance. For further information, visit csudh.edu/osha/career-development/

Upcoming Schedule

To view the course schedule, visit csudh.edu/osha/schedule. If a course you're interested in does not have any scheduled meetings available, please call (310) 243-3355 for additional on-site training information.

Apply Your Training to a Bachelor's Degree

OSHA courses taken at the CSUDH OTIEC can be applied to an online **Bachelor's degree in Occupational Safety & Health at Columbia Southern University**. For further information, visit start.columbiasouthern.edu/osh/.

Military Veterans Discount

CSUDH has a proud tradition of serving America's Military and offering a discount to all active and retired service members. The 10% discount must be applied at the time of registration and cannot be combined with any other offer. Update Trainer courses are excluded.

Financial Aid Resources

Financial resources are available for those who qualify. Please contact your local EDD or WIB office for more information, and visit csudh.edu/ccpe/wioa.

Become a Trainer

Four OSHA Outreach Trainer Programs Available

The OSHA Training Institute Education Center at CSUDH offers four OSHA Authorized Outreach Training Programs in Construction, General Industry, Maritime Safety, and Disaster Site Worker, and a Cal/OSHA Endorsement to teach 10- and 30-Hour Outreach Training. If you have the required experience (requirements differ for each program) this can be an excellent opportunity to become an Authorized Trainer for your company, or to build your own business.

Construction Industry Outreach Trainer

Required Course: OSHA 500 Trainer Course in OSHA Standards for the Construction Industry

Prerequisite Course: Construction Industry - OSHA 510 OSHA Standards for the Construction Industry

Requirements: OSHA 510 course completed within the last seven years and five years of construction safety experience. A bachelor or higher college degree in occupational safety and health or industrial hygiene by an accredited college or university, a Certified Safety Professional (CSP) or Certified Industrial Hygienist (CIH) designation in the applicable training area may be substituted for two years of experience.

Trainer will be authorized to deliver 10 -and 30-Hour OSHA Training for the Construction Industry.

General Industry Outreach Trainer

Required Course: OSHA 501 Trainer Course in Occupational Safety and Health Standards for General Industry

Prerequisite Course: OSHA 511 Occupational Safety and Health Standards for General Industry

Requirements: OSHA 511 course completed within the last seven years and five years of general industry safety experience. A bachelor or higher college degree in occupational safety and health or industrial hygiene by an accredited college or university, a Certified Safety Professional (CSP) or Certified Industrial Hygienist (CIH) designation in the applicable training area may be substituted for two years of experience.

Trainer will be authorized to deliver 10- and 30-Hour OSHA Training for General Industry.

Cal/OSHA Endorsement to Teach 10- and 30-Hour OSHA Outreach Training

Requirements: Be a current authorized OSHA Outreach trainer or become an authorized OSHA Outreach trainer within six (6) months after completing OSHA 5109 or 5119 course. Trainers should note that the Cal/OSHA Partnership endorsement expires on the same date as their federal trainer authorization. Candidates must have at least one year of verifiable safety and health experience with an organization governed by Cal/OSHA standards. Outreach Trainers will be required to sign a “Statement of Eligibility” form, prior to, or in their Cal/OSHA course.

Maritime Industry Outreach Trainer

Required Course: OSHA 5400 Trainer Course in Occupational Safety and Health Standards for the Maritime Industry

Prerequisite Course: OSHA 5410 Occupational Safety and Health Standards for the Maritime Industry

Requirements: OSHA 5410 course completed within the last seven years and five years of maritime industry safety experience. A bachelor or higher college degree in occupational safety and health or industrial hygiene by an accredited college or university, a Certified Marine Chemist (CMC), Certified Safety Professional (CSP) or Certified Industrial Hygienist (CIH) designation in the applicable training area may be substituted for two years of experience.

Trainer will be authorized to deliver 10- and 30-Hour OSHA Training for the Maritime Industry.

Disaster Site Worker Outreach Trainer

Required Course: OSHA 5600 Trainer Course for Disaster Site Worker

Requirements: Current OSHA authorization as a Construction, Maritime or General Industry Outreach trainer, three years of safety training experience, and either completion of the 40-hour HAZWOPER course or possession of journey-level credentials in a building trade union.

Trainer will be authorized to deliver 7.5- and 15-Hour OSHA Training for Disaster Sites Workers.

Steps to enroll in OSHA Trainer Programs 500/501/5400/5600:

1. Download the prerequisite verification form at csudh.edu/osha/forms. Submit completed form and proof of prerequisite course completion to osha@csudh.edu.
2. If approved, an email notification will be sent with registration instructions. Please allow 2-3 days for processing.

NOTE: Working safely does not meet the requirements of safety experience for any course.

On-Site Training

The OSHA Training Institute Education Center at CSUDH works closely with the business community to develop training programs to help companies stay in compliance with regulatory enforcement agencies. CSUDH offers over 80 courses in occupational safety and health both in English and Spanish, courses are tailored to meet industry specific requirements.

Our team of professionals is trained to provide the best service possible at an affordable price. Our experts can expedite your request for on-site training.

Discounted rates are available to groups of 15 students or more. Volume discounts are also available for companies and organizations scheduling two or more on-site trainings.

For more information, please contact us at 310-243-3355 or rguzman@csudh.edu.

Advanced Safety & Health Certificate

The Program

This certificate responds to the needs of safety professionals for whom a certificate contributes to career advancement and professional recognition. Because the field of safety is different at every jobsite the certificate allows for flexibility in both the required and elective courses.

Certificate Requirements

To earn the Advanced Safety & Health Certificate of Completion, the individual will have to successfully complete seven (7) required courses. At least four (4) of the courses, including the final two (2), must be completed through the CSUDH OTIEC. All courses must be completed within a 5 year period. Courses taken through other official OSHA Training Institute Education Centers can be used to fulfill up to three courses required for the Advanced Safety & Health Certificate of Completion.

Required Courses

Construction Track

(Complete 4):

- **OSHA 510** OSHA Standards for the Construction Industry
- **OSHA 521** OSHA Guide to Industrial Hygiene
- **OSHA 3095** Electrical Standards
- **OSHA 3115** Fall Protection

General Industry Track

(Complete 4):

- **OSHA 511** Occupational Safety and Health Standards for General Industry
- **OSHA 521** OSHA Guide to Industrial Hygiene
- **OSHA 2225** Respiratory Protection
- **OSHA 2264** Permit-Required Confined Space Entry

Total training days: 28
Total contact hours: 210

Electives (Complete 3)

- **OSHA 500** Trainer Course in Occupational Safety and Health Standards for the Construction Industry
- **OSHA 501** Trainer Course in Occupational Safety and Health Standards for General Industry
- **OSHA 510** OSHA Standards for the Construction Industry
- **OSHA 511** Occupational Safety and Health Standards for General Industry
- **OSHA 2015** Hazardous Materials
- **OSHA 2045** Machinery and Machine Guarding Standards
- **OSHA 2055** Cranes in Construction
- **OSHA 2225** Respiratory Protection
- **OSHA 2255** Principles of Ergonomics
- **OSHA 2264** Permit-Required Confined Space Entry
- **OSHA 3015** Excavation, Trenching and Soil Mechanics
- **OSHA 3095** Electrical Standards
- **OSHA 3115** Fall Protection
- **OSHA 5109** Cal/OSHA Standards for the Construction Industry
- **OSHA 5119** Cal/OSHA Standards for General Industry
- **OSHA 5400** Trainer Course in Occupational Safety and Health Standards for the Maritime Industry
- **OSHA 5410** Occupational Safety and Health Standards for the Maritime Industry
- **OSHA 5600** Disaster Site Worker Trainer Course
- **OSHA 6000** Collateral Duty Course for Other Federal Employees
- **OSHA 7505** Introduction to Incident (Accident) Investigation
- 40-Hour HAZWOPER
- EM 385-1-1
- Safety Audits and Inspections
- Cal/OSHA Legal Process
- Trainer Course – MEWPs (Aerial Lifts)
- Trainer Course - Fall Protection
- Trainer Course - Forklift Safety
- Trainer Course - Rigging Safety

Healthcare Safety Technician Certificate

The Program

The Healthcare Safety Technician Certificate is designed for professionals in the healthcare environment who are responsible for the safety of patients, employees, and visitors. This certificate of completion program will provide a solid foundation to assist in facilitating institutional compliance with OSHA regulations and meeting The Joint Commission (TJC) standards as they relate to the environment of care. Course content will specifically address conducting risk assessments, the Hospital Incident Command System (HICS), NFPA's Life Safety Code®, and The Joint Commission's Statement of Conditions™.

Certificate Requirements

To earn the Healthcare Safety Technician Certificate, the individual will have to successfully complete seven (7) required courses. At least five (5) of the courses, including the final two (2), must be completed through the CSUDH OTIEC. All courses must be completed within a 5 year period. The official “certificate enrollment date” is the first day of the first CSUDH OTIEC course the participant wishes to count towards the certificate of completion. Courses taken through other official OSHA Training Institute Education Centers can be used to fulfill up to two (2) courses required for the Healthcare Safety Technician Certificate.

Required Courses

- **OSHA 511** OSHA Standards for General Industry
- **OSHA 7200** Bloodborne Pathogens
- **OSHA 7210** Pandemic Influenza & Transmissible Diseases
- Hazardous Materials within the Healthcare Environment
- Emergency Management within the Healthcare Environment
- Fire & Life Safety within the Healthcare Environment
- Basic Life Support –American Heart Association

Total training days: **10**

Total contact hours: **75**

Refinery Safety Technician Certificate

The Program

This program consists of nine courses offered for CEU credit and is focused on the responsibilities of a safety technician in the refinery setting as a whole. Participants will be prepared with a solid foundation in order to assist refinery safety managers in facilitating OSHA regulations and meeting performance expectations of employers. Course content addresses refinery process overview and safety regulations, hazard recognition and conducting risk assessments, and safe work practices such as “hot” work and confined spaces in refineries. Participants who complete the certificate program will be able to perform typical functions of refinery safety staff assigned to work with maintenance subcontractors. The curriculum will prepare crafts and trades persons associated with gasoline refinery operations to enter refinery employment as safety technicians.

Certificate Requirements

To earn the certificate participants will complete nine (9) required courses; at least five (5) courses must be completed through the CSUDH OTIEC. All courses must be completed within five (5) years. Courses taken through other official OSHA Training Institute Education Centers can be used to fulfill up to four (4) courses required for the Refinery Safety Technician Certificate of Completion.

Prerequisite

Complete 1:

- OSHA 510 OSHA Construction Industry Standards
- OSHA 511 OSHA General Industry Standards

Required Courses

Required (Complete 6):

- **OSHA 521** OSHA Guide to Industrial Hygiene
- **OSHA 2264** Permit Required Confined Space
- **OSHA 7505** Introduction to Accident Investigation
- Refinery HES Overview
- Refinery Hazard Control and Safe Work Practices
- Managing Safety Performance in Refineries

Electives (Complete 2):

- **OSHA 2015** Hazardous Materials
- **OSHA 2225** Respiratory Protection
- **OSHA 2255** Principles of Ergonomics
- **OSHA 3015** Excavation, Trenching and Soil Mechanics
- **OSHA 3115** Fall Protection
- **OSHA 3095** Electrical Standards
- **OSHA 5810** Hazard Recognition for On-Shore Oil & Gas Exploration
- 30-Hour OSHA General Industry

Total training days: **20**
Total contact hours: **150**

Certified Safety and Health Official Certificate

The Program

The CSHO Certificate of Completion provides a clear and defined path towards earning a professional certificate with a concentration in construction or general industry safety based on the selected track. Individuals seeking to complete this program must have a minimum of 5 years of experience overseeing safety and meet the prerequisite requirements of OSHA 500 or 501.

Certificate Requirements

To earn the CSHO Certificate of Completion, the individual will have to successfully complete nine (9) required courses. At least four (4) of the courses, including the final two (2), must be completed through the CSUDH OTI Education Center. All courses must be completed within a 5 year period. Courses taken through other official OSHA Training Institute Education Centers can be used to fulfill up to four (4) courses required for the CSHO Certificate of Completion.

Construction Track

Required (Complete 7):

- **OSHA 500** Trainer Course in OSHA Construction Industry Standards
- **OSHA 510** OSHA Standards for the Construction Industry
- **OSHA 511** OSHA Standards for General Industry
- **OSHA 521** OSHA Guide to Industrial Hygiene
- **OSHA 3015** Excavation, Trenching and Soil Mechanics
- **OSHA 3095** Electrical Standards
- **OSHA 3115** Fall Protection

Electives (Complete 2):

- **OSHA 2015** Hazardous Materials
- **OSHA 2055** Cranes in Construction
- **OSHA 2225** Respiratory Protection
- **OSHA 2255** Principles of Ergonomics
- **OSHA 2264** Permit-Required Confined Space Entry
- **OSHA 5109** Cal/OSHA Standards for Construction Industry

General Industry Track

Required (Complete 7):

- **OSHA 501** Trainer Course in OSHA Standards for General Industry
- **OSHA 510** OSHA Standards for the Construction Industry
- **OSHA 511** OSHA Standards for General Industry
- **OSHA 521** OSHA Guide to Industrial Hygiene
- **OSHA 2045** Machinery and Machine Guarding Standards
- **OSHA 2264** Permit-Required Confined Space Entry
- **OSHA 3095** Electrical Standards

Electives (Complete 2):

- **OSHA 2015** Hazardous Materials
- **OSHA 2225** Respiratory Protection
- **OSHA 2255** Principles of Ergonomics
- **OSHA 3115** Fall Protection
- **OSHA 5410** OSHA Standards for the Maritime Industry
- **OSHA 5119** Cal/OSHA Standards for General Industry

Safety & Health Fundamentals Certificate

The Program

The certificate program in Safety & Health Fundamentals supports OSHA's mission by training supervisors in occupational safety and health to reduce incident rates for workers. Participants have the opportunity to earn certificates for Construction and General Industry training.

Safety & Health Fundamentals

This certificate is issued by the Occupational Safety and Health Administrations (Directorate of Training and Education). **Elective courses must total 29 contact hours.**

Construction Track

Required (Complete 3):

- **OSHA 510** Occupational Safety and Health Standards for the Construction Industry
- **OSHA 7500** Introduction to Safety and Health Management
- **OSHA 7505** Introduction to Incident (Accident) Investigation

Electives (Complete 4):

- **OSHA 3095** Electrical Standards
- **OSHA 7105** Evacuation and Emergency Preparedness
- **OSHA 7110** Safe Bolting: Principles and Practices
- **OSHA 7205** Health Hazard Awareness
- **OSHA 7400** Noise in the Construction Industry
- **OSHA 3115** Fall Protection
- **OSHA 7405** Fall Hazard Awareness for the Construction Industry
- **OSHA 3015** Excavation, Trenching and Soil Mechanics
- **OSHA 7410** Managing Excavation Hazards
- **OSHA 7845** Recordkeeping Rule Seminar

General Industry Track

Required (Complete 3):

- **OSHA 511** Occupational Safety and Health Standards for General Industry
- **OSHA 7500** Introduction to Safety and Health Management
- **OSHA 7505** Introduction to Incident (Accident) Investigation

Electives (Complete 4):

- **OSHA 2264** Permit-Required Confined Space Entry
- **OSHA 7300** OSHA's Permit-Required Confined Space Standard
- **OSHA 3095** Electrical Standards
- **OSHA 7000** OSHA Training Guidelines for Safe Patient Handling
- **OSHA 7005** Public Warehousing and Storage
- **OSHA 7100** Introduction to Machinery and Machine Safeguarding
- **OSHA 7105** Evacuation and Emergency Preparedness
- **OSHA 7115** Lockout/Tagout
- **OSHA 7200** Bloodborne Pathogen Exposure Control for Healthcare Facilities
- **OSHA 7205** Health Hazard Awareness
- **OSHA 7210** Pandemic Influenza Workplace Preparedness
- **OSHA 7845** Recordkeeping Rule Seminar

Visit csudh.edu/osha for additional details.

Occupational Safety and Health Manager Certificate

The Program

The Occupational Safety and Health Manager Certificate program (OSHM) provides a defined path for individuals who are responsible for the overall safety of a company or institution, and who are responsible for the administrative and legal aspect of safety. This program allows the student to gain the knowledge and skills needed to supervise other safety professionals, manage risk, and manage potential OSHA cases. Typically these individuals are Directors, Managers, Supervisors and Human Resources representatives.

Certificate Requirements

To earn the OSHM certificate, the individual will have to successfully complete eight (8) required courses and three (3) elective courses. All of the required courses must be completed through the CSUDH OTI Education Center. All courses must be completed within a 5 year period. Courses taken through other official OSHA Training Institute Education Centers can be used to fulfill up to four (4) courses required for the certificate of completion.

Required Courses

Required (Complete 8):

- Introduction to Risk Management
- Effective Leadership Skills
- Effective Communication Skills
- Managing a Multi-Cultural Workforce
- Developing an Effective IIPP
- **OSHA 7505** Introduction to Incident (Accident) Investigation
- Cal/OSHA Legal Process
- Safety Audits And Inspections

Electives (Complete 3):

- **OSHA 5109** OSHA Standards for the Construction Industry
- **OSHA 5119** OSHA Standards for General Industry
- **OSHA 521** OSHA Guide to Industrial Hygiene
- **OSHA 510** OSHA Standards for the Construction Industry
- **OSHA 511** OSHA Standards for General Industry
- **OSHA 5410** Occupational Safety and Health Standards for the Maritime
- High Impact Training & Presentation Techniques

Total training days: **25**
Total contact hours: **188**

Complete this Certificate Program in as little as **6 months!**

Hospitality Health and Safety Manager Certificate

The Program

This program consists of thirteen courses offered for CEU credit and is focused on the duties and responsibilities of a safety manager in the hospitality industry. Participants will be prepared with a solid foundation to manage and facilitate OSHA regulations and meet performance expectations of employers. Course content provides an overview of safety regulations governing the hospitality industry as well as record keeping requirements and accident investigations. Program emphasizes recognition of workplace hazards and the ability to conduct risk assessments related to workplace violence, soft tissue injuries and bloodborne pathogens. Participants who complete the certificate program will be able to perform typical functions of a hospitality safety and health manager or risk assessment manager.

Certificate Requirements

To earn the certificate participants will complete ten (10) required courses and three (3) elective courses. All courses must be completed within five (5) years. Courses taken through other official OSHA Training Institute Education Centers can be used to fulfill up to four (4) courses required for the Hospitality Safety and Health Manager certificate of completion.

Required Courses

Required (Complete 10):

- Developing an Effective Hotel Safety Program
- Developing an Effective Restaurant Safety Program
- Introduction to Risk Management
- Effective Leadership Skills
- Effective Communication Skills
- Managing a Multi-Cultural Workforce
- Developing an Effective IIPP
- Developing a Musculoskeletal Injury Prevention Program
- **OSHA 7505** Introduction to Incident (Accident) Investigation
- Cal/OSHA Legal Process

Electives (Complete 3):

- **OSHA 2255** Principles of Ergonomics
- **OSHA 5119** OSHA Standards for General Industry
- **OSHA 521** OSHA Guide to Industrial Hygiene
- **OSHA 511** OSHA Standards for General Industry
- Safety Audits and Inspections
- Workplace Violence Prevention
- **OSHA 7200** Bloodborne Pathogens Exposure Control

Total training days: **24**
Total contact hours: **202**

Complete this Certificate Program in as little as **6 months!**
