Folks,

Thanks to folks who shared their management questions, I've incorporated them. I also made many suggested changes from Dave.

I am working on the core monitoring part based on our FY17 activities. I should be able to crosswalk that with the FY18 planned activities later in September, since we are on the brink of a new fiscal year. I am working to review the NCWA action plan too for special studies and core monitoring activities from 2017.

I am also going to start working on slides to share with this group on Monday.

Please send any additional input by Friday COB and I will aim to incorporate it into what I send out on Monday.

Thank you, Josh
