

Acknowledgements

This Wetland BMP Manual: Techniques for Avoidance and Minimization is in partial fulfillment of contract agreements between the State of Rhode Island and Providence Plantations Department of Environmental Management (DEM), the New England Interstate Water Pollution Control Commission (NEIWPCC), and the Environmental Protection Agency (EPA), Region I. The agreements were funded in part by the EPA Region I, Clean Water Act Section 104 (b)3 Wetland Program Development Grants and by the State of Rhode Island. The project was managed, coordinated and edited at DEM by Sue Kiernan and Carol Murphy. NEIWPCC contracts were overseen by Beth Card, Rebekah Lacey, and Kerry Strout.

Susan Ely, formerly of NEIWPCC, is the principal author of and researcher for the Wetland BMP Manual and she skillfully facilitated the work of the DEM technical team. Anne Jett Owens, also formerly of NEIWPCC, and Christopher Rowe, formerly of DEM, were the Manual designers and illustrators. Chris also honed the text and examples to provide consistency in later drafts. Christine Caron of NEIWPCC assisted DEM with final editing and production.

The DEM technical team members were Dan Kowal, Claire Swift, Joe Casey, Nancy Freeman, Jane Kelly, Jay Osenkowski, Nick Pisani, PE, Ray Larson, PE, Greg Swift, Jennifer Stout, Bruce Ahern, Howard Cooke, Hank Ellis, Steve Tyrrell, and former DEM staff Dean Albro, Michael Dahlquist, Heather Hamilton, and Leland Mello. Each of these team members contributed expertise and assistance, without which the manual could not have been drafted.

Many others assisted with the development and shaping of the manual and acknowledgements are therefore made to the following individuals:

§ Within DEM: Terry Walsh, Elizabeth Scott, Lisa Lawless, PE, Scott Millar, Ron Gagnon, PE, Ken Ayars, PE, Terri Bisson, Melinda Hopkins, Charlie VanPatten and prior staff Jim Riordan, Fred Presley, and Eugene Pepper.

§ Outside DEM: Karen Beck, RLA, (Commonwealth Engineers and Consultants, Inc.) regarding Chapter 10 Plantings, Steve Cabral, PE, (Crossman Engineering, Inc.), Christopher Duhamel, PE (DiPrete Engineering Associates), Frank Golet, PhD, (University of Rhode Island and Wetland Task Force), Emilie Holland (RI DOT and Wetland Task Force), Briscoe Lang (Pare Associates), Christopher Mason (Mason and Associates, Inc. and Wetland Task Force) regarding Chapter 5 Golf Courses, and Kelly Presley (former RIDOT).

§ From NEIWPCC: Deb Pelton (former staff).

Special acknowledgements to Peter Holmes, EPA Region I, Rhode Island Wetland Program Coordinator and DEM wetland managers and supervisors, Alicia Good, PE, Russ Chateaufneuf, PE, Chuck Horbert, Marty Wencek, and Hank Ellis all of whom provided longstanding assistance and support during the development and completion of this Manual.

A document of this scope would not have been possible without the contributions of all of these people.
