Great! Please let me know if you have questions or would like more information about any of the installations.

Thank you, Jenny. We've recently finished annual updates to the Mayport, Key West, Panama City, and Pensacola INRMPs, so I will deliver the most recent versions of those four to you through the AMRDEC share site.

Jered

Hi Jered,

We at NMFS are just creating our maps for areas that may be considered as

critical habitat. My next step is to review available INRMPs and identify exemptions, so your timing is perfect. Give me a couple of weeks to review the INRMPs for the areas listed below. I believe that I have current versions of these INRMPs but will email you if I am missing anything. Once I am done reviewing the INRMPs, I will get in touch with you to discuss the benefits to the species.

Thanks for your help!

Jenny

SE<jered.jackson@navy.mil> wrote: Ms. Schultz and Ms. Lauritsen, I track the Federal Register notices for all the Navy installations in NavyRegion Southeast and saw that you were the two POC's for the recent FinalRule for green sea turtle DPS's. The FR notice stated that Critical Habitat would be proposed in a future rulemaking, so I wanted to make sure you have my contact information in case you have questions about the INRMPs and sea turtle management strategies at the various Navy properties across the Southeast (i.e., Kings Bay, GA; Mayport, FL; Dania Beach, FL; Key West, FL; Panama City, FL; Pensacola, FL; Gulfport, FL; and Corpus Christi, TX). Please don't hesitate to call or e-mail as questions arise.
