DEFENSE CONTRACT AUDIT AGENCY

Course Catalog 2024

DCAI

Mission Statement

“The mission of the Defense Contract Audit Institute (DCAI) is to support the Agency’s Strategic Plan by providing the knowledge and skills required to achieve the highest quality audits at each career milestone of every DCAA auditor, from entry to expert.”

DCAI develops and delivers training for DCAA personnel from its location in Atlanta, Georgia. DCAI currently offers the following types of training:

- **eLearning Courses** – Includes interactive self- study courses and integrated multimedia courseware. ^{See Note # 1}
- **Resident Courses** – Formal instructor-led courses conducted at DCAI.
- **Blended Courses** -- Training combines methods (self-study, classroom and/or on-line parts) into a single credit event. CPE is only awarded upon completion of all parts.
- **Virtual** – Internet-based courses, instructor-led interactive.

Credit Hour (Carnegie unit) (IAW 34 CFR Parts 600, 602 and 668) a period of time consisting of -

- (1) A 50 to 60-minute class, lecture, or recitation in a 60-minute period.
- (2) A 50-minute class, lecture, or recitation (with a 10-minute break) equals a one credit hour in a 60-minute period.
- (3) Sixty minutes of preparation in a correspondence course.
 - A credit hour is based on an actual hour of attendance, though each hour may include a 10-minute break.
 - May not schedule several hours of instruction without breaks and then count clock hours in 50-minute increments.
 - Example - cannot consider seven consecutive hours of instruction to be 8.4 hours by dividing 50 minutes into 420 minutes.
 - Example - Seven 60-minute periods of instruction may not count for more than seven credit hours.

Note 1: Access to DCAI e-learning courses, which operate on an internal Learning Management System/SCORM Player, is limited to those with a valid DCAA CAC Card due to cyber-security constraints.

DCAI is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have final authority on the acceptance of individual courses for CPE credit. Registry ID: 100622 Approved Delivery Method: Group Internet Based, Group Live and QAS Self Study.

Complaints regarding registered sponsors may be submitted to the National Registry of CPE Sponsors through its website: <https://www.nasbaregistry.org/sponsor-list>.

DCAI is registered with the National Association of State Boards of Accountancy (NASBA) as a Quality Assurance Service (QAS) sponsor of continuing professional education. State boards of accountancy have final authority on the acceptance of individual courses for CPE credit. Complaints regarding QAS program sponsors may be submitted to NASBA through its website: <https://www.nasbaregistry.org/preparing-to-apply/qas-self-study>.

DCAI is accredited by the Commission of the Council on Occupational Education. Students who register for or complete training courses at DCAI and have a grievance should discuss the issue with the Course Manager, Training Support Branch, Administrative Officer, and Chief Learning Officer. Grievances not settled by DCAI should be forwarded to Council on Occupational Education; 7840 Roswell Road, Building 300, Suite 325; Atlanta, GA 30350; 800.917.2081 or fax 770.396.3790. (COE ID# 270400) Website: www.council.org.

Sponsored learning activities are measured by program length, with one 50-minute period equal to one CPE credit. One-half CPE credit increments (equal to 25 minutes) are also permitted however can only be earned after the first full credit in a given learning activity in resident courses. Please note that not all state boards have adopted this rule. Some participants may not be able to use one-half credit increments.

DCAI continually updates course material to ensure that content remains current, accurate and complete in regard to DCAA policy, CAM, FAR, DFARS, CAS, GAGAS, and any other changes promulgated by an authoritative body.

Non-DCAA Courses

DCAI coordinates with other government and non-government agencies for training not generally available to the DCAA regions or that must be centrally managed. This includes training at government facilities that use “shared facility agreements” such as the Office of Personnel Management.

Most non-DCAA education and training courses for supervisors, managers, and executives are coordinated by DCAI. This includes OPM Management Development Centers, OPM Federal Executive Institute, and the Director’s Developmental Program in Leadership (DDPL). Training courses offered by the Defense Acquisition University (DAU) are also coordinated by DCAI for registration. Local training courses offered by non-DCAA activities, such as the Graduate School (formerly USDA) and the Government Online Learning Center (GoLearn) are not centrally managed by DCAI. When taking courses not conducted or managed by DCAI, individuals should submit an SF182, Authorization, Agreement, and Certification of Training, through their normal approving authority.

Following is a partial list of non-DCAA courses previously used by DCAA. This list is not all- inclusive of sponsors or courses. Inclusion in this list does not imply Agency or government endorsement of the course, institution, or company providing training. DCAA employees should consult DCAI’s Intranet site or contact DCAI or the training sponsor directly for additional information. The courses are listed in general categories and are available to any employee requiring the training except as noted.

Other DoD Training

[iCompass](#)

DoD LMS iCompass is the main site for obtaining the DoD FM Certification. The courses developed specifically for the FM certification program should be launched from this site. The site is used to establish the curriculum for the assigned certification level; record and document completion of the requirements; record supervisory approval; and obtain the approval for certification when all requirements are complete.

[FM MyLearn](#)

DoD myLearn is the gateway to professional opportunities. It contains a comprehensive DoD FM Learning catalog, with courses offered by the military departments, defense agencies, other federal sources, and some commercial entities. Employees may use this site to find courses to satisfy competencies for their certification levels. This site will be useful especially for non-511 employees to determine whether past training courses have been aligned with FM competencies.

Special Educational Opportunities

OPM has recently entered into agreements with the University of Maryland University College and Champlain College to provide discounted out-of-state tuition rates to federal employees and their dependents. Additional information about the program and links to register for courses can be found at <http://www.opm.gov/blogs/Director/2015/4/20/A-New-Educational-Alliance/>.

AUD101, Basic Contract Auditing Skills

CPE: 69.5
Hours

Type: Group Live

Course Level: Basic

Course Description:

The purpose of the Basic Contract Audit Skills (BCAS) course is to prepare new hire auditors to perform basic audit tasks which are fundamental to contract auditing. BCAS is the second course a new hire will take in the New Hire Continuum of courses (New Hire Onboarding, Basic Contract Audit Skills, Audit Applications, and focused training events). It is a 2-week training course of basic concepts, techniques, and procedures of DCAA contract auditing. BCAS introduces the new hire auditors to Generally Accepted Government Auditing Standards (GAGAS), provides insight and promotes awareness of audit criteria requirements, concentrates on the need for effective communication with our stakeholders, and walks the new hires through the audit process beginning with the rules of engagement through issuance of the final audit report. The BCAS course teaches the new hire auditors the essence of critical thinking and auditor skepticism by engaging them in hands-on application exercises (many of which are group exercises, while others are individual research and writing exercises). The applications they learn in this class readily prepare them for the next class in the New Hire Continuum, Audit Applications. The Agency expects new auditors to attend this course approximately 6-8 weeks after completion of AUD100A-New Hire Onboarding.

Prerequisite Course(s):

AUD102V, Audit Applications

CPE: 69.5
Hours

Type: Group-Internet Based

Course Level: Basic

Course Description:

The purpose of this course is to provide the new hire auditor the skills to apply basic audit methods to plan and conduct an incurred cost audit and a forward pricing audit. This course is the third course an auditor will take in the New Hire Continuum of courses (New Hire Onboarding, Basic Contract Audit Skills, Audit Applications, and focused training events). It is a 2-week contract auditing course which prepares the auditor to apply basic audit methods to plan and conduct an incurred cost audit and a forward pricing audit. Class discussions, practical exercises, and case studies are used to highlight problem areas and evaluate alternative courses of action. The Agency expects new auditors to attend this course approximately 60 days after completion of Basic Contract Audit Skills.

Course

Description: This course focuses on the application of data analytics. It combines live classroom instruction and virtual classroom instruction with performing a real-life data analytics application, as follows: Part 1 Classroom Session (36 Duty Hours) - A five day live classroom format designed to provide auditors with the knowledge and skills necessary to apply Data Analytics as part of effective and efficient DCAA audits. Part 2 Distance Learning Session (8 Duty Hours) - A one day virtual distance learning session scheduled approximately 30 days after Part 1. It utilizes teleconferencing and online meeting software allowing the student to interact with the instructor and other students while remaining at his/her post of duty. This session requires the student to have completed a plan for the data analytics application (Step 1 of the Framework) and the appropriate data available for use. The student will receive constructive feedback from the other students and the instructor to consider in finalizing the application. Part 3 Field Application (8 Duty Hours) - The student's supervisor will monitor performance, review the data analytics application, and certify (within 120 days of Part 1 completion) that the application was completed by the student and complied with Agency policy. DCAI will provide an automated certification process. Course credit requires satisfactory completion of all three parts. Failure to attend the scheduled Part 2 session negates the Part 1 completion. Course credit is awarded only upon the supervisor's certification of the data analytics application completion. Supervisor certification must occur within 120 days of Part 1 completion or CPE will not be awarded. GS-13s and above who take this course are not required to complete an application, however they are required to attend Part 2 and participate by adding input as needed.

CPE: 32
Hours

Type: Group Live

Course Level:
Intermediate

Course Description:

This course is designed to provide the auditor with the ability to apply the Cost Accounting Standards Board (CASB) rules, regulations, and standards criteria in assessing compliance with disclosed practices. The class will provide a brief recap of the cost allocation standards (CAS 403, 410, 418, and 420), and further in-depth analysis of Cost Accounting Standards beyond CAS 401, 402, 405, and 406 (covered in CAS I). An emphasis is made on capitalization and depreciation (CAS 404 and 409); compensation (CAS 408 and 415); material (CAS 411); cost of money (CAS 414 and 417); and insurance (CAS 416) allocations within 48 CFR Part 9904. The class will also cover material regarding contractor disclosure statements (CASB DS-1). Exercises will primarily test actual practices against criteria in the Cost Accounting Standards. The course will conclude with a case study using a revised mock disclosure statement. Students will review the mock disclosure statement and classify administrative and cost accounting practice changes then examine the cost accounting practice changes for compliance in accordance with 48 CFR Part 9904.

Description: This 6-hour virtual course allows each participant to take the DISC Assessment, the hallmark of the course, during class. This is a personal assessment tool used by many agencies, businesses, and organizations to help improve teamwork, communication, and productivity in the workplace. DISC centers on four different behavioral styles which are Dominance (D), Influence (I), Steadiness (S), and Compliance/Conscientious (C). Additionally, this course focuses on several motivators that influence our behavior. Explanation of this assessment is the bulk of the class. This course is an extension of several existing DCAI Courses, but is designed to reach those who may have missed taking the DISC Assessment in the past.

LDR206, Negotiation and Collaboration for Leaders

CPE: 23
Hours

Type: Group-Live

Course Level:
Intermediate

Course Description:

This course covers the principles, preparation, and practice of negotiating and collaborating skills. Students will learn the importance of integrating collaboration strategies and negotiation techniques with time to practice both. Practical exercises help students learn to identify opportunities for negotiation and collaboration, as well as develop their own influencing behaviors. Conflict resolution, including an in-depth examination of conflict resolution strategy based on the Thomas-Kilmann Instrument (TKI), will be part of each topic. Each student will complete the TKI and receive their personalized TKI report. This class will empower students to develop personal bargaining techniques and practice applying them to a variety of situations. Strong negotiating and collaborating skills allow managers to keep employees satisfied, get the job done, and meet the overall needs and goals of people inside and outside of the organization. When leadership can effectively combine negotiation, collaboration, and conflict resolution, productivity climbs, motivation increases, employee buy-in grows, and organizational objectives are achieved.

LDR209, Problem Solving Leadership

CPE: 13
Hours

Type: Group Live

Course Level: Basic

Course Description:

This course introduces the essence of what leaders exist to do – solve problems. Course topics will address finding solutions to problems through problem solving techniques. Participants will learn how to define a problem; examine the problem solving process; generate, evaluate and select alternative courses of action; discuss decision making tools; define a plan to implement solutions; and how to monitor and seek feedback. Problem solving leadership focuses on providing an organized approach to problem solving and decision making, regardless of the environment, where everyone is empowered to contribute creatively to solving the problem. The second day of this course is at Georgia Tech University. It involves negotiating the Leadership Challenge Course (LCC). The Leadership Challenge Course is a powerful learning experience that takes participants outside of their comfort zones using customized workshop topics created to maximize learning outcomes while providing a unique adventure. The Challenge Course will teach participants the skills needed in a rapidly changing global society, including group leadership, team productivity, effective communication, adaptability, and analytical problem solving. The LCC is challenging and will require the use of strength in some areas. However, remember, you're part of a Team and part of the problem solving process is to work through issues together.

- Each participant must be physically able to fit into the safety harness (waist less than 54 inches)
- Each participant must be able to physically ascend a rope ladder up to 40 feet in the air
- Each participant must be physically able to travel under their own power on a small diameter cable (approx. 1 inch wide). This could be thought of as "walking a tight rope" but with aids for balance. You'll need to be able to shift your weight around often.
- Each participant must be physically able to reach unassisted to a minimum height of 6 ft. to access safety tether lines with their hands.
- Each participant must be physically able to see (corrected or uncorrected vision) their surroundings and have a depth perception of at least 5 feet.
- Each participant must be able to understand safety information given verbally by our staff in English.

* If you don't meet the requirements above or uncomfortable with the physical challenges, don't feel discouraged from enrolling. There are plenty of opportunities to participate and support your Team.

LDR316, Developing Self and Others

CPE: 34
Hours

Type: Group-Live

Course Level:
Advanced

Course Description:

For Leaders, the ability to develop themselves and others is critical to attracting and retaining talent, driving employee engagement, preparing future leaders, and ultimately ensuring the success of DCAA's mission. This course introduces students to processes that guide their own and direct reports' development-planning efforts. Practical tools such as the DISC Assessment, Myers-Briggs Type Indicator (MBTI), Emotional Intelligence Assessment, and the Thomas-Kilmann Conflict Mode Instrument (TKI) are explored to equip emerging leaders with the tools to produce meaningful individual development plans that support DCAA's current and future strategic goals. Successful leaders share an important characteristic: their ability to develop themselves and their team. Being aware of personal strengths and areas for development is important for any leader, but truly successful leaders go a step further and take responsibility for the development of others. This course breaks down the Individual Development Plan (IDP) into simple steps that help leaders improve weaknesses and capitalize on strengths.

Course Description:

Strategic thinking and planning is the lifeblood of an organization. It's the process of formulating objectives and priorities, and implements plans consistent with the long-term interests of the organization in a global environment by evaluating conditions, resources, capabilities, constraints, and organizational goals and values. Strategic planning requires a serious dose of critical thinking. Critical Thinking is the analysis of available facts, evidence, observations, and arguments to form a judgment. Critical Thinking is required, especially when the subject, and or situation is complex; which requires rational, skeptical, and unbiased analysis or evaluation of factual evidence. The most effective leaders are able to develop, articulate and execute a compelling vision that energizes and inspires others. You will objectively assess where your organization is in the grand DCAA strategy using a nesting concept. Then, design your strategy through lines of effort and critical tasks to build indicators of performance and effectiveness using the balanced scorecard. Leaders will leave with a partial product, prepared to transition their business unit into a more deliberately performing organization. This senior level course is a shortened version of our live LDR409 course. It is recommended that two to four strategic minded employees from the same CAD, Region or Directorate attend together to obtain the maximum benefit from this course.
