Subject: Some missing elements in the 6/11/19 evening PA version

I have looked through the Delta section of the revised PA shared by Dave last night and identified some missing elements based on our Delta discussion on 5/21. See suggested text revisions in the attached, at the following pages:

p. 4-47: Added what DCC ops would be from Feb 1 to May 20.

p. 4-50: Comment about specific transfers -- wasn't sure if additional text needed in PA or we can just keep clarification in BiOp.

p. 4-61: Suggested clarification of spring-run surrogate criterion in OMR storm flex section

p. 4-63: Additional sentence in Delta Smelt Habitat Action that was wordsmithed during live-editing of the Delta effects section on 5/21/19 and included in our peer review Delta effects section draft.
