All Insurers Authorized to Transact Workers' Compensation in California
Katrina S. Hagen, Director, Department of Industrial Relations
Fiscal Year 2024/2025 Assessments:
 Workers' Compensation Administration Revolving Fund Assessment (WCARF) Subsequent Injuries Benefits Trust Fund Assessment (SIBTF) Uninsured Employers Benefits Trust Fund Assessment (UEBTF) Occupational Safety and Health Fund Assessment (OSHF) Labor Enforcement and Compliance Fund Assessment (LECF)

• Workers' Compensation Fraud Account Assessment (FRAUD)

Labor Code Sections 62.5 and 62.6 authorize the Department of Industrial Relations to assess employers for the costs of the administration of the workers' compensation, health and safety and labor standards enforcement programs. These assessments provide a stable funding source to the support operations of the courts, to ensure safe and healthy working conditions on the job, to ensure the enforcement of labor standards and requirements for workers' compensation coverage.

Labor Code Sections 62.5 and 62.6 require allocation of the six assessment types between insured and selfinsured employers in proportion to payroll for the most recent year available. Enclosed with this letter is an invoice for assessments for your company's (or companies') share of the following total assessments, and a document showing the methodology used to compute the assessment amounts and the resulting determination of the respective assessment/surcharge factors. The factors are applied to the premium amount as described in the following sections of this letter.

Labor Code § 62.6	Workers' Compensation Fraud Account Assessment (FRAUD)	\$ 90,435,332	0.004096

The total assessment is calculated based on the direct workers' compensation premiums reported to the Department of Insurance for Calendar Year 2023 by you or your group of carriers. Your first installment is due on or before January 1, 2025, with the balance due on or before April 1, 2025.

Assessment Methodology for Single Carriers

If you were a single carrier and not part of an insurer group who reported data to the WCIRB on an individual company basis for 2023, your Total California Direct Written Premium for assessment purposes is the amount reported for calendar year 2023 to the WCIRB, which reflects the premiums charged to policyholders with the exception that it excludes the impact of deductible credits, retrospective rating adjustments, and policyholder dividends.

Assessment Methodology for Insurer Groups

If you were part of an insurer reporting group who reported data to the WCIRB for 2023, your Total California Direct Written Premium for assessment purposes has been determined as the product of (a) the total 2023 written premium reported to the WCIRB on the aforementioned basis and (b) the ratio of your company's 2023 California written premium as reported in the 2023 Statutory Annual Statement (these amounts include the effect of deductible credits and retrospective rating adjustments) to the total 2023 Statutory Annual Statement of California written premium reported for your insurer group as a whole.

HOW YOUR ASSESSMENT AMOUNTS WERE CALCULATED:

WCARF ASSESSMENT (Section 5.1 of attached Methodology): (1.025716190* X 2023 Total California Direct Written Premium**) X 0.012370

SIBTF ASSESSMENT (Section 5.3 of attached Methodology): (1.025716190* X 2023 Total California Direct Written Premium**) X 0.030148

<u>UEBTF ASSESSMENT (Section 5.5 of attached Methodology):</u> (1.025716190* X 2023 Total California Direct Written Premium**) X 0.000818

OSHF ASSESSMENT (Section 5.7 of attached Methodology): (1.025716190* X 2023 Total California Direct Written Premium**) X 0.001885

LECF ASSESSMENT (Section 5.9 of attached Methodology): (1.025716190* X 2023 Total California Direct Written Premium**) X 0.001058

FRAUD ASSESSMENT (Section 5.11 of attached Methodology):(1.025716190*X 2023 Total California Direct Written Premium**)X 0.004096

* Ratio of the expected total 2024 premium to the 2023 Total Direct Written Premium of all insurers who were not granted assessment waivers (\$16,300,000,000) \div (\$15,891,335,407) = 1.025716190

** For the insurers who were granted assessment waivers, the expected current year premium replaces the 2023 Total California Direct Written Premium, pursuant to California Code of Regulations, Division 1, Chapter 8, Subchapter 2.06, Section 15606.1.

REQUIRED EMPLOYER ASSESSMENTS

All workers' compensation insurance policies you issue with an inception date during the calendar year 2025 must be assessed to recover amounts advanced on behalf of policyholders. Assessable Premium is the premium the insured is charged after all rating adjustments (experience rating, schedule rating, premium discounts, expense constants, etc.) except for adjustments resulting from the application of deductible plans, retrospective rating or the return of policyholder dividends.

The assessment factors to be applied to the estimated annual assessable premium for 2025 policies are shown in the table on the first page. These are the same factors that were used to calculate your attached assessment.

If you have any questions relating to the Insured Employer Assessment, please send an email to: DIRDWC_Assessment@dir.ca.gov

Katrina S. Hagen Director
