

Memorandum of Understanding

Between the

International Society for Photogrammetry and Remote Sensing (ISPRS)
and the
International Society for Digital Earth (ISDE)

International Society for Photogrammetry and Remote Sensing hereinafter referred to as ISPRS and International Society for Digital Earth hereinafter referred to as ISDE agree to establish the following Memorandum of Understanding (MoU). ISPRS and ISDE are referred together as Parties.

The Parties agree on the following:

- Whenever ISDE identifies among its community activities related to ISPRS, ISDE will promote ISPRS and inform its community about ISPRS events. Vice versa, whenever ISPRS identifies among its community activities relevant to ISDE, ISPRS will promote ISDE and inform its community about associated events of ISDE.
- To promote the development of related photogrammetry, remote sensing and spatial information sciences by holding joint international workshops and/or conference sessions on this matter.
- To bridge the gap between the photogrammetry, remote sensing and spatial information science communities and the ISDE community and to bridge the gap between digital transformation science and the ISPRS community.
- To work closely with the Group on Earth Observation (GEO), the International Science Council (ISC) and the UN-GGIM - Geospatial Societies, to help promote openness and ethics in education and research.

This MoU will be reviewed biennially by both parties at which time revisions may be made and the agreement renewed.

Signed in Nice on 6 June 2022

ISPRS

Christian Heipke, ISPRS President

ISDE

Alessandro Annoni, ISDE President
