I. DECISIONS TAKEN BY THE CONFERENCE OF THE PARTIES

Decision 1/COP.6

Further steps in the implementation of the Convention

The Conference of the Parties,

Recalling the extensive process of assessment by the Parties of the implementation of the Convention initiated with the report of the Ad Hoc Working Group submitted to the fifth session of the Conference of Parties,

Mindful of the deliberations and outcome of the various regional meetings and the ministerial conferences organized in the context of the Regional Implementation Annexes of the Convention,

Having reviewed the comprehensive report of the Committee for the Review of the Implementation of the Convention (CRIC) on its first session, held in Rome, Italy, from 11 to 22 November 2002,

Acknowledging the high degree of consistency between the Plan of Implementation of the World Summit on Sustainable Development and the measures advocated in the above report,

Resource mobilization including coordination and partnership agreements

1. *Recalls* the commitments of the Bonn Declaration and *Urges* that resources mobilization must be based on national and local needs and priorities and aim at national action programme (NAP) implementation in the context of a broader development framework such as poverty reduction strategies, national strategies for sustainable development, country assistance strategies and country strategy papers;
2. *Urges* the Global Mechanism (GM), together with the members of its Facilitation Committee, to promote resource mobilization for NAP implementation as a matter of the highest priority, as highlighted by the Declaration on the commitments to enhance implementation of the obligations of the Convention (decision 8/COP.4), without neglecting support to the subregional and regional action programmes;
3. *Invites* Parties, with the collaboration of relevant multilateral organizations including the GEF implementing agencies and the GM, to use the country-driven consultative mechanisms to identify the best options for mainstreaming the NAPs into national development frameworks and to mobilize the needed financial resources in a more predictable and coordinated manner;
4. *Urges* Parties to use the review process of the Convention to further strengthen the coherence of their ongoing bilateral and multilateral assistance within the framework of the implementation of the Convention and to actively incorporate findings into their procedures and programming of future assistance measures;

5. *Invites* affected developing countries, other Parties covered by Regional Implementation Annexes of the Convention, bilateral donors and multilateral institutions to identify, as appropriate, *chefs de file* to expedite the necessary consultative process, including the country-driven consultative mechanisms for partnership arrangements under the UNCCD to enhance the efforts for partnership building;

Rehabilitation of degraded land

8. *Urges* Parties, as well as bilateral and multilateral agencies to promote and facilitate the implementation of the programmes of the UNCCD relevant to the rehabilitation of degraded lands, in particular in the area of new and renewable sources of energy, as well as integrated water resources management and mountain ecosystem preservation;
9. *Encourages* Parties to take action at a specific spatial scale so as to address the local ecological and socio-economic conditions in a more holistic manner, notably through the promotion of small and medium-sized projects and activities at the local level, taking into account existing rehabilitation projects and promoting new rehabilitation projects;
10. *Urges* Parties, particularly developed country Parties, to support the rehabilitation of degraded ecosystems and habitats including those caused by refugee influxes;
11. *Invites* bilateral and multilateral agencies to provide financial and technical support for the implementation of the Convention in the light of the above provisions to vulnerable developing country Parties, particularly to those in Africa and Small Island Developing States, taking into account their vulnerability to the combined effects of land degradation, climate change and loss of biodiversity;

aquaculture, recreation, ecotourism and adherence by the mining/extraction industry to codes of sustainable land use practice;

15. *Invites* Parties to adopt and enhance policy measures and incentive schemes to encourage private-sector support for technological and scientific cooperation benefiting the drylands, in order to encourage the dissemination of incentive systems and best practices which help mobilize private sector investments and promote public/private joint ventures, including within the NAPs;

16. *Requests* the secretariat to liaise with those concerned institutions which are exploring measures to facilitate opportunities for dryland products to access international markets;

Capacity building, including in the area of participatory processes, legislative and institutional frameworks and promotion of synergies

17. *Invites* affected developing country Parties and other Parties covered by Regional Implementation Annexes of the Convention, with the support of developed country Parties, and concerned institutions, to promote gender-sensitive capacity-building measures for stakeholders to carry out specific participatory and synergistic programmes as part of their NAPs to combat land degradation and mitigate the effects of drought, protect biodiversity, facilitate the regeneration of degraded forests, while promoting sustainable livelihoods at local level;

18. *Encourages* Parties to mainstream NAPs into national development plans and institutional frameworks through national consultative processes, as appropriate;
