

JAMSTEC is calling for an application for piggyback projects onboard R/V MIRAI on her GO-SHIP (re)visit to I08N and I07S in 2019/20 season.

To apply, submit a short (1 to 2 page) application in any format readable to me (plain text, Microsoft Word, PDF, no hand writing please) as email attachment. The application needs to list:

1. Name and email address
2. Purpose of observation (1 line is good)
3. Description of method (1 paragraph is good)
4. Required resource onboard (instrument(s) onboard, water quantity, sampling frequency/depths (if known), etc.)
5. Number of personnel onboard from the project

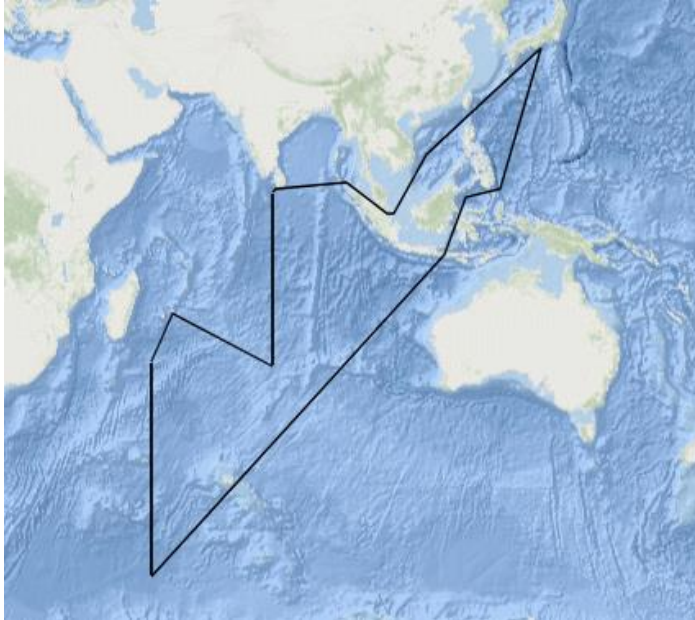

Deadline: 28th February 2018

Please note that we cannot guarantee acceptance of all applications. If we have more applications than we can afford, we will prioritize the projects and may have to reject some.

Detail of the cruise;

1. Platform: R/V Mirai
<http://www.jamstec.go.jp/e/about/equipment/ships/mirai.html>
2. Tentative dates (subject to change)
Leaving Japan in December 2019, returning in March 2020
