Jenny,

Thanks for your e-mail. It was great to hear you as well. I find that NMFS and USFWS folks are very appreciative of help they receive from AF/DoD. We have a USFWS liaison here in our office and a great partnership is underway. Contact me anytime. In this office, I am considered the ESA expert - but - nobody besides lawyers really understand the complexities of the Act. Take care and stay in touch. Julie

Hi Julie,

This is great! I am reaching out to my coworkers in Hawaii for the INRMP on Bellows. Thank you for your help, and it was good to hear a familiar voice on the DoD/ESA call last week!

Jenny

Jennifer,

I may have already provided this to you. This is from Bill Grannis. I believe his biologist, Joel Helm, has provided your Pacific counterparts with INRMPs for the following AF properties:

- Bellows AFS (Oahu, Hawaii): Has INRMP and actually had several nesting events this year. The NRM (Craig Gorsuch) and installation has made significant effort to improve habitat for nesting sea turtles.
- Wake Island: Has INRMP: Joel Helm is the NRM as you know.
- Johnston Atoll (JA): No INRMP for JA as there is no AF mission (other than IRP monitoring) and intent for quite some time has been to transfer to DOI. USFWS goes out there regularly. Joel Helm is the NRM and is aware of this tasker (seen it multiple times).

Please let me know if I have inadvertently left out anything. I may have already sent you this. I am getting more forgetful all the time, so please feel free to call or e-mail with any questions. I am glad to help out. v/r Julie
