**Subject:** Workshop materials: Draft PPT and revised notes from Workshop 1  
**Attachments:** 2017-05-02 ShastaRPAPresentation\_v1.ppt; ATT00002.html; 2017-03-22 ShastaWorkshop1 Notes\_Responses.pdf; ATT00004.html

Maria,

Attached is BOR's presentation for tomorrow. Garwin, brycen and I have reviewed and our comments have been incorporated into this version.

Also attached FYI are our notes and get back responses from workshop #1. Jeff plans to send both of these out to the workshop invites tomorrow. I don't think you need to spend time reading them before tomorrow, but I wanted you to have a copy. These were drafted mostly by Garwin, Brycen, Eric D, and myself. BOR reviewed and made minimal revisions to our draft.

Aimee, can you print a hard copy of these attachments for Maria's folder tomorrow?

Regarding Pablo and your talking points: please let me know if you have revisions to either set. I was planning to share a draft with Jeff and BOR tomorrow morning.

Regarding your request for the pilot project language: I found the document in a separate email and will forward to you and Aimee for printing.

Thanks,  
Christina
