Resetting the Process

Voting Process

Voting Process for May 8

- The facilitator will review all of the scenarios with the work group.
- Work group members will receive a link to a Google form that lists **all** of the scenarios.
- Members will vote “thumbs up, sideways, or down” for each scenario using this form.

How to Vote

- If you would like a scenario modeled, vote **thumbs up**.
- If you generally like a scenario but have some reservations, vote **thumbs sideways**.
- If you do not want a scenario modeled, vote **thumbs down**.

Voting Process, Continued

- **Supermajority of at least 75%** must vote thumbs up or sideways for a scenario to advance to modeling.
- Scenarios that pass will be placed on the accepted list.
- If the work group does not pass enough scenarios to fill available slots, the facilitator will ask members voting thumbs down to explain their concerns and/or offer “friendly amendments” to improve support.

Voting Process, Continued

- A second vote will be held.
- If the work group passes more scenarios than slots available, those with the fewest “thumbs up” votes will be dropped.
- If the work group does not pass enough scenarios to fill available slots, a third vote could be taken *if time allows*. If not, the contractors will proceed with the scenarios that have passed, even if some slots are empty.
- **No additional voting will occur after May 8.**
