Yeah it looks fine to me; it's just a plan (they said all the right things). The real test will be the revised model's performance in operations planning and in real-time.

Maria, Garwin,

I wanted to check in to see if you've had a chance to review the draft workplan in greater detail since we last talked on Thursday. We're hoping to speak about this with some of our CVP stakeholders this week, so we wanted to see if you had any initial thoughts, reactions, concerns, or wanted to discuss the document/plan in more detail.

Thanks,
Jeff
