Subject: Statement from NOAA dated 06 September 2019

Ms. Roberts--

Were you responsible for drafting and releasing the statement disavowing the social media posts of the Birmingham (AL) NWS office?

This statement specifically?

"From Wednesday, August 28, through Monday, September 2, the information provided by NOAA and the National Hurricane Center to President Trump and the wider public demonstrated that tropical-storm-force winds from Hurricane Dorian could impact Alabama. This is clearly demonstrated in Hurricane Advisories #15 through #41, which can be viewed at the following link.

The Birmingham National Weather Service's Sunday morning tweet spoke in absolute terms that were inconsistent with probabilities from the best forecast products available at the time."

Thanks for taking the time to respond...
