Attachments: Save the date e-mail.docx

Jeff--Thanks. See attached for some suggested track changes. I added Christina's suggested text.

Aimee--Please send over to Jeff our canned warning about potential delays getting through security in our building.

Jeff--I think we should include in the e-mail the delay warning so folks can factor that in to their travels.

Hi Jeff,

This looks good to me, although I wonder if we are sending this out to the same listserv of folks that we invited to the first meeting if we want to start by saying something like "Thank you to all those who participated in our first of four stakeholder workshops held on March 24. We committed during that meeting to following up with a set of meeting notes as well as answers to questions posed during that meeting that required more time to answer. We are still actively working on these products and will follow up with meeting participants soon with that additional information."

.....or something like that. I feel like we should acknowledge that we owe them stuff in concert with asking them to come meet with us again. What do you think?

Thanks,
C

Garwin, Christina,

See below and let me know what you think; I can send this out this afternoon if everyone is good with it.

Thanks,
Jeff

Greetings,

Please Save The Date for the second of four stakeholder meetings to discuss the draft proposed amendment (issued January 19, 2017) to the Reasonable and Prudent Alternative of the 2009 NMFS Biological Opinion for the long-term operation of the Central Valley and State Water Projects related to Shasta Reservoir operations.

This meeting will be held:

Tuesday, May 2, 2017
1:00 pm - 4:30 pm
650 Capitol Mall, Stanford Room, Sacramento (location of NMFS Offices)

This meeting will focus on two topics; 1) temperature management planning for the 2017 temperature management season, and 2) system-wide analyses of the proposed draft RPA amendment. More details, including a meeting agenda, will follow in the coming days.

Please feel free to forward this message to anyone we may have missed that should be involved.
