That sounds good -- hit what you can, keeping the bar high for comments that are worthy of a response.

I will only have 30 minutes available before 2, so you can have whatever I can do then if you want it.

Can it be more like early afternoon, or 2? I hate passing on the pressure, but we are getting pressure to get something back and would like to work it to get revisions in as soon as we can.

Hi Dan,

Can you take a look at the attached excerpts from the KW EnvB section?

We had some comments that we need to decide how to appropriately address.

If you could respond to the comments and/or make edits to address the comments - that would be great!

Responses may include "text is accurate, recommend no changes"

etc.

let me know if you have any questions!
