We have a contract with them - same one we had last year. So same interpretation of their assistance. We should be good to go

Can you confirm?

This was supposed to be workshop #4, but will now be a conference call update #3.5, with a new workshop #4 TBD in November.

Hi Garwin, Michelle, and Jeff – we are happy to try and assist.

Can you confirm that we have a contract vehicle for this effort? I believe we used the existing YCWA contract issued by NOAA to cover the last session.

As far as a call for logistics planning: I can be available from 2-3 pm on Wednesday afternoon.

Let me know,

JMH

**Subject:** Proposed Shasta RPA amendment workshop #4

Mike and Michelle,

Reclamation and NMFS have been discussing the analyses, timing, and presentations for workshop #4 scheduled for next Thursday, and agree that we're not ready for prime time. Rather, we're thinking about it being a conference call instead of an in-person workshop, and more of an update on what we've been working on. Questions for you:

-- We think there is still a need for facilitation and notetaking, but that can be done in the comforts of your home offices. Would you agree?

-- We think of next Thursday afternoon as "workshop 3.5" and more of an update, so we would still need to schedule workshop 4. Are both of you available (contracting, budget) to help us with that workshop?

-- We should get on a conference call next week to discuss logistics associated with next Thursday afternoon, and also the next workshop. I'll block out an hour just in case. Jeff and I are available:

++ Monday, 9/18: 7:30-8:30 a.m., 12-1 p.m.

++ Wednesday, 9/20: 1-4 p.m.
