

Editor's Report for the Ranges TS

Eric Niebler eniebler@boost.org

Date: 2015-11-05

Document number: N4561

Acknowledgements

Many thanks to the members of the Library Working Group and the Library Evolution Working Group who have contributed materially to the initial Working Draft of the Ranges TS. Special thanks are due to Herb Sutter and the Standard C++ Foundation for their generous grant which has made this work possible, and to my coauthor Casey Carter for his tireless work improving the working text.

History

N4560 is the initial working draft for the Technical Specification on Ranges. Its initial content is from P0021R0, as adopted in Kona (2015-10).
