

Traffic Safety Package Bill Signing

On June 30, Secretary of Transportation Nicole Majeski and Deputy Secretary Shanté Hastings joined Gov. Carney and state legislators for the signing the six safety bills that have passed General Assembly.

We are grateful to the state legislators who stepped forward to sponsor and support these bills, and Governor Carney for signing this package into law today as we enter peak summer travel season on our roads.

Delaware has had 43 fatalities on our roads since Governor Carney announced the introduction of these bills three months ago, bringing our total for the year to 75.
