Jeff,

Thanks for the opportunity to review. See attached for track changes for both agendas. I provided some comments in the notes page of the PPT. The main comment and focus for our 3:30 p.m. meeting should be to enlighten NMFS on the modeling effort and characterization of the "current operations" scenario.

See you soon.

-Garwin-

Garwin,

Attached is a PPT that contains the initial modeling results that we discussed on Friday. Note that we're still refining some of the analysis details, and will refine this PPT further for Thursday's presentation to get to the higher-level points without getting too much in the technical details, but for tomorrow's discussion we will likely provide an overview of what's in some of these slides.

I've also attached a draft agenda for tomorrow's meeting, as well as a draft agenda for Thursday's stakeholder meeting.

Let me know if you have questions or need additional info, and look forward to talking tomorrow.

Thanks,  
Jeff
