## English Education at Kentucky State University

# English Education Degree Requirements

## THE ENGLISH EDUCATION MAJOR

The Bachelor of Arts Degree in English Education (ENE) Program intends that candidates become facile in multiple literacies so that their comprehension of the world around them transfers to the diverse classroom of learners. It is through our belief in the four cardinal components of our conceptual framework: knowledge, skills, dispositions, and diversity, that those acquired multiple literacies can best be integrated to liberate both the teacher and the student. Candidates study the English language, writing, literature in English translation, non-print media, speech, theater, and journalism, all reflecting a diverse, multi-cultural, technologically-centered world.

Within course work in those disciplines and their related learning experiences, candidates practice self-reflection and evaluation, collaboration, independent thinking, creative expression, continuous assessment, and integration of knowledge. Careful attention to developmental content and skills underpins the liberating nature of scaffolding the curriculum so that candidates can attach previous knowledge and skills to new knowledge and skills, and acquire the competencies necessary to become "Liberators through Education."

### The School of Education

The Educator Preparation Program is designed to prepare teachers to pursue positions in P-12 schools. There are 10 teaching areas in the Educator Preparation Program from which to choose. They are Studio Art Education, Biology Education, Elementary Education, English Education, Health Education (in conjunction with Physical Education Teaching), Math Education, Music Education, Social Studies Education, Physical Education Teaching and Interdisciplinary Early Childhood Education. The School of Education has one graduate program the Master of Arts in Special Education (LBD P-12). There are two non-teaching areas in the School of Education: Physical Education and Child Development.

As liberators through education, KSU teacher candidates are primarily learners who recognize the value of education and the inherent power of acquiring and utilizing knowledge. They understand the intellectual diligence required to acquire the knowledge necessary to qualify as a professional educator; they acquire the content knowledge important to the teaching in their content area; they know the primary importance of effective communication skills; they know the need to serve the community as a leader and role model who will shape diverse communities and exemplify the principles of high ethical conduct and individual responsibility; and they know that the pursuit of knowledge is a lifelong endeavor and continually seek to develop in their students a love of learning.
