Garwin,

Maria sent an email earlier this AM to Aimee and I that she needed to convey her regrets that she will not be able to attend as a result of family health issues that are going on right now for her. I noticed Aimee was out and was not sure who else had contact info for the conference, so thanks for sending this note. I'm happy to connect back with Rebecca to convey this sentiment if that works best for you. Just let me know.

Thanks,  
C

1. It would be helpful to get back to Rebecca regarding Maria's availability and likelihood of participating on the panel. Last I heard, Maria's calendar will allow her to go, but Aimee is awaiting conference approval.
2. This morning, Jeff R. asked me if NMFS is aware of the ACWA panel, and indicated that he heard that David Murillo (not sure if in his role as Reclamation's mid-Pacific Regional Director, or his acting role as Reclamation's Director), Chuck Hanson, and a rep of the Sacramento River Settlement Contractors will be on the panel.

David Murillo, Chuck Hanson, SRSC

Good afternoon, Mr. Yip:

The Association of California Water Agencies (“ACWA”) will be hosting a program on Shasta Temperature management on Wednesday, May 10, 2017 from 3:30 – 4:45 pm at the Portola Hotel in Monterey, CA. I had previously sent an invitation to your Assistant Regional Administrator, but have not heard back. I am wondering if you would be interested in participating in her place, if she is unavailable to attend. I look forward to hearing back from you soon regarding your interest.

Thank you,

[Rebecca](#)

Good morning, Ms. Rea:

I just wanted to follow up on my previous email regarding NOAA’s participation in an upcoming conference panel that will be held on May 10<sup>th</sup> in Monterey. I chatted with some of our member agencies and they suggested that if you are unable to participate, they would be interested in having Mr. Garwin Yip participate in the panel. I look forward to hearing back from you soon regarding NOAA’s interest.

Thank you,

[Rebecca](#)

**Subject:** Invitation to Speak at ACWA Spring Conference May 10, 2017

Dear Ms. Rea,

The Association of California Water Agencies (ACWA) would like to invite you (or a member of your staff) to participate in a program to be held at ACWA's Spring Conference on Wednesday, May 10, 2017 from 3:30 – 4:45 pm at the Portola Hotel in Monterey, CA. The program description is as follows:

**Shasta Temperature Management: Impacts on fish, food and flows**

After record low Chinook salmon survival rates in the 2014-2015 water year, the National Marine Fisheries Service is proposing to lower the temperature requirements on the Sacramento River to protect Chinook salmon eggs and hatchlings. Come to this session to learn about the challenges associated with meeting the existing temperature management plan, the scientific basis for the new proposal, and what kinds of water supply challenges this plan will pose if it is implemented.

Participation in this panel discussion would entitle you (or your agency's representative) to complimentary registration for the entire day. I look forward to hearing back from you soon regarding your interest.

Sincerely,

**Rebecca Franklin**

Senior Regulatory Advocate
