Re: Amendment to Laaqudan (northern fur seal) hunting dates annually

Aang aang, Greetings Mr. Kurland:

The Aleut Community of Saint Paul Island (ACSPI), would like to respectfully request that the St. Paul Co-Management Council investigate the feasibility of moving the authorized hunting season of juvenile fur seals from January 1 annually into the previous year to allow our tribal members additional hunting opportunities, which are much needed from a food security perspective.

Thank you for considering this request.

Sincerely,

Amos T. Philemonoff, Sr.
President, Aleut Community of St. Paul Island
