

Equipment Theft Alert

Rental Fraud Alert – Michigan fraud ring still active 10/3/2018

Throughout the summer, equipment rental businesses in Michigan, Ohio, Indiana and Kentucky have been targeted in a rental scam where a subject calls to reserve equipment for an employee who picks up the equipment, sometimes in a rented U-Haul truck. The caller may ask that the rental company try multiple credit cards to secure the deposit. Rented equipment is not returned and the caller cannot be located.

Despite arrests of subjects involved in these thefts in Ohio in September, rental businesses in Ohio and Kentucky report receiving requests for rental by subjects using the same tactics, as recently as last week:

- Phone order by client from out of state for earth moving equipment and trailer.
- Caller may call several times with repeated questions about deposit policy and equipment availability.
- Recent deposits were accepted through Card Connect with the card holder name matching information provided by the caller This may indicate the cards are stolen but the victim is not yet aware of the theft and has not reported the card stolen.
- Callers claim to be from North Dakota but their phone number had a Michigan area code, using the business name DeLeon or Dion Construction.
- Targeted equipment are Compact Tracked Loaders, Mini Excavators and recently large stump grinders. The perpetrators have knowledge of the equipment they're requesting and may ask for specific makes and models.

This alert is to raise awareness among the rental industry and Law Enforcement that this rental scam continues to be perpetrated even though some subjects involved have been arrested. NER strongly encourages rental operators to be vigilant and adhere to rental requirement policies, especially when dealing with out of state clients.

NER asks that any equipment theft, whether by fraud or outright taking, be reported to NER as soon as practical. NER accepts reports from owners, insurers and Law Enforcement. Equipment may be reported whether its registered with NER or not.

Submit theft reports online at www.ner.net and click on the "[Report A Theft](#)" link, or email NER at info@ner.net

The image at right was taken of a machine stolen in this scam, and a subject offering the machine for sale in Detroit. Please take steps to be sure your machine does not end up like this.

Law Enforcement - For access to NER's equipment ownership registration and theft records, and for machine identification assistance, call NICB: **800-447-6282**. For online access, click "[Log in](#)" at www.ner.net

Industry – Report suspicious activity involving equipment – **Dial 911**
