Report of the External Auditor

The Report of the External Auditor is available under Conference document reference number C 2007/5 B

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

FINANCIAL STATEMENTS 2004-05

Opinion of the External Auditor

I have audited the accompanying financial statements, comprising Statements I to IV, Schedule 1, Annexes I and II and the supporting Notes 1 to 26 of the Food and Agriculture Organization of the United Nations for the financial period ended 31 December 2005. These financial statements are the responsibility of the Director-General. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with the Common Auditing Standards of the Panel of External Auditors of the United Nations, Specialized Agencies and the International Atomic Energy Agency and conforming with International Standards on Auditing. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, and as considered by the auditor to be necessary in the circumstances, evidence supporting the amounts and disclosures of the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Director-General, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for the audit opinion.

In my opinion, these financial statements present fairly, in all respects, the financial position as at 31 December 2005 and the results of operations and cash flows for the period then ended in accordance with Food and Agriculture Organization's stated accounting policies set out in Note 2 of the financial statements, which were applied on a basis consistent with that of the preceding financial period.

Based on a test check, in my opinion, the transactions of Food and Agriculture Organization have, in all significant aspects, been in accordance with the Financial Regulations and Legislative Authority.

In accordance with Article 12.9 of the Financial Regulations, I have also issued a long-form report on my audit of the Food and Agriculture Organization's financial statements.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Notes to the Financial Statements

1. The Organization

The Food and Agriculture Organization (the Organization), was established on 16 October 1945. Its headquarters are in Rome, Italy. The purpose of the Organization is to raise levels of nutrition and standards of living; secure improvements in the efficiency of the production and distribution of all food and agricultural products; better the condition of rural populations; and thus contribute toward an expanding world economy and ensure humanity's freedom from hunger.

The Organization's Programme of Work is approved by the Conference of Member Nations. The related budget appropriations voted are financed by annual contributions based on an assessment on Member Nations and Associate Members by the Conference. Unutilised appropriations at the close of the financial period are cancelled, except for the Technical Cooperation Programme (TCP) appropriation which remains available for obligations during the financial period following that for which the funds were voted.

Voluntary contributions for special purposes, which are consistent with the policies, aims and activities of the Organization, may be accepted by the Director-General and Trust and Special Funds established accordingly. In addition, the Organization receives funds under an inter-organizational arrangement with the United Nations Development Programme (UNDP) to participate as an executing agency for UNDP technical cooperation projects or act as implementing agency for UNDP funded projects executed by other executing agencies. Voluntary contributions and funds received include payment towards recovering certain costs relating to technical, managerial and administrative services (support costs) which are a necessary part of extra-budgetary projects.

In agreement with the main multilateral financing agencies for agriculture, the Organization provides investment support services under jointly financed missions to individual countries, for which it receives reimbursement of an agreed share of costs.

2. Summary of Significant Accounting Policies

Financial Period

The financial period is a biennium consisting of two consecutive calendar years.

Basis of Preparation

The financial statements are prepared under the historical cost convention and in accordance with applicable accounting standards.

Income

Income is recognised when the Organization becomes entitled to it with the exception of voluntary contributions, funds received under inter-organizational arrangement and jointly financed activities. This income is recognised proportionately with the degree of project activity completed as measured in terms of expenditure.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Expenditure

Expenditure is recognised as costs are incurred.

Equipment, Furniture and Vehicles

The cost of equipment, furniture and vehicles is fully expensed in the year of purchase.

Reporting Currency

The financial statements are expressed in US dollars, the functional currency of the Organization.

Foreign currencies

Income and expenditure in currencies other than US dollars are translated into US dollars at the UN operational rates of exchange which approximate the market rate in effect at the date of the underlying transactions. Cash and term deposits in currencies other than US dollars are translated at the UN operational rate of exchange in effect at 31 December 2005. Exchange differences are taken to the income and expenditure account and transferred to the Special Reserve Account.

The currency variance on Headquarters staff costs arising from differences between the budget rate and UN operational rates of exchange is no longer transferred to the Special Reserve Account from 1 January 2004.

Investments

Investments are stated at the lower of cost and market value determined on a total portfolio basis.

End of Service and Retirement Benefits

The end of service and retirement benefits expense rates and liabilities are determined by actuarial valuation. Current service costs and amortisation of unrecorded liabilities are charged to expenditure on an accruals basis. The resultant unrecorded liability for After Service Medical Coverage is amortised over 30 years commencing 1998 and other end of service schemes are amortised over 15 years commencing 1998.

Rounding Policy

The financial statements are expressed in thousands of US dollars.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Consolidation Policy

- FAO Programme of Work

The consolidated financial statements are reported by segment consisting of (a) General and Related Funds and (b) Trust and UNDP Funds.

- FAO Credit Union

Conference Resolution 37/75 stipulated that the Credit Union is an integral part of FAO and provided that (a) the Credit Union funds and net assets be placed in a special account administered separately from all other funds and assets administered by FAO; (b) all costs incurred in the operation of the Credit Union and any financial liabilities arising out of the Credit Union activities are chargeable to the Credit Union funds and assets and (c) the statutes of the Credit Union contain provisions safeguarding the position of the Organization. These principles were duly incorporated in the statutes of the Credit Union. The Credit Union audited financial statements are not consolidated but separately presented to the Finance Committee.

- FAO Commissary

The operations and funds of the Commissary are, defined by Article XIII, Section 27, of the Headquarters Agreement which recognises that such officials enjoy (i) the right to import, free of duty and other levies, prohibitions and restrictions on imports and (ii) through the medium of FAO, reasonable quantities, to be agreed upon in accordance with a procedure to be established between the Italian Government and FAO of foodstuffs and other articles for personal use and consumption and not for gift or sale. The Commissary audited financial statements are not consolidated but separately presented to the Finance Committee.

3. Assessment on Member Nations

In 2002-03 cash and deposits were converted into a portfolio of short-term bonds and other liquid assets. Short-term investments are also held with the Bank for International Settlements (BIS). The short-term portfolio is a trading portfolio and securities are not necessarily held to maturity date.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

The cost and the market value of the short-term investments at 31 December 2005 amounted to \$368.4 million (2002-03 - \$292.1 million) and \$368.1 million (2002-03 - \$291.7 million) respectively. The unrealized loss of \$0.3 million was provided for in Statement I, in the provision for investments.

Earned long-term investment income of \$36.6 million (2002-03 - \$10.1 million) was applied to Staff Related Schemes in 2004-05. The market value of the long-term investments at 31 December 2005 was \$230.3 million (2002-03 - \$185.6 million). The long-term portfolio comprises approximately 50% of equities and 50% of fixed income (in Euro).

An additional assessment of \$14.1 million was assessed in 2004-05 towards funding the amortization of the After-service Medical Coverage. Amounts received from the additional assessment are allocated to the long-term investment portfolio in the proportion of overall Member Nation assessments actually paid.

12. Contributions Receivable

14. Bank Loans

The Organization suffered cash shortages in the last five months of 2005 due to delays in payment of contributions by Member Nations. After recourse to the Working Capital Fund and Special Reserve Account balances to meet the General Fund cash requirements, the Organization was further obliged to borrow externally from August through 31 December 2005. The borrowing is repayable in periods up to two weeks, with various institutions, at

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

prevailing inter-bank rates. Unsecured external borrowings of \$71 million at 31 December 2005 were repaid in 2006 on receipt of contributions from Member Nations.

15. Contributions Received in Advance

Interest income transferred to Trust Funds and UNDP donor accounts included above amounted to \$14.3 million (2002-03 - \$6.7 million).

The amount for "Contributions Received in Advance" under "Trust and UNDP Funds" include funds retained under the United Nations Iraq Oil-for-Food (OFF) Programme which ceased in November 2003 except for certain administrative activities and related expenditure which continued until March 2004. At 31 December 2005, the Organization held OFF funds amounting to approximately US\$5 million pending settlement of residual liabilities.

16. Unliquidated Obligations

Unliquidated obligations include liabilities for the cost of personnel services incurred and contracts and purchase orders entered into as at 31 December 2005.

17. Accounts Payable

	2004-05	2002-03

19. Arrears Allocation

Conference Resolution 6/2001 authorised the use of part of the additional funds available to the Organization during the biennium arising from payment of arrears of contributions, particularly by the major contributor, for specific purposes, after providing for the implementation in full of the Programme of Work and Budget. Chapter 9 for "One-time expenditures" was established in 2002 on receipt of arrears from the major contributor. In accordance with Conference Resolution 6/2001, special purpose projects were established in Chapter 9 of the Programme of Work and Budget in the 2002-03 biennium. The balance in Chapter 9 "One-time expenditure funded from arrears" of \$41.4 million was carried-forward to the 2004-05 biennium.

The balance of the Arrears Allocation remaining at the end of 2005 was transferred to the new Capital Expenditure Account in accordance with Conference Resolution 10/2003. The movements in Chapter 9 "One-time expenditure" are as follows:

	2004-05	2002-03
Arrears Allocation for one-time Expenditure	41,382	44,912
Less: Expenditure incurred	(31,270)	(3,530)

Compensation Payments	16,589	16,495
Separation Payments	77,875	54,847
After Service Medical Coverage	145,102	110,840
	239,566	182,182

2004-05

2002-03

Conference Resolution 10/99 and 10/2001 approved, inter alia, that (i) any income generated from the investments held in respect of the Separation Payments Scheme and Staff Compensation Plan be applied to ensure the adequacy of those funds to extinguish the respective liabilities, (ii) should there be additional investment income then this should first in principle be earmarked for the After Service Medical Coverage liability and subsequently

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

for the Terminal Payments liability. In 2004-05 long-term investment income of \$36.6 million (2002-03 - \$10.1 million) was applied to Staff Related Schemes. Approximately two-thirds of the staff related liabilities represent liabilities payable in Euro.

Compensation Payments

Compensation Payments are due to staff members and their dependants in case of death, injury or illness attributable to the performance of official duties and, in certain circumstances, to supplement the disability and survivors' pensions paid by the United Nations Joint Staff Pension Fund. Compensation Payments are subject to actuarial review to ascertain the liabilities and recommend rates of contribution. The valuation method used is the one-year cost method. The details of the last review as at 31 December 2005 (and 2003) are as follows:

	2005	2003
Principal actuarial assumptions to determine cost of expected claims:		
(i) Annual discount rate	4.5%	5.5%
(ii) Annual cost-of-living increases in benefits	2.0%	2.0%
Actuarial present value of expected claims (\$ millions)	16.6	16.5

Separation Payments

Separation Payments are due to General Service category staff at Headquarters who are entitled to receive a separation payment equivalent to 1/13.5 of yearly salary for each year of service completed after 1 January 1975. Separation Payments are subject to actuarial review to ascertain the liabilities and recommend rates of contribution. The valuation method used is the projected unit cost method. The details of the last actuarial valuation as at 31 December 2005 (and 2003) are as follows:

	2005	2003
Principal actuarial assumptions to determine cost of benefits:		
(i) Annual discount rate	4.5%	5.5%
(ii) Future rate of salary inflation	2.5%	2.5%
Actuarial present value of benefit obligation (\$ millions)	77.9	76.9

The unrecorded liability for separation payments at 31 December 2003 of \$22.1 million has been extinguished due to the positive performance of the long-term investment portfolio which realized an investment income of \$36.6 million, applied to the separation payments liability in accordance to Conference Resolutions 10/99 and 10/2001.

Terminal Payments

Terminal Payments relate to payment of accrued annual leave, repatriation grant, termination indemnity, cost of repatriation travel and the removal of household goods for all eligible staff. Terminal Payments are subject to actuarial review to ascertain the related liabilities and recommend rates of contribution. The valuation method used is the aggregate cost method. The details of the last valuation as at 31 December 2005 (and 2003) are as follows:

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

	2005	2003
(i) Annual discount rate	4.5%	5.5%
(ii) Future rate of salary inflation	2.5%	2.5%
Actuarial present value of benefit obligation (\$ millions)	25.9	25.5

Based on the above actuarial review, the unrecorded liabilities for terminal payments at 31 December 2005 amounted to \$25.9 million (2003 - \$25.5 million).

After Service Medical Coverage

The After Service Medical Coverage Plan provides for worldwide coverage for necessary medical expenses of eligible former staff members and their dependants. The After Service Medical Coverage liability represents the present value of the share of the Organization's medical insurance costs for retirees and active staff post-retirement benefit accrued to-date. After Service Medical Coverage is subject to actuarial review to ascertain the related liabilities and recommend rates of contribution. The valuation method used is the projected unit credit cost method. The details of the last review as at 31 December 2005 (and 2003) are as follows:

	2005	2003
(i) Annual discount rate	4.5%	5.5%
(ii) Salary Inflation rate	2.5%	2.5%
(iii) Medical Inflation rate (medical inflation rate is assumed to decline linearly from 6.5% to 4.5% over the next 10 years)	6.5%	4.5%
Actuarial present value of expected claims (\$millions)	533.4	313.8

Based on the above actuarial review the unrecorded liabilities for after service medical coverage at 31 December 2005 amounted to \$388.3 million (2003 - \$202.9 million).

Pensions

The Organization is a member of the United Nations Joint Staff Pension Fund (UNJSPF) established by the General Assembly of the United Nations to provide retirement, death disability and related benefits to staff of member organizations. The scheme is of the defined benefit type and the Organization's obligation is limited to specified contributions to the Fund.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

21. Working Capital Fund

	2004-05	2002-03
Authorized level at 1 January 2004 and 2002	25,395	25,381
New Member Nations		14

Receipts from Member Nations	14	1,327
Receipts from Associate Members		14
Transfer to General Fund	(25,197)	
Special Reimbursement (Advance) for Redeployment and		
Separation Costs		8,360
At 31 December 2005 and 2003	0	25,183

The purpose of the Working Capital Fund is to advance moneys on a reimbursable basis to the General Fund in order to finance budgetary expenditures pending receipt of contributions to the budget; finance emergency expenditures not provided for in the current budget; and make loans for such purposes as the Council may authorise in specific cases. The authorised level of the Working Capital Fund set-up by Conference resolution 15/91 was originally \$25 million. The authorised capital was increased to \$25.4 million at 31 December 2003 and the amount paid up at 31 December 2005 was \$25.2 million. The balance of \$25.2 million was advanced from the Working Capital Fund to the General Fund in August 2005. This amount was reimbursed to the Working Capital Fund in 2006 on receipt of contributions from Member Nations.

22. Special Reserve Account

	2004-05	2002-03
Authorized level at 1 January 2004 and 2002	37,455	32,550
At 1 January 2004 and 2002	23,021	457
Receipts from Member Nations	2,057	6,016
Exchange differences on translation of foreign currencies	(14,762)	51,312
Currency variance on staff standard costs		(34,764)
Net transfer from/(to) General Fund	(10,316)	
At 31 December 2005 and 2003	0	23,021

The purpose of the Special Reserve Account is to protect the Organization's Programme of Work against the effects of unbudgeted extra costs arising from adverse currency fluctuations and unbudgeted inflationary effects. The authorised level of the Special Reserve Account is set by Conference Resolution 13/81 at 5% of the effective working budget for the respective subsequent biennium, amounting to \$37.5 million in 2004-05. Net gains or losses on exchange are charged to the Special Reserve Account.

Following the introduction of split assessments, Conference at its thirty-third session in 2005 decided to exclude charges to the Special Reserve Account due to the currency variance on

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Headquarters staff costs arising from differences between the budget rate and UN operational rates of exchange, with effect from the 2004-05 biennium.

Since the advance of the Working Capital Fund balance to the General Fund in August 2005 was insufficient to meet the General Fund cash requirements, the available balance of \$10.3 million was also advanced from the Special Reserve Account to the General Fund pending receipt of contributions from Member Nations. This amount was reimbursed to the Special Reserve Account in 2006 on receipt of contributions from Member Nations.

23. Capital Expenditure Account

The Capital Expenditure Account was established by Conference Resolution 10/03 as Chapter 8 of the Programme of Work and Budget and incorporated in Financial Regulation 6.11 as follows:

- a. "a Capital Expenditure Account, which will be used for the purpose of managing activities which involve capital expenditure, defined as being:
 - i. expenditures on tangible or intangible assets with a useful life in excess of FAO's financial period of two years;
 - ii. which generally require a level of resources which cannot be funded within the appropriation for a single biennium.
- b. the source of funds will be:
 - i. Regular Programme Appropriations approved by Conference;
 - ii. voluntary contributions;
- iii. recoveries from charges to users for the delivery of capital investment services.
- c. the use of the Account will be authorized under Chapter 8 through approval of the Appropriations Resolution by Conference (Financial Regulation 4.1) or through the application of Financial Regulation 4.5 as regards budgetary transfers.
- d. the balance on Chapter 8 of the budget at the end of each financial period shall be transferred to the Capital Expenditures Account for use in a subsequent financial period."

The balance on the Arrears Allocation at 31 December 2005 of \$10.1 million was transferred to the Capital Expenditure Account in accordance with the approval of Finance Committee, endorsed by Council (CL129/REP paragraph 48).

24. Special Fund for Emergency and Rehabilitation Activities

The Finance Committee, at its 102nd Session in May 2003, supported the proposal to establish the Special Fund for Emergency and Rehabilitation Activities (SFERA), with funding to be provided from the donor community and the Emergency and Rehabilitation Division (TCE). The initial target funding level was set at \$2 million.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

The FAO Council, at its Hundred and Twenty-seventh Session in November 2004, noted the Director-General's proposal to extend the target funding level of the SFERA to US\$20 million and to create an emergency trust fund with an annual target funding level of \$80 million.

The movements on the account are as follows

	2004-05	2002-03
Contributions Received	24,781	
Advances to projects	(9,957)	
Applications to Trust Funds projects	(13,470)	
Refund of Advances	10,067	
	11,421	

25. Contingent Liabilities

FAO received an assessment for garbage collection tax from the Rome Municipality for 1995 of the Lire equivalent of \$1.1 million representing an increase of 425% from the previous year. By Note Verbale of June 1995, FAO informed the Italian Permanent Representation of the impossibility of accepting such a request due to both legal and financial considerations. As of the end of 2005 the total garbage tax assessed on FAO is estimated at \$8.9 million (2002-03 - \$12.9 million) which resulted in a contingent liability of \$7.1 million (2002-03 - \$10.6 million) since \$1.8 million (2002-03 - \$2.3 million) had already been provided for. FAO has a legal obligation under provisions of relevant treaties to pay that portion of garbage collection tax that corresponds to the cost of the service rendered. Therefore, pending conclusion of an agreement with all parties involved, any amount charged by the Rome Municipality for garbage services rendered constitutes a potential liability for the Organization. Discussions with the Italian authorities, which have been in abeyance for sometime, have resumed.

26. Other Disclosures

Equipment, Furniture and Vehicles

The historical cost of fully expended FAO equipment, furniture and vehicles at the end of the biennium was as follows:

	2004-05	2002-03
General and Related Funds	68,973	56,386
Trust and UNDP Funds	50,786	41,916
	119,759	98,302

Voluntary Contributions in-kind

The Headquarters premises in Rome are provided rent-free by the Host Country in accordance to the Headquarters agreement. In addition, various Member Nations provide premises for FAO offices in field locations. It is estimated that the commercial rental value of the Headquarters and Field property provided rent-free is approximately \$16.2 million and \$4.7 million per year (2002-03 - \$16.1 million and \$4.5 million) respectively.

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Non-freely convertible Currencies

At 31 December 2005, cash balances held in non-freely convertible currencies amounted to \$3.4 million (2002-03 - \$3.1 million).

Currency Swaps

With the introduction of split assessments, the Organization has entered into USDollar/Euro swaps with the Bank for International Settlements as counterpart, to fund delays of Euro receipts from Member Nations throughout the biennium. At 31 December 2005, there was an open position with a nominal value of €30 million, closed on 6 January 2006.
